

have a significant economic impact on a substantial number of small entities. The factual basis for this certification is as follows:

For RFA purposes only, NMFS has established a small business size standard for businesses, including their affiliates, whose primary industry is commercial fishing (see 50 CFR 200.2). A business primarily engaged in commercial fishing (NAICS code 11411) is classified as a small business if it is independently owned and operated, is not dominant in its field of operation (including its affiliates), and has combined annual receipts not in excess of \$11 million for all its affiliated operations worldwide. In 2015, there were 358 fishing firms that held at least one surfclam or ocean quahog permit. Using the \$11.0 million cutoff for firms, there are 348 entities that are small and 10 that are large. In order to provide a more accurate count and description of the small directly regulated entities, landings data were evaluated to select only firms that were active in either the surfclam or ocean quahog fishery. There are 29 active fishing firms, of which 26 are small entities and 3 are large entities.

Because the proposed quotas are identical to those implemented for 2014–2016, the proposed action would have no impact on the way the fishery operates. These measures are expected to provide similar fishing opportunities in 2017 and 2018 when compared to 2015 (proxy for base year 2016). As such, revenue changes are not expected in 2017 and 2018 when compared to landings and revenues in 2015. Therefore, adoption of the proposed specifications would have no impacts on entities participating in the fishery if landings are similar to those that occurred in 2015.

Maintaining the suspension of the surfclam minimum shell length requirement would result in no change when compared to 2014–2016. The minimum shell length requirement has been suspended each year since 2005. The proposed action would have no impact on the way the fishery operates, and is not expected to disproportionately affect small entities.

As a result, an initial regulatory flexibility analysis is not required and none has been prepared.

RIN 0648–BG23

Fisheries off West Coast States; Highly Migratory Fisheries; California Drift Gillnet Fishery; Protected Species Hard Caps for the California/Oregon Large-Mesh Drift Gillnet Fishery; Extension of Public Comment Period

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; extension of public comment period.

SUMMARY: On October 13, 2016, NMFS published a proposed rule to establish protected species hard caps for the California/Oregon large-mesh drift gillnet fishery, with comments due by November 28, 2016. However, in response to a request to extend the public comment period, NMFS has decided to extend the public comment period by an additional 30 calendar days.

DATES: The deadline for receipt of comments on the proposed rule published on October 13, 2016 (81 FR 70660) is extended to December 28, 2016. NMFS must receive written comments and information on or before December 28, 2016.

ADDRESSES: You may submit comments on the proposed rule, draft Environmental Assessment (EA), draft Regulatory Impact Review (RIR), and Initial Regulatory Flexibility Analysis (IRFA), identified by NOAA–NMFS–2016–0123, by any of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to <http://www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2016-0123>, click the “Comment Now!” icon, complete the required fields, and enter or attach your comments.

- **Mail:** Submit written comments to Lyle Enriquez, NMFS West Coast Region, 501 W. Ocean Blvd., Suite 4200, Long Beach, CA 90802. Include the identifier “NOAA–NMFS–2016–0123” in the comments.

Instructions: Comments must be submitted by one of the above methods to ensure they are received, documented, and considered by NMFS. Comments sent by any other method, to

any other address or individual, or received after the end of the comment period, may not be considered. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.) submitted voluntarily by the sender will be publicly accessible. Do not submit confidential business information, or otherwise sensitive or protected information. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

Copies of the draft EA, draft RIR, IRFA, and other supporting documents are available via the Federal eRulemaking Portal: <http://www.regulations.gov>, docket NOAA–NMFS–2016–0123 or by contacting the Regional Administrator, Barry Thom, NMFS West Coast Region, 1201 NE Lloyd Blvd., Portland, OR 97232–2182, or RegionalAdministrator.WCRHMS@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Lyle Enriquez, NMFS, West Coast Region, 562–980–4025, or Lyle.Enriquez@noaa.gov.

SUPPLEMENTARY INFORMATION: On October 13, 2016, NMFS published a proposed rule in the **Federal Register** (81 FR 70660) announcing proposed issuance of regulations to establish protected species hard caps for the California/Oregon large-mesh drift gillnet fishery. The 45-day public comment period on the proposed rule ends on November 28, 2016.

On October 21, 2016, representatives of potentially affected parties requested an extension of the public comment period to aid in their review of the proposed rulemaking. NMFS has considered the request and will extend the comment period to December 28, 2016. This extension provides a total of 75 days for public input and continuing Federal agency reviews to inform NMFS’ final decision to issue or deny the regulations.

NMFS refers the reader to the October 13, 2016, proposed rule (81 FR 70660) for background information concerning the proposed rulemaking as this notice does not repeat the information here.
