II. Further Information

The NUREG provides guidance to existing medical use of byproduct material licensees and to an applicant that are preparing a medical use of byproduct material license application. The NUREG also provides the NRC with criteria for evaluating a license application. The purpose of this notice is to provide the public with an opportunity to review and provide comments on draft NUREG–1556, Volume 9, Revision 3, “Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Medical Use Licenses.” These

comments will be considered in the final version or subsequent revisions.

This draft of NUREG–1556, Volume 9, Revision 3 does not include any revisions associated with the proposed rule “Medical Use of Byproduct Material-Medical Event Definitions, Training and Experience, and Clarifying Amendments.” This proposed rule amends requirements in parts 30, 32, and 35 of title 10 of the *Code of Federal Regulations* for the following:

- Reporting and notification of medical event for permanent implant brachytherapy; training and experience for authorized users, medical physicists, Radiation Safety Officers and nuclear pharmacists;
- measuring molybdenum contamination and reporting of failed technetium and rubidium generators;
- allowing Associate Radiation Safety Officers to be named on a medical use license; and,
- clarifying other revisions to the regulations.

This draft of NUREG–1556, Volume 9, Revision 3 does not include any guidance for the proposed rule revisions as that rule is not final at this time.

The proposed rule and proposed changes to NUREG–1556, Volume 9, associated with the proposed rule were published for public comment in the **Federal Register** (79 FR 42409, 79 FR 42224) on July 21, 2014. Comments received on those changes are being considered by the NRC staff separately. If the proposed rule becomes final, the proposed revisions to NUREG–1556, Volume 9 addressing the implementation of the proposed rule will be incorporated into this NUREG–1556, Volume 9, Revision 3 before its final publication.

Dated at Rockville, Maryland, this 30th day of November, 2016.

For the U.S. Nuclear Regulatory Commission.
