Purpose of the Meeting

The purpose of the meeting is for the Health Care Delivery Subcommittee members to receive public comments concerning pediatric health care services during an open forum. The Subcommittee is examining opportunities to improve the overall provision of health care and related services for children of members of the Armed Forces to better promote the health of this beneficiary population and potentially realize cost savings for the Military Health System. The focus of this meeting will be on the primary and specialty care aspects of the tasking (excluding behavioral/mental health care) to the Subcommittee as outlined below:

- Identify the extent to which children receive developmentally appropriate and age appropriate health care services, including clinical preventive services, in both the direct care and purchased care components.

- Evaluate whether children have ready access to primary and specialty pediatric care.

- Address any issues associated with the TRICARE definition of “medical necessity” as it might specifically pertain to children and determine if the requirement for TRICARE to comply with Medicare standards disadvantages children from receiving needed health care.

Comments from the public can range from insight on pediatric-related health issues to personal accounts and objective input.

DEPARTMENT OF DEFENSE

Department of the Army, U.S. Army Corps of Engineers

Withdrawal of Notice of Intent To Prepare an Environmental Impact Statement for the Proposed Lower Passaic River Ecosystem Restoration Project, Essex, Hudson, Passaic, and Bergen Counties, NJ: Feasibility Phase

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of Intent; Withdrawal.

SUMMARY: The U.S. Army Corps of Engineers, New York District (NY District), is withdrawing its intent to prepare a Draft Environmental Impact Statement (EIS) for the Study. The Notice of Intent to prepare the Draft EIS was published in the Tuesday, December 28, 2004 issue of the **Federal Register** (69 FR 77744).

ADDRESSES: U.S. Army Corps of Engineers, New York District, Planning Division, Environmental Analysis Branch, 26 Federal Plaza, Room 2151, New York, NY 10278–0090.

FOR FURTHER INFORMATION CONTACT: Diana Kohtio, Project Biologist, at diana.m.kohtio@usace.army.mil or 917.790.8619.

SUPPLEMENTARY INFORMATION: The U.S. Army Corps of Engineers, NY District published a notice of intent to prepare a Draft Environmental Impact Statement in the December 28, 2004 issue of the **Federal Register** (FR Doc. 2004–28332). In an effort to streamline work in early 2015, the U.S. Army Corps of Engineers, New York District, consolidated multiple parallel USACE ecosystem restoration feasibility studies into the Hudson Raritan Estuary Ecosystem Restoration Feasibility Study (HRE) Study.

This streamlining is consistent with the Civil Works Transformation Initiative and Specific, Measurable, Attainable, Risk Informed, Timely (SMART) Planning principles, and maximizes efficiencies, resources and benefits. The other feasibility studies include:

- HRE—Lower Passaic River Ecosystem Restoration Feasibility Study;
- HRE—Hackensack Meadowlands Ecosystem Restoration Feasibility Study;
- Flushing Creek and Bay Ecosystem Restoration Feasibility Study;
- Bronx River Basin Ecosystem Restoration Feasibility Study;
- Jamaica Bay, Marine Park, Plumb Beach Ecosystem Restoration Feasibility Study.

As such, a Draft EIS is no longer necessary. Each Feasibility Study was at a different stage prior to the decision to consolidate into the HRE Feasibility Report/Environmental Assessment (FR/EA). The planning was conducted independently with their non-federal sponsor and resulted in the selection of specific recommendations within each watershed. These combined efforts resulted in the recommendations included in the broader HRE FR/EA. The HRE FR/EA will be prepared and circulated for review by agencies and the public. The New York District invites participation and consultation of agencies and individuals that have special expertise, legal jurisdiction, or interest in the preparation of the draft environmental assessment. Comments received, including the names and addresses of those who comment, will be considered part of the public record for this proposal. As a result of the process, if it is determined that the project may have significant impacts, the EIS process will be reinitiated and a NOI published.

Peter Weppler,

Chief, Environmental Analysis Branch.
