

of reducing its carbon footprint, it has increased its use of natural gas-fired generation.

The EA assesses the potential environmental effects of the construction and operation of the Cedar Station Upgrade Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The Cedar Station Upgrade Project includes the following facilities:

- Approximately 7.86 miles of new 20-inch-diameter pipeline loop;¹
- a new pig² launcher and takeoff valve setting at Northern's existing Rosemount Junction facility; and
- a new pig receiver, tie-in valve setting, and modification of existing regulators and piping at Northern's existing Cedar Meter Station facility.

The FERC staff mailed copies of the EA to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; and newspapers and libraries in the project area. In addition, the EA is available for public viewing on the FERC's Web site (www.ferc.gov) using the eLibrary link. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Any person wishing to comment on the EA may do so. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC on or before January 9, 2017.

For your convenience, there are three methods you can use to file your comments to the Commission. In all instances, please reference the project

docket number (CP16-487-000) with your submission. The Commission encourages electronic filing of comments and has expert staff available to assist you at (202) 502-8258 or efiling@ferc.gov.

(1) You can file your comments electronically using the eComment feature on the Commission's Web site (www.ferc.gov) under the link to Documents and Filings. This is an easy method for submitting brief, text-only comments on a project;

(2) You can also file your comments electronically using the eFiling feature on the Commission's Web site (www.ferc.gov) under the link to Documents and Filings. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." You must select the type of filing you are making. If you are filing a comment on a particular project, please select "Comment on a Filing"; or

(3) You can file a paper copy of your comments by mailing them to the following address: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Room 1A, Washington, DC 20426.

Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214).³ Only intervenors have the right to seek rehearing of the Commission's decision. The Commission grants affected landowners and others with environmental concerns intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which no other party can adequately represent. Simply filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered.

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC Web site (www.ferc.gov) using the eLibrary link. Click on the eLibrary link, click on "General Search," and enter the docket number excluding the last three digits in the Docket Number field (*i.e.*, CP16-487). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also

provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. IC17-2-000]

Commission Information Collection Activities (FERC-549D and FERC-733); Consolidated Comment Request; Extension

AGENCY: Federal Energy Regulatory Commission, Department of Energy.

ACTION: Notice of information collections and request for comments.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, 44 U.S.C. 3506(c)(2)(A), the Federal Energy Regulatory Commission (Commission or FERC) is soliciting public comment on the requirements and burden¹ of the information collections described below.

DATES: Comments on the collections of information are due February 14, 2017.

ADDRESSES: You may submit comments (identified by Docket No. IC17-2-000) by either of the following methods:

- *eFiling at Commission's Web site:* <http://www.ferc.gov/docs-filing/efiling.asp>.

- *Mail/Hand Delivery/Courier:* Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE., Washington, DC 20426.

Please reference the specific collection number and/or title in your comments.

¹ The Commission defines burden as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, reference 5 Code of Federal Regulations 1320.3.

¹ A pipeline "loop" is a segment of pipe installed adjacent to an existing pipeline and connected to the existing pipeline at both ends.

² A "pig" is an internal pipeline tool used to clean a pipeline and/or to inspect for damage or corrosion.

³ See the previous discussion on the methods for filing comments.

Instructions: All submissions must be formatted and filed in accordance with submission guidelines at: <http://www.ferc.gov/help/submission-guide.asp>. For user assistance contact FERC Online Support by email at ferconlinesupport@ferc.gov, or by phone at: (866) 208-3676 (toll-free), or (202) 502-8659 for TTY.

Docket: Users interested in receiving automatic notification of activity in this docket or in viewing/downloading comments and issuances in this docket may do so at <http://www.ferc.gov/docs-filing/docs-filing.asp>.

FOR FURTHER INFORMATION CONTACT: Ellen Brown may be reached by email at DataClearance@FERC.gov, telephone at (202) 502-8663, and fax at (202) 273-0873.

SUPPLEMENTARY INFORMATION:

Type of Request: Three-year extension of the information collection requirements for all collections described below with no changes to the current reporting requirements. Please note that each collection is distinct from the next.

Comments: Comments are invited on: (1) Whether the collections of information are necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's

estimates of the burden and cost of the collections of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collections; and (4) ways to minimize the burden of the collections of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

FERC-549D [Quarterly Transportation and Storage Report for Interstate Gas and Hinshaw Pipelines]

OMB Control No.: 1902-0253.

Abstract: The reporting requirements under FERC-549D are required to carry out the Commission's policies in accordance with the general authority in Sections 1(c) of the Natural Gas Act (NGA)² and Sections 311 of the Natural Gas Policy Act of 1978 (NGPA).³ This collection promotes transparency by collecting and making available intrastate and Hinshaw pipeline transactional information. The Commission collects the data upon a standardized form with all requirements outlined in 18 CFR 284.126.

The FERC Form 549D collects the following information:

- Full legal name and identification number of the shipper receiving service;
- Type of service performed for each transaction;

- The rate charged under each transaction;
- The primary receipt and delivery points for the transaction, specifying the rate schedule/name of service and docket were approved;
- The quantity of natural gas the shipper is entitled to transport, store, and deliver for each transaction;
- The term of the transaction, specifying the beginning and ending month and year of current agreement;
- Total volumes transported, stored, injected or withdrawn for the shipper; and
- Annual revenues received for each shipper, excluding revenues from storage services.

Filers submit the Form-549D on a quarterly basis.

Access to the FERC-549D Information Collection Materials: A copy of the current form and related materials can be found at <http://www.ferc.gov/docs-filing/forms.asp#549d>, but will not be included in the **Federal Register**. The Commission will not publish these materials in the **Federal Register**.

Type of Respondent: Intrastate natural gas and Hinshaw pipelines.

Estimate of Annual Burden: The Commission estimates the annual public reporting burden for the information collection as:

FERC-549D

[Quarterly transportation and storage report for interstate natural gas and hinshaw pipelines]

	Number of respondents	Annual number of responses per respondent	Total number of responses	Average burden and cost per response ⁴	Total annual burden hours and total annual cost	Cost per respondent (\$)

FERC-733 [Demand Response/Time-Based Rate Programs and Advanced Metering]

OMB Control No.: 1902-0271.

Abstract: Section 1252(e)(3) of the Energy Policy Act of 2005,⁵ requires the Federal Energy Regulatory Commission (FERC or Commission) to prepare and publish an annual report, by appropriate region, that assesses demand response resources, including those available from all consumer classes. Specifically,

EPAAct 2005 Section 1252(e)(3) requires that the Commission identify and review:

- (A) Saturation and penetration rate of advanced meters and communications technologies, devices and systems;
- (B) existing demand response programs and time-based rate programs;
- (C) the annual resource contribution of demand resources;

(D) the potential for demand response as a quantifiable, reliable resource for regional planning purposes;

(E) steps taken to ensure that, in regional transmission planning and operations, demand resources are provided equitable treatment as a quantifiable, reliable resource relative to the resource obligations of any load-serving entity, transmission provider, or transmitting party; and

² 15 U.S.C. 717-817-w.

³ 15 U.S.C. 3301-3432.

⁴ The hourly wage figure is \$83.82/hour. This cost represents the average cost of four career fields:

Legal (\$129.12/hour), Accountants (\$53.86/hour), Management Analyst (\$60.53/hour), and Computer and Information (\$91.76/hour); this cost also includes benefit costs within the hourly estimates. These figures were compiled using Bureau of Labor

Statistics data that were specific to each occupational category: http://bls.gov/oes/current/naics2_22.htm.

⁵ Public Law 109-58, 1252(e)(3), 119 Stat. 594, 966 (2005) (EPAAct 2005).

(F) regulatory barriers to improved customer participation in demand response, peak reduction and critical period pricing programs.

Type of Respondent: Persons interested in the above topics.
Estimate of Annual Burden: The Commission estimates the annual public

reporting burden for the information collection as:

Number of respondents (1)	Annual number of responses per respondent (2)	Total number of responses (1) * (2) = (3)	Average burden and cost per response ⁶ (4)	Total annual burden hours and total annual cost (3) * (4) = (5)	Cost per respondent (\$) (5) ÷ (1)

Federal Energy Regulatory Commission

[Project No. 2512-075; Project No. 14439-001]

Hawks Nest Hydro, LLC; Notice of Availability of Draft Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission’s (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the applications for new licenses for the Hawks Nest Hydroelectric Project (FERC Project No. 2512-075) and the Glen Ferris Hydroelectric Project (FERC Project No. 14439-001) located in Fayette County, West Virginia, and has prepared a Draft Environmental Assessment (Draft EA) for the projects.

The Draft EA contains the staff’s analysis of the potential environmental effects of the projects and concludes that relicensing the projects, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the Draft EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission’s Web site at <http://www.ferc.gov> using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number

⁶ The estimates for cost per response are derived using the 2016 FERC average salary plus benefits of \$154,647/year (or \$74.50/hour). Commission staff finds that the work done for this information collection is typically done by wage categories similar to those at FERC.
