#### SUPPLEMENTARY INFORMATION:

##### Purpose of the Request

On January 25, 2016, FHWA published a document in the **Federal Register** (81 FR 4083) officially terminating the Interim Approval for Use of Clearview Font for Positive Contrast Legends on Guide Signs (IA–5), which was issued September 2, 2004. The termination discontinued the provisional use of an alternative letter style in traffic control device applications. The result of this termination rescinded the allowance of the use of letter styles other than FHWA Standard Alphabets on traffic control devices except as provided otherwise in the MUTCD and within the document. Existing signs that use the provisional letter style and comply with IA–5 were unaffected by the termination and may remain in place as long as they are in serviceable condition. The termination did not create a mandate for the removal or installation of any sign.

Following the publication of the termination in the **Federal Register** and prior to its effective date, FHWA posted a Technical Memorandum<sup>1</sup> and a Technical Brief<sup>2</sup> on the MUTCD Web site. The Technical Memorandum provided guidance to the Federal-aid Highway division offices on implementation of the termination. The

<sup>1</sup> Technical Memorandum can be accessed at the following Web address: [http://mutcd.fhwa.dot.gov/resources/interim\\_approval/ia5/ia5\\_termination.pdf](http://mutcd.fhwa.dot.gov/resources/interim_approval/ia5/ia5_termination.pdf).

<sup>2</sup> Technical Brief, “Manual on Uniform Traffic Control Devices for Streets and Highways: Termination of Interim Approval No. 5, Clearview Font for Positive Contrast Legends on Guide Signs,” can be accessed at the following Web address: [http://mutcd.fhwa.dot.gov/resources/interim\\_approval/ia5/ia5\\_termtechbrief.pdf](http://mutcd.fhwa.dot.gov/resources/interim_approval/ia5/ia5_termtechbrief.pdf).

FHWA developed the Technical Brief for transportation agency use. It provided conclusions about the national experience with an alternative letter style and a discussion of the technical considerations that led to the termination of the Interim Approval.

After the publication of the termination, FHWA received comments from stakeholders suggesting that FHWA should have solicited public comment prior to the termination. Other comments suggested that FHWA did not consider all relevant research that was available in making its decision. As a result, FHWA is publishing this RFI in order to gather any information or research that FHWA may not have been aware of when the termination was prepared.

##### RFI Guidelines

This is not a solicitation for comments on the termination of IA–5 or for experimentation requests. The purpose of this RFI is to gather information, if any, that was not previously available to FHWA. Respondents should not include any information that might be considered proprietary or confidential.

The FHWA requests quantitative information from State and local agencies specifically related to their use of the Clearview font. Examples of the types of information we are seeking include: State or agency practice, such as the technical standards applied, including any deviations from the conditions of IA–5; factors considered in deciding to convert to the Clearview letter style or to retain or revert to the Standard Alphabets; in-service legibility evaluations; factors related to sign design or manufacturing; safety performance; economic implications; any simultaneous improvements made when converting to Clearview, such as changes to retroreflective sheeting or increases in letter height; or other similar types of information.

##### Conclusion

The FHWA based the termination of IA–5 on available relevant information and research. To ensure that FHWA has access to any additional information, FHWA requests any additional information regarding experience with the use of alternative fonts or research not otherwise known that may be useful to FHWA be submitted for further consideration.

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

[EPA–R03–OAR–2016–0455; FRL–9956–42–Region 3]

### Determination of Attainment of the 2012 Annual Fine Particulate Matter Standard; Pennsylvania; Delaware County Nonattainment Area

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is proposing to determine that the Delaware County, Pennsylvania moderate nonattainment area (the Delaware County Area) has attained the 2012 annual fine particulate matter (PM<sub>2.5</sub>) national ambient air quality standard (NAAQS). This determination of attainment, also known as a clean data determination, is based upon quality assured, certified, and complete ambient air monitoring data showing that this area has monitored attainment of the 2012 annual PM<sub>2.5</sub> NAAQS based on the 2013–2015 data available in EPA’s Air Quality System (AQS) database. If this determination is finalized, the requirements for the Delaware County Area to submit an attainment demonstration, associated reasonably available control measures (RACM), a reasonable further progress (RFP) plan, contingency measures, and other planning state implementation plan (SIP) revisions related to attainment of the standard shall be suspended for so long as the area continues to meet the 2012 annual PM<sub>2.5</sub> NAAQS. This action is being taken under the Clean Air Act (CAA).

In the Final Rules section of this **Federal Register**, EPA is making this determination of attainment as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in

a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

**DATES:** Comments must be received in writing by January 12, 2017.

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA-R03-OAR-2016-0455 at <http://www.regulations.gov>, or via email to [pino.maria@epa.gov](mailto:pino.maria@epa.gov). For comments submitted at [Regulations.gov](http://www.Regulations.gov), follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from [Regulations.gov](http://www.Regulations.gov). For either manner of submission, the EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be confidential business information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.* on the web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

**FOR FURTHER INFORMATION CONTACT:** Gavin Huang, (215) 814-2042, or by email at [huang.gavin@epa.gov](mailto:huang.gavin@epa.gov).

**SUPPLEMENTARY INFORMATION:** For further information about this determination of attainment of the 2012 annual PM<sub>2.5</sub> NAAQS for the Delaware County Area, please see the information provided in the direct final action, with the same title, that is located in the "Rules and Regulations" section of this **Federal Register** publication.

## FEDERAL COMMUNICATIONS COMMISSION

### 47 CFR Part 73

[DA 16-1297; MB Docket No. 16-270; RM-11772]

### Radio Broadcasting Services; Pima, Arizona

**AGENCY:** Federal Communications Commission.

**ACTION:** Proposed rule; dismissal.

**SUMMARY:** The Audio Division dismisses the petition for rulemaking filed by 1TV.Com, Inc., (Petitioner), licensee of KIKO(FM), Claypool, Arizona, proposing to amend the FM Table of Allotments, by substituting noncommercial educational Channel \*278A for Channel \*296A at Pima, Arizona, to accommodate a hybrid application, requesting modification of the license for Station KIKO(FM) to specify operation on Channel 243C2 rather than Channel 247C2 at Claypool, Arizona. No comments or counterproposals were received by any parties. Petitioner did not file comments expressing a continuing interest in the proposed Pima allotment. It is the Commission's policy to refrain from making an allotment to a community absent an expression of interest. We will not allot Channel \*278A at Pima, Arizona.
