III. Comments

On January 15, 2016, we published in the **Federal Register** (81 FR 2234) a notice of our intent to request that OMB approve this information collection. In that notice, we solicited comments for 60 days, ending on March 15, 2016. We received two comments in response to that Notice.

Comment received January 15, 2016, from Jean Public: "it is my opinion that the American public/taxpayers cannot continue to provide the vast array of alleged "training" that they formerly did. I am very much in favor of a vastly reduced "training" schedule" and do not favor a common portal so that more "training" can go on. I find the endless conferences where nothing really is accomplished an dhuge hotel and travel costs are involved when Skype is available to be utgter nonsense in sending taxpayers into poverty for the ever overprivileged fat cat bloated bureaucratic employees in this agency.

we pay for their travel where they plot against the interest of the public and for their own enrichment. we pay for this out of control training costs. its time to cut the budget. its time for those who want to learn to take out a book and read it and go to the library and get copies of journals that will educate them on their nights. the extensive training costs that are mangling the taxpayer class needs to be reduced. the out of control benefits of govt employhees needs to be reduced. the spending is out of control. we cant afford it. we have 4 levels of govt to fund. its just too much. the deficits are rolling in in the trillions of dollars. start some cutting please of all these funds. This comment is for the public record. please receipt. jean publicee
jeanpublic1@yahoo.com

fat cat bloated bureaucrats should have the education themselves if they

want the job otherwise don't hire them in the first plac"

NPS Response/Action Taken: The NPS responded to thank Ms. Public for her comment and to explain the goal of the portal is to provide more training opportunities at reduced costs—with cost savings achieved through reductions in travel and shipping of training materials. We further explained the proposed system is designed to help reach the entire employee workforce and interested outside persons around the world. No changes were made in response to her comment.

Anonymous comment received March 4, 2016: "<http://www.nps.gov/training/clp/html/index.cfm>.

The above link mentions concept from CR Academy. Searching Google found this: <http://learning.nps.gov/cr/join-the-commons/>.

Where is the SORN for the CR Academy Web site to operate? Looks to be collecting a lot of data . . . security breach?

It also mentions it links to other systems like AD, links directly to LMS, and other Web sites . . . none of this is mentioned in the SORN.

More lies from NPS to the Public. More of the "We will do whatever we want, and ask for mercy later." I guess it's easier to say it was "oversight" than to ask for permission."

NPS Response/Action Taken: The CR Academy was not intended for public use and is no longer operational. The content that was available in the CR Academy Web site transferred into the CLP. We are currently working with the NPS Privacy Act Officer to develop the required Systems of Records Notice (SORN) for approval and publication by the Department of the Interior's Privacy Office. The portal will not be made available to the public until all requirements (such as compliance with the Paperwork Reduction Act and Privacy Act SORN requirements) have been met and the NPS has been granted an authority to operate (ATO) by the NPS Chief Information Officer.

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB and us in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.

Dated: November 21, 2016.

Quarterly Status Report of Water Service, Repayment, and Other Water-Related Contract Actions

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice.

SUMMARY: Notice is hereby given of contractual actions that have been proposed to the Bureau of Reclamation (Reclamation) and are new, discontinued, or completed since the last publication of this notice. This notice is one of a variety of means used to inform the public about proposed contractual actions for capital recovery and management of project resources and facilities consistent with section 9(f) of the Reclamation Project Act of 1939. Additional announcements of individual contract actions may be published in the **Federal Register** and in newspapers of general circulation in the areas determined by Reclamation to be affected by the proposed action.

ADDRESSES: The identity of the approving officer and other information pertaining to a specific contract proposal may be obtained by calling or writing the appropriate regional office at the address and telephone number given for each region in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: Michelle Kelly, Reclamation Law Administration Division, Bureau of Reclamation, P.O. Box 25007, Denver,

Colorado 80225-0007; telephone 303-445-2888.

SUPPLEMENTARY INFORMATION: Consistent with section 9(f) of the Reclamation Project Act of 1939, and the rules and regulations published in 52 FR 11954, April 13, 1987 (43 CFR 426.22), Reclamation will publish notice of proposed or amendatory contract actions for any contract for the delivery of project water for authorized uses in newspapers of general circulation in the affected area at least 60 days prior to contract execution. Announcements may be in the form of news releases, legal notices, official letters, memorandums, or other forms of written material. Meetings, workshops, and/or hearings may also be used, as appropriate, to provide local publicity. The public participation procedures do not apply to proposed contracts for the sale of surplus or interim irrigation water for a term of 1 year or less. Either of the contracting parties may invite the public to observe contract proceedings. All public participation procedures will be coordinated with those involved in complying with the National Environmental Policy Act. Pursuant to the "Final Revised Public Participation Procedures" for water resource-related contract negotiations, published in 47 FR 7763, February 22, 1982, a tabulation is provided of all proposed contractual actions in each of the five Reclamation regions. When contract negotiations are completed, and prior to execution, each proposed contract form must be approved by the Secretary of the Interior, or pursuant to delegated or redelegated authority, the Commissioner of Reclamation or one of the regional directors. In some instances, congressional review and approval of a report, water rate, or other terms and conditions of the contract may be involved.

Public participation in and receipt of comments on contract proposals will be facilitated by adherence to the following procedures:

1. Only persons authorized to act on behalf of the contracting entities may negotiate the terms and conditions of a specific contract proposal.

2. Advance notice of meetings or hearings will be furnished to those parties that have made a timely written request for such notice to the appropriate regional or project office of Reclamation.

3. Written correspondence regarding proposed contracts may be made available to the general public pursuant to the terms and procedures of the Freedom of Information Act, as amended.

4. Written comments on a proposed contract or contract action must be submitted to the appropriate regional officials at the locations and within the time limits set forth in the advance public notices.

5. All written comments received and testimony presented at any public hearings will be reviewed and summarized by the appropriate regional office for use by the contract approving authority.

6. Copies of specific proposed contracts may be obtained from the appropriate regional director or his or her designated public contact as they become available for review and comment.

7. In the event modifications are made in the form of a proposed contract, the appropriate regional director shall determine whether republication of the notice and/or extension of the comment period is necessary.

Factors considered in making such a determination shall include, but are not limited to, (i) the significance of the modification, and (ii) the degree of public interest which has been expressed over the course of the negotiations. At a minimum, the regional director will furnish revised contracts to all parties who requested the contract in response to the initial public notice.
