DATES: Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission may be obtained by calling 703-292-7556. NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Comments: As required by 5 CFR 1320.8(d), comments on the information collection activities as part of this study were solicited through publication of a 60-Day Notice in the **Federal Register** on July 28, 2016, at 81 FR 49689. We received one comment, to which we here respond.

Commenter: The comment requested NSF consider the use of administrative records, specifically the National Student Clearinghouse, to obtain information on education background in lieu of asking this information from respondents on the National Survey of College Graduates (NSCG).

Response: NSF informed the commenter that, at the request of NSF, the Census Bureau's Center for Administrative Records Research and Application is conducting research to compare administrative records data with the NSCG respondent-provided data. This research will inform survey content discussions for future NSCG cycles and will provide insight on the necessity of certain NSCG questionnaire items including the education background items.

After consideration of this comment, we are moving forward with our submission to OMB.

Title of Collection: 2015 National Survey of College Graduates.

OMB Approval Number: 3145-0141.

Type of Request: Intent to seek approval to renew an information collection for three years.

Abstract: The National Survey of College Graduates (NSCG) has been conducted biennially since the 1970s. The 2017 NSCG sample will be selected from the 2015 American Community Survey (ACS) and the 2015 NSCG. By selecting sample from these two sources, the 2017 NSCG will provide coverage of the college graduate population residing in the United States. The purpose of this longitudinal survey is to collect data that will be used to provide national estimates on the science and engineering workforce and changes in their employment, education, and demographic characteristics.

The National Science Foundation Act of 1950, as subsequently amended, includes a statutory charge to “. . . provide a central clearinghouse for the collection, interpretation, and analysis of data on scientific and engineering resources, and to provide a source of information for policy formulation by other agencies of the Federal Government.” The NSCG is designed to comply with these mandates by providing information on the supply and utilization of the nation's scientists and engineers.

The U.S. Census Bureau, as in the past, will conduct the NSCG for NSF. The survey data collection will begin in March 2017 using web and mail questionnaires. Nonrespondents to the web or mail questionnaire will be followed up by computer-assisted telephone interviewing. The individual's response to the survey is voluntary. The survey will be conducted in conformance with Census Bureau statistical quality standards and, as such, the NSCG data will be afforded protection under the applicable Census Bureau confidentiality statutes.

Use of the Information: NSF uses the information from the NSCG to prepare congressionally mandated reports such as *Women, Minorities and Persons with Disabilities in Science and Engineering* and *Science and Engineering Indicators*. A public release file of collected data, designed to protect respondent confidentiality, will be made available to researchers on the Internet.

Expected Respondents: A statistical sample of approximately 123,500 persons will be contacted in 2017. This 123,500 sample is a 5,500 case increase over the sample size listed in the first notice for public comment in the **Federal Register** at 81 FR 49689. The larger sample size is needed to account for the increased size of the college-educated population as well as lower response rates in recent years. NSF estimates the 2017 NSCG response rate to be 70 to 80 percent.

Estimate of Burden: The amount of time to complete the questionnaire may vary depending on an individual's circumstances; however, on average it will take approximately 30 minutes to complete the survey. NSF estimates that the total annual burden will be no more than 49,400 hours (=123,500 respondents × 80% response × 30 minutes) during the 2017 survey cycle.

Dated: December 9, 2016.

Reports Clearance Officer, National Science Foundation.

- I. Introduction
- II. Docketed Proceeding(s)

I. Introduction

The Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related

to negotiated service agreement(s). The request(s) may propose the addition or removal of a negotiated service agreement from the market dominant or the competitive product list, or the modification of an existing product currently appearing on the market dominant or the competitive product list.

Section II identifies the docket number(s) associated with each Postal Service request, the title of each Postal Service request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 (Public Representative). Section II also establishes comment deadline(s) pertaining to each request.

The public portions of the Postal Service's request(s) can be accessed via the Commission's Web site (<http://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3007.40.

The Commission invites comments on whether the Postal Service's request(s) in the captioned docket(s) are consistent with the policies of title 39. For request(s) that the Postal Service states concern market dominant product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3622, 39 U.S.C. 3642, 39 CFR part 3010, and 39 CFR part 3020, subpart B. For request(s) that the Postal Service states concern competitive product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3632, 39 U.S.C. 3633, 39 U.S.C. 3642, 39 CFR part 3015, and 39 CFR part 3020, subpart B. Comment deadline(s) for each request appear in section II.

SECURITIES AND EXCHANGE COMMISSION

Proposed Collection; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE., Washington, DC 20549–2736.

Extension:

Rule 103, SEC File No. 270–410, OMB Control No. 3235–0466.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (“PRA”) (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (“Commission”) is soliciting comments on the existing collection of information provided for in Rule 103 of Regulation M (17 CFR 242.103), under the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*). The Commission plans to submit this existing collection of information to the Office of Management and Budget (“OMB”) for extension and approval.

Rule 103—Nasdaq Passive Market Making—permits passive market-making in Nasdaq securities during a distribution. A distribution participant that seeks use of this exception would be required to disclose to third parties its intention to engage in passive market making.

There are approximately 309 respondents per year that require an aggregate total of 309 hours to comply with this rule. Each respondent makes an estimated 1 annual response. Each response takes approximately 1 hour to complete. Thus, the total compliance burden per year is 309 burden hours. The total estimated internal labor cost of compliance for the respondents is approximately \$20,085.00 per year, resulting in an estimated internal labor cost of compliance per response of approximately \$65.00 (*i.e.*, \$20,085.00/309 responses).

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's estimates of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in
