as well as residents and their visits will be investigated. (3) In the inpatient and outpatient care settings, the National Hospital Care Survey (NHCS) and the National Hospital Ambulatory Medical Care Survey (NHAMCS) may investigate the addition of facility and patient information especially as it relates to insurance and electronic medical records.

The National Health Care Surveys collect critical, accurate data that are used to produce reliable national estimates—and in recent years (when budget allows), state-level estimates—of clinical services and of the providers who delivered those services in inpatient, outpatient, ambulatory, and long-term care settings. The data from these surveys are used by providers, policy makers and researchers to address important topics of interest, including the quality and disparities of care among populations, epidemiology of medical conditions, diffusion of technologies, effects of policies and practice guidelines, and changes in health care over time. Research studies need to be conducted to improve existing and proposed survey design and procedures of the National Health Care Surveys, as well as to evaluate alternative data collection approaches particularly due to the expansion of electronic health record use, and to develop new sample frames of currently out-of-scope providers and settings of care. There is no cost to respondents other than their time to participate. Average burdens are designed to cover 15–40 min interviews as well as 90 minute focus groups, longer on-site visits, and situations where organizations may be preparing electronic data files.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

National Vaccine Injury Compensation Program; List of Petitions Received

AGENCY: Health Resources and Services Administration (HRSA), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: HRSA is publishing this notice of petitions received under the National Vaccine Injury Compensation Program (the Program), as required by Section 2112(b)(2) of the Public Health Service (PHS) Act, as amended. While the Secretary of HHS (the Secretary) is named as the respondent in all proceedings brought by the filing of petitions for compensation under the Program, the United States Court of Federal Claims is charged by statute with responsibility for considering and acting upon the petitions.

FOR FURTHER INFORMATION CONTACT: For information about requirements for filing petitions, and the Program in general, contact the Clerk, United States Court of Federal Claims, 717 Madison Place NW., Washington, DC 20005, (202) 357–6400. For information on HRSA's role in the Program, contact the Director, National Vaccine Injury Compensation Program, 5600 Fishers Lane, Room 08N146B, Rockville, MD 20857; (301) 443–6593, or visit our Web site at: *http://www.hrsa.gov/vaccinecompensation/index.html.*

SUPPLEMENTARY INFORMATION: The Program provides a system of no-fault compensation for certain individuals who have been injured by specified childhood vaccines. Subtitle 2 of Title XXI of the PHS Act, 42 U.S.C. 300aa–10 *et seq.,* provides that those seeking compensation are to file a petition with the U.S. Court of Federal Claims and to serve a copy of the petition on the Secretary of HHS, who is named as the respondent in each proceeding. The Secretary has delegated this responsibility under the Program to HRSA. The Court is directed by statute to appoint special masters who take evidence, conduct hearings as appropriate, and make initial decisions as to eligibility for, and amount of, compensation.

A petition may be filed with respect to injuries, disabilities, illnesses, conditions, and deaths resulting from vaccines described in the Vaccine Injury Table (the Table) set forth at 42 CFR 100.3. This Table lists for each covered childhood vaccine the conditions that may lead to compensation and, for each condition, the time period for occurrence of the first symptom or manifestation of onset or of significant aggravation after vaccine administration. Compensation may also be awarded for conditions not listed in the Table and for conditions that are manifested outside the time periods specified in the Table, but only if the petitioner shows that the condition was caused by one of the listed vaccines.

Section 2112(b)(2) of the PHS Act, 42 U.S.C. 300aa–12(b)(2), requires that ''[w]ithin 30 days after the Secretary receives service of any petition filed under section 2111 the Secretary shall publish notice of such petition in the **Federal Register**.'' Set forth below is a list of petitions received by HRSA on October 1, 2016, through October 31, 2016. This list provides the name of petitioner, city and state of vaccination (if unknown then city and state of person or attorney filing claim), and case number. In cases where the Court has redacted the name of a petitioner and/or the case number, the list reflects such redaction.

Section 2112(b)(2) also provides that the special master ''shall afford all interested persons an opportunity to

submit relevant, written information'' relating to the following:

1. The existence of evidence ''that there is not a preponderance of the evidence that the illness, disability, injury, condition, or death described in the petition is due to factors unrelated to the administration of the vaccine described in the petition,'' and

2. Any allegation in a petition that the petitioner either:

a. ''[S]ustained, or had significantly aggravated, any illness, disability, injury, or condition not set forth in the Vaccine Injury Table but which was caused by'' one of the vaccines referred to in the Table, or

b. ''[S]ustained, or had significantly aggravated, any illness, disability, injury, or condition set forth in the Vaccine Injury Table the first symptom or manifestation of the onset or significant aggravation of which did not occur within the time period set forth in the Table but which was caused by a vaccine'' referred to in the Table.

In accordance with Section 2112(b)(2), all interested persons may submit written information relevant to the issues described above in the case of the petitions listed below. Any person choosing to do so should file an original and three (3) copies of the information with the Clerk of the U.S. Court of Federal Claims at the address listed above (under the heading **FOR FURTHER INFORMATION CONTACT**), with a copy to HRSA addressed to Director, Division of Injury Compensation Programs, Healthcare Systems Bureau, 5600 Fishers Lane, 08N146B, Rockville, MD 20857. The Court's caption (Petitioner's Name v. Secretary of Health and Human Services) and the docket number assigned to the petition should be used as the caption for the written submission. Chapter 35 of title 44, United States Code, related to paperwork reduction, does not apply to information required for purposes of carrying out the Program.

Dated: November 23, 2016.

James Macrae,

Acting Administrator.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Notice of Single-Award Deviation From Competition Requirements for the National Technical Resource Center for the Newborn Hearing Screening and Intervention Program at Utah State University—Grant Number U52MC04391

AGENCY: Health Resources and Services Administration (HRSA), Department of Health and Human Services.

ACTION: Notice of Single-Award Deviation from Competition Requirements for the National Technical Resource Center for the Newborn Hearing Screening and Intervention Program at Utah State University—Grant Number U52MC04391.

SUMMARY: HRSA announces the award of a supplement in the amount of $460,000 for the National Technical Resource Center (NTRC) for the Newborn Hearing Screening and Intervention program cooperative agreement. The purpose of the NTRC is to promote the use of targeted and measurable interventions to increase the number of infants who are followed up for rescreening, referral, and intervention after having not passed a physiologic newborn screening examination prior to discharge from newborn nurseries. Under the authority of the Economy Act approved June 30, 1932, as amended (31 U.S.C. 1535) and Section 648(a)(1) of the Head Start Act (42 U.S.C. 9843(a)(1)), Public Law 110–134, the Administration for Children and Families (ACF) is delegating authority to HRSA to administer this grant supplement on its behalf and to obligate approximately $460,000 under an Interdepartmental Delegation of Authority (IDDA) to provide funds to the NTRC for the Newborn Hearing Screening and Intervention Program. Authorized by Section 648(a)(1) of the Improving Head Start Readiness Act (42 U.S.C. 9843(a)(1), ACF provides technical assistance and training for Head Start programs for the purpose of helping children succeed in school. In addition, the Head Start Program Performance Standard requires the Head Start program to ensure that hearing screening is provided within 45 days of the child entering the program.

The supplement, which was awarded on September 29, 2016, permits Utah State University, the cooperative agreement recipient, to improve hearing screening for children in Early Head Start and Head Start programs to ensure school readiness of enrolled children.

SUPPLEMENTARY INFORMATION:

Recipient of the Award: Utah State University.

Amount of Non-Competitive Awards: $460,000.

Budget Period of Supplemental Funding: 4/1/2016–3/31/2017.

CFDA Number: 93.251.

Authority: Public Health Service Act, § 399M, as added by § 702 of the Children's Health Act of 2000 (Pub. L. 106–310) and amended by § 2 of the Early Hearing Detection and Intervention Act of 2010 (Pub. L. 111–337) (42 U.S.C. 280g–1) and Improving Head Start Readiness Act (42 U.S.C. 9843(a)(1)).

Justification: NTRC serves as the National Resource Center for Early Detection and Intervention (EHDI) helping statewide EHDI programs ensure that children with hearing loss are identified as early as possible. NTRC is experienced in providing technical assistance and training to support hearing screening in Head Start programs. As such NTRC has the infrastructure, groundwork, and resources to improve hearing screening for children in Early Head Start and Head Start programs quickly and efficiently. In addition, ACF and HRSA-funded training and technical assistance at NTRC improves efficiency for hearing screening for children and newborns.
