delivery of environmental education and training programs and studies.

The Foundation has a governing Board of Directors (hereafter referred to in this section as ‘the Board’), which consists of 13 directors, each of whom shall be knowledgeable or experienced in the environment, education and/or training. The Board oversees the activities of the Foundation and assures that the activities of the Foundation are consistent with the environmental and education goals and policies of the Environmental Protection Agency and with the intents and purposes of the Act. The membership of the Board, to the extent practicable, represents diverse points of view relating to environmental education and training. Members of the Board are appointed by the Administrator of the Environmental Protection Agency.

Within 90 days of the date of the enactment of the National Environmental Education Act, and as appropriate thereafter, the Administrator will publish in the Federal Register an announcement of appointments of Directors of the Board. Such appointments become final and effective 90 days after publication in the Federal Register. The directors are appointed for terms of 4 years. The Administrator shall appoint an individual to serve as a director in the event of a vacancy on the Board within 60 days of said vacancy in the manner in which the original appointment was made. No individual may serve more than 2 consecutive terms as a director.

Dated: November 30, 2016.

Gina McCarthy, Administrator.

Mr. Kevin M. Butt

Mr. Kevin Butt is the Regional Environmental Director of Toyota’s North American Environmental Sustainability Programs. He is responsible for the development of Environmental Sustainability Programs and Regulatory/Legislative development for all of Toyota’s North American operations.

Prior to Mr. Butt’s current assignment he was the General Manager/Chief Environmental and Safety Officer for Toyota Motor Engineering & Manufacturing for all of Toyota’s Manufacturing operations. Prior to that assignment Mr. Butt was the Assistant General Manager of Body Production Engineering for Toyota Motor Manufacturing North America, Inc., (TMMNA). He is responsible for Body Engineering for all Toyota’s North American manufacturing operations.

Body Engineering consists of Welding, Stamping, and Painting Operations.

Mr. Butt serves on several boards including the National Wildlife Habitat Council, Kentucky Fish and Wildlife Foundation, World Wildlife Fund National Council, North American Great Plains Advisory Board and the Yellowstone Park Foundation Board.

Mr. Butt is a member of the U.S. EPA Common Sense Initiative (CSI) Automobile Sector. He served on the Blue Ribbon Panel on Sustaining America’s Diverse Fish and Wildlife Resources. He was also given the Toyota Community Star Award for volunteering and giving back to the community in a very high standard.

Mr. Butt has a Bachelors of Science degree in Environmental Science from Georgetown College. He has also completed the International Organization for Standardization (ISO) 14000 Environmental Management Auditor course, and the American National Standards Institute–Registrar Accreditation Board (ANSI–RAB) accredited Environmental Management Systems Auditor course.

Mr. Butt is a member of the U.S. EPA General Manager of Body Production Engineering for Toyota Motor Manufacturing North America, Inc., Engineering for all Toyota’s North American Manufacturing operations. Prior to that assignment Mr. Butt was the Assistant General Manager of Body Production Engineering for Toyota Motor Manufacturing North America, Inc., (TMMNA). He is responsible for Body Engineering for all Toyota’s North American manufacturing operations. EPA intends to develop a separate ISA as part of an independent review for the secondary (welfare-based) NAAQS for oxides of nitrogen and sulfur.

EPA is releasing this draft document to seek review by the Clean Air Scientific Advisory Committee (CASAC) and the public (meeting date and location to be specified in a separate Federal Register notice). This draft document is not final as described in EPA’s information quality guidelines, and it does not represent, and should not be construed to represent, Agency policy or views. When revising the document, EPA will consider any public comments submitted during the public comment period specified in this notice.

DATES: The public comment period begins on December 9, 2016, and ends on March 20, 2017. Comments must be received on or before March 20, 2017.

FOR FURTHER INFORMATION CONTACT: For information on the public comment period, contact the ORD Docket at the EPA Headquarters Docket Center: phone: 202–566–1752; fax: 202–566–9744; or email: Docket_ORD@epa.gov.

For technical information, contact Dr. Tom Long, NCEA: phone: 919–541–1880; fax: 919–541–1818; or email: long.tom@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Information About the Document

Section 108(a) of the Clean Air Act directs the Administrator to identify certain pollutants which, among other things, “cause or contribute to air pollution which may reasonably be anticipated to endanger public health or welfare” and to issue air quality criteria for them. These air quality criteria are to “accurately reflect the latest scientific knowledge useful in indicating the kind
and extent of all identifiable effects on public health or welfare which may be expected from the presence of [a] pollutant in the ambient air . . .” Under section 109 of the Act, EPA is then to establish NAAQS for each pollutant for which EPA has issued criteria. Section 109(d) of the Act subsequently requires periodic review and, if appropriate, revision of existing air quality criteria to reflect advances in scientific knowledge on the effects of the pollutant on public health or welfare. EPA is also required to review and, if appropriate, revise the NAAQS based on the revised air quality criteria (for more information on the NAAQS review process, see http://www.epa.gov/ttn/naaqs/review.html).

Sulfur oxides are one of six criteria pollutants for which EPA has established NAAQS. Periodically, EPA reviews the scientific basis for these standards by preparing an ISA (formerly called an Air Quality Criteria Document). The ISA, in conjunction with additional technical and policy assessments, provides the scientific basis for EPA’s decisions on the adequacy of the current NAAQS and the appropriateness of possible alternative standards. The CASAC, an independent science advisory committee whose review and advisory functions are mandated by Section 109(d)(2) of the Clean Air Act, is charged (among other things) with independent scientific review of the EPA’s air quality criteria.

On May 10, 2013 (78 FR 27387), EPA formally initiated its current review of the air quality criteria for the health effects of sulfur oxides and the primary (health-based) SO2 NAAQS, requesting the submission of recent scientific information on specified topics. EPA held a workshop on June 12–13, 2013, to gather input from invited scientific experts, both internal and external to EPA, as well as from the public, regarding key science and policy issues relevant to the review of the health effects of sulfur oxides and the primary SO2 NAAQS (78 FR 27387). These science and policy issues were incorporated in EPA’s “Integrated Review Plan for the Primary National Ambient Air Quality Standard for Sulfur Dioxide” (EPA–452/R–14–007), which was finalized in October 2014 (79 FR 66721) with a prior draft available for public comment (79 FR 14035) and discussion by the CASAC via publicly accessible teleconference consultations (79 FR 16325, 79 FR 30137, 79 FR 34739). On June 23–24, 2014, EPA held a workshop to discuss, with invited internal and external scientific experts, initial draft materials prepared in the development of the ISA (79 FR 33750). EPA considered comments on these draft materials in preparing the first external review draft of the ISA, which was released on November 24, 2015 (80 FR 73183). The first draft ISA was discussed at a public CASAC meeting on January 27–28, 2016 (80 FR 79330). Subsequently, on April 15, 2016, the CASAC panel provided a consensus letter to the EPA Administrator summarizing their review. The second draft ISA has been developed with consideration of comments from the CASAC and the public, and includes consideration of scientific studies published through September 2016. The “Second External Review Draft Integrated Science Assessment for Sulfur Oxides—Health Criteria” will be discussed by the CASAC at a public meeting. In addition to the public comment period announced in this notice, the public will have an opportunity to submit written and/or oral comments related to this second external review draft ISA to the CASAC. A separate Federal Register notice will inform the public of the exact date and time of the CASAC meeting and of the procedures for public participation.

II. How To Submit Technical Comments to the Docket at www.regulations.gov

Submit your comments, identified by Docket ID No. EPA–HQ–ORD–2013–0357, by one of the following methods:

• www.regulations.gov: Follow the online instructions for submitting comments.
  • Email: Docket_ORD@epa.gov.
  • Fax: 202–566–0744.
  • Hand Delivery: The ORD Docket is located in the EPA Headquarters Docket Center, EPA West Building, Room 3334, 1301 Constitution Avenue NW., Washington, DC 20004. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The phone number for the Public Reading Room is 202–566–1744. Such deliveries are only accepted during the docket’s normal hours of operation, and special arrangements should be made for deliveries of boxed information. If you provide comments by mail or hand delivery, please submit three copies of the comments. For attachments, provide an index, number pages consecutively with the comments, and submit an unbound original and three copies.

Instructions: Direct your comments to Docket ID No. EPA–HQ–ORD–2013–0357. Please ensure that your comments are submitted within the specified comment period. Comments received after the closing date will be marked “late,” and may only be considered if time permits. It is EPA’s policy to include all comments it receives in the public docket without change and to make the comments available online at www.regulations.gov, including any personal information provided, unless a comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information through www.regulations.gov or email that you consider to be CBI or otherwise protected. The www.regulations.gov Web site is an “anonymous access” system, which means EPA will not know your identity or contact information unless you provide it in the body of your comments. If you send an email comment directly to EPA without going through www.regulations.gov, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD–ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional information about EPA’s public docket visit the EPA Docket Center homepage at http://www2.epa.gov/dockets.

Docket: Documents in the docket are listed in the www.regulations.gov index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other materials, such as copyrighted material, are publicly available only in hard copy. Publicly available docket materials are available either electronically on www.regulations.gov or in hard copy at the ORD Docket in the EPA Headquarters Docket Center.

Dated: November 22, 2016.

Mary A. Ross,
Deputy Director, National Center for Environmental Assessment.
