Pima Agriculture Cotton Trust Fund and Agriculture Wool Apparel Manufacturers Trust Fund

AGENCY: Foreign Agricultural Service and Commodity Credit Corporation (CCC), USDA.

ACTION: Final rule.

SUMMARY: This final rule makes amendments to the final rule, with request for comments, published in the *Federal Register* on March 9, 2015, that established regulations for the Pima Agriculture Cotton Trust Fund (Agriculture Pima Trust) and the Agriculture Wool Apparel Manufacturers Trust Fund (Agriculture Wool Trust) programs. This final rule is amended based on comments received and to add details for the Refund of Duties Paid on Imports of Certain Wool Products (Wool Duty Refund) payment. The administration of the Wool Duty Refund payment was transferred to the United States Department of Agriculture (USDA) beginning in calendar year (CY) 2016 and assigned to the Foreign Agricultural Service (FAS). It was previously administered by the Customs and Border Protection Agency of the Department of Homeland Security.

DATES: This final rule is effective November 18, 2016.

SUPPLEMENTARY INFORMATION:

Background

On March 9, 2015, FAS published a final rule, with request for comments, in the *Federal Register* (80 FR 12321) for the Agriculture Pima Trust and the Agriculture Wool Trust programs. The final rule, with request for comments, was published under RIN 0551-AA86. The final rule, with request for comments, established regulations and

sought comments for the Agriculture Pima Trust program and for three of the four payments under the Agriculture Wool Trust program. The Agriculture Pima Trust and Agriculture Wool Trust programs were established in the Agricultural Act of 2014 (Farm Bill). The Farm Bill transferred to USDA the responsibility for administering the Agriculture Pima Trust and three of the four payments under the Agriculture Wool Trust beginning in 2015, but transferred the fourth payment, the Wool Duty Refund, beginning in 2016.

Discussion of Comments

The following is a summary and discussion of the comments received relative to the Agriculture Pima Trust and the Agriculture Wool Trust programs along with the reasoning for the revisions made.

General

A commenter suggested that applicants not be required as noted in § 1471.1(b)(3)(iii), § 1471.1(b)(4), § 1471.10(b)(3)(iii), and § 1471.10(b)(4), to annually file IRS forms W-9 (U.S. person or resident alien) or the 1199A (direct deposit) with an application for either the Agriculture Pima Trust or Agriculture Wool Trust programs unless a change in the applicant's W-9 or 1199A information had occurred when compared to their previous year's application. This was deemed to be reasonable. Beginning in 2017, IRS forms W-9 and 1199A will only need to be filed if changes in the information have occurred.

A commenter noted that a technical correction is necessary in paragraphs (1) and (2) of § 1471.2(c) by closing the parentheses after the word "insurance." This correction will be made.

Payments to Manufacturers of Certain Worsted Wool Fabrics

A commenter identified an error common to paragraphs (b)(1)(ii) and (b)(2)(ii) of § 1471.11, Payments to manufacturers of certain worsted wool fabrics. The payment formula for payments to eligible persons is provided for under this section. The payment formula mistakenly states in paragraph (ii) that payments will be calculated based on the eligible person's production in the preceding year. However, the payments are actually based on the eligible person's production of qualifying worsted wool fabric during calendar years 1999, 2000, and 2001. This correction will be made.

Free Trade Zones

A commenter suggested that the scope of the monetization of the wool tariff rate quota payment as noted under § 1471.13(a)(2)(i) be expanded to include eligible entities, that are manufacturers and would otherwise be eligible for monetization payments, that import qualifying worsted wool into a free trade zone (FTZ), cut the wool and use it to make worsted wool suits for men and boys within the FTZ.

The monetization payment requires that the eligible entities receiving a monetization payment (1) import into the Customs territory of the United States the qualifying worsted wool directly or indirectly; (2) manufacture in the United States the qualifying worsted wool into worsted wool suits for men and boys; and (3) own the worsted wool at the time it's cut and manufactured.

An entity that manufactures the suits in an FTZ and does not export from the FTZ into the Customs territory of the United States the qualifying worsted wool directly or indirectly, does not qualify for this benefit because by definition the entity avoided paying the import duty on the qualifying worsted wool. However, an eligible entity that manufactures the suits in an FTZ and exports into the Customs territory of the United States the qualifying worsted wool directly or indirectly and thus pays the import duty on the qualifying worsted wool, does qualify for this benefit. For the purpose of the monetization payment, the worsted wool suits for men and boys are manufactured in the U.S. and all environmental, worker safety, and wage protection laws, etc., would apply to this manufacturer.

USDA will also broaden the scope of eligible entities as it pertains to the wool yarn, wool fiber, and wool top compensation payment found at § 1471.14(a)(2)(i) to include those operating within a FTZ.

Definition of Eligible Person

A commenter suggested that the definition of an eligible person found at § 1471.13(a)(2)(i) in the monetization of the wool tariff rate quota payment be modified to allow an eligible person to claim the annual dollar value and quantity of imported qualifying worsted wool fabric cut and sewn if the eligible person owned the wool at the time it was cut and sewn, whether the person actually cut and sewed the imported qualifying worsted wool or another person cut and sewed the wool on behalf of the eligible person. This was deemed reasonable and is already

allowed under § 1471.13(d)(3)(i)(A) and (d)(3)(ii)(A).

USDA will also make this change as it pertains to the wool yarn, wool fiber, and wool top duty compensation payment found at § 1471.14(a)(2)(i).

Reporting of Direct Imports

A commenter suggested that applicants for the monetization of the wool tariff rate quota payment not be required to include direct imports on their annual application for this payment. The commenter's suggestion was based on their observance that countries of origin of imported qualifying worsted wool by direct importers is included on the Customs and Border Protection (CBP) form #7501, which is provided to the Secretary of Treasury every year, and thus it was redundant to also require this information to be included on the affirmation part of the annual application. Even though this information is provided to CBP each year, USDA will maintain the requirement as found at § 1471.13(d)(2)(iii)(A) and (B) that applicants for the monetization of the wool tariff rate quota payment include their direct and indirect imports on their annual application. Including direct and indirect imports on the application for this payment will make it easier for USDA to process the annual payments and to distribute them in a timely manner.

Importers Versus Manufacturers

Regarding the monetization of the wool tariff rate quota payment, found at § 1471.13(a)(2), a commenter suggested that the definitions of eligible person and qualifying worsted wool, a provision eliciting specific business information, and the scope of the affirmation, be expanded to include all importers of qualifying worsted wool suitable for worsted wool suits, as opposed to importers of qualifying worsted wool that actually used the wool to make suits for men or boys. To support the commenter's position, the commenter cited statutory references to types of worsted wool fabrics categorized under the harmonized tariff schedule (HTS). However the commenter conflates statutory provisions authorizing the tariffs for HTS categories of worsted wool suitable for wool suits with defining the universe of eligible manufacturers who import qualifying worsted wool and are eligible for payments under this program. The wool tariff rate quota administered by the Secretary of Commerce, until its statutory sunset in 2014, in fact required that to benefit

from the tariff reduction, the worsted wool had to be actually used for worsted wool suits. This monetization program provides payments to manufacturers who formerly benefitted from the tariff reduction. The requirement in the monetization payment that the qualifying worsted wool must be used by the manufacturer receiving the payment to make suits for men and boys will remain unchanged.

A commenter made a suggestion regarding the wool yarn, wool fiber, and wool top duty compensation payment found at § 1471.14(a)(2) that is similar to the comment above. The commenter suggested that the definitions of eligible person and qualifying wool, a provision eliciting specific business information, and the scope of the affirmation, be expanded from manufacturers that directly or indirectly imported qualifying wool and manufactured the qualifying wool, to include all importers of qualifying wool (whether or not the importer was also the manufacturer of the wool). To support this position, the commenter referred to statutory authority that did not require importers of qualifying wool to also be manufacturers of the qualifying wool. The commenter further stated that the wool duty refund program, of which only manufacturers of qualifying wool have participated, did not impose the requirement that the entity actually manufacture the qualifying wool. However the commenter is incorrect about what the statutory authority actually provides, and conflates extension of the duty suspension (that was applicable to all importers, regardless of whether they also manufactured men's and boy's wool suits) in section 5102 of the Trade Act of 2002, Public Law 107–210 and the wool duty refund payment program (that applied only to manufacturers of men's and boy's wool suits) in section 5101 of the Trade Act of 2002. The duty refund program administered by the U.S. Customs Service and by Customs and Border Protection in the Department of Homeland Security from 2002–2014 required that the importer must also be the manufacturer of the qualifying wool. The requirements in the wool yarn, wool fiber, and wool top duty compensation payment that the qualifying wool must be imported and must also be used for further manufacturing by the importing manufacturer will remain unchanged.

Refund of Duties Paid on Imports of Certain Wool Products

The Wool Duty Refund payment found at § 1471.12 was administered by the Department of Homeland Security's

Customs and Border Protection (CBP) through 2015. In the Farm Bill, the Wool Duty Refund payment was established for the year 2016 through 2019 and was transferred to USDA. The Wool Duty Refund payment is open to U.S. entities that manufactured certain wool articles made with certain imported wool products during calendar years 2000, 2001 and 2002; received a 2005 payment under section 505 of the Trade and Development Act of 2000; and as of January 1st of the payment year, continues to be a manufacturer in the U.S. as provided for in Section 505(a) of the Trade and Development Act of 2000. FAS will administer the Wool Duty Refund payment for 2016–2019 exactly the same as it was administered by CBP.

Airworthiness Directives; Various Aircraft Equipped With BRP-Powertrain GmbH & Co KG 912 A Series Engine

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: We are adopting a new airworthiness directive (AD) for various aircraft equipped with a BRP-Powertrain GmbH & Co KG (formerly Rotax Aircraft Engines) 912 A series engine. This AD results from mandatory continuing airworthiness information (MCAI) issued by an aviation authority of another country to identify and correct an unsafe condition on an aviation product. The MCAI describes the unsafe condition as a manufacturing defect found in certain carburetor floats where an in-flight engine shutdown and forced landing could occur when the affected cylinder had reduced or blocked fuel supply. We are issuing this AD to require actions to address the unsafe condition on these products.

DATES: This AD is effective December 23, 2016.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of December 23, 2016.

ADDRESSES: You may examine the AD docket on the Internet at <http://www.regulations.gov> by searching for and locating Docket No. FAA–2016–9000; or in person at Document Management Facility, U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590.
