SUPPLEMENTARY INFORMATION:

I. Background

The Department of Commerce (Department) collects, compiles, analyzes, and disseminates a treasure trove of data, including data on the Nation's economy, population, and environment. This data is fundamental to the Department's mission and is used for the protection of life and property, for scientific purposes, and to enhance economic growth. However, the

Department's capacity to disseminate the increasing amount of data held and to disseminate it in formats most useful to its customers is significantly constrained.

In order to realize the potential value of the data the Department collects, stores, and disseminates, the Department must minimize barriers to accessing and using the data. Consistent with privacy and security considerations, the Department is firmly committed to unleashing its untapped data resources in ways that best support downstream information access, processing, analysis, and dissemination.

The Commerce Data Advisory Council (CDAC) provides advice and recommendations, to include process and infrastructure improvements, to the Secretary on ways to make Commerce data easier to find, access, use, combine and disseminate. The aim of this advice shall be to maximize the value of Commerce data to all users including governments, businesses, communities, academia, and individuals.

The Secretary will draw CDAC membership from the data industry academia, non-profits and state and local governments with a focus on recognized expertise in collection, compilation, analysis, and dissemination. As privacy concerns span the entire data lifecycle, expertise in privacy protection also will be represented on the Council. The Secretary will select members that represent the entire spectrum of Commerce data including demographic, economic, scientific, environmental, patent, and geospatial data. The Secretary will select members from the information technology, business, non-profit, and academic communities, and state and local governments. Collectively, their knowledge will include all types of data Commerce distributes and the full lifecycle of data collection, compilation, analysis, and dissemination.

II. Description of Duties

The Council shall advise the Secretary on ways to make Commerce data easier to find, access, use, combine, and disseminate. Such advice may include recommended process and infrastructure improvements. The aim of this advice shall be to maximize the value of Commerce data to governments, businesses, communities, and individuals.

In carrying out its duties, the Council may consider the following:

—Data management practices that make it easier to track and disseminate integrated, interoperable data for diverse users;

—Best practices that can be deployed across Commerce to achieve common, open standards related to taxonomy, vocabulary, application programming interfaces (APIs), metadata, and other key data characteristics;

—Policy issues that arise from expanding access to data, including issues related to privacy, confidentiality, latency, and consistency;

—Opportunities and risks related to the combination of public and private data sources and the development of joint data products and services resulting from public-private partnerships;

—External uses of Commerce data and similar federal, state, and private data sets by businesses; and,

—Methods to enhance communication and collaboration between stakeholders and subject-matter experts at Commerce on data access and use.

The Council meets up to four times a year, budget permitting. Special meetings may be called when appropriate.

Federal Advisory Committee Act (5 U.S.C. Appendix 2), which sets forth standards for the formation and use of advisory committees, is the governing instrument for the CDAC.

III. Membership

1. The Council shall consist of up to 20 members.

2. The Secretary shall select and appoint members and members shall serve at the pleasure of the Secretary.

3. Members shall represent a cross-section of business, academic, non-profit, and non-governmental organizations.

4. The Secretary will choose members of the Council who ensure objectivity and balance, a diversity of perspectives, and guard against potential for conflicts of interest.

5. Members shall be prominent experts in their fields, recognized for their professional and other relevant achievements and their objectivity.

6. In order to ensure the continuity of the Commerce Data Advisory Council, the Council shall be appointed so that each year the terms expire of approximately one-third of the members of the Council.

7. Council members serve for terms of two years and may be reappointed to any number of additional terms. Initial appointments may be for 12-, 18- and 24-month increments to provide staggered terms.

8. Nominees must be able to actively participate in the tasks of the Council, including, but not limited to regular
