

Red Over Yellow and Red Over Flashing Yellow signal aspects will be removed at each CP with the Red Over Flashing Red aspects remaining.

The reason given for the proposed modification is to accommodate an increased volume of switching operations, which will take place in the siding with the construction of a new rock facility adjacent to Corbyn Yard.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U. S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- *Web site:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- *Fax:* 202-493-2251.
- *Mail:* Docket Operations Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590.
- *Hand Delivery:* 1200 New Jersey Avenue SE., Room W12-140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by February 2, 2017 will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable.

Anyone is able to search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the

commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.dot.gov/privacy. See also <https://www.regulations.gov/privacyNotice> for the privacy notice of www.regulations.gov.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2016-0108]

Petition for Waiver of Compliance

In accordance with part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated November 2, 2016, Union Pacific Railroad Company (UP) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 236. FRA assigned the petition Docket Number FRA-2016-0108. UP seeks a waiver from compliance with cab signal system requirements found in 49 CFR 236.566—*Locomotive of each train operating in train stop, train control, or cab signal territory; equipped.*

Specifically, UP seeks relief to operate Positive Train Control (PTC) equipped controlling locomotives with the automatic cab signals (ACS) cut-out.

The relief would be within a PTC revenue service demonstration (RSD) area on UP's Portland Subdivision, on which a PTC system is installed and operative; the PTC system is successfully initialized; and a locomotive engineer trained and qualified in the operation of PTC is present for the operation of the train with the ACS cut-out.

Locations of requested relief on the Portland Subdivision are:

1. Between Milepost (MP) 81.6 and MP 15.6 for westward moves.
2. Between MP 15.6 and MP 81.6 for eastward moves.
3. Between MP 0.6 and MP 15.6 on the Graham Line.

The PTC system to be utilized is UP's implementation of the Interoperable Electronic Train Management System (I-ETMS).

If the PTC system fails and/or is cut-out enroute as a result of same, the train

crew will cut-in the ACS onboard system, perform a departure test, and, if successful, continue the trip through the project limits under ACS operation. If the ACS onboard system cut-in and/or departure test are not completed successfully, the train will continue to operate under the provisions of 49 CFR 236.567, restrictions imposed when device fails and/or is cut out en route.

UP notes that the ACS and PTC systems are not integrated on the locomotive and their concurrent use would potentially be confusing and distracting to the train crew, due to differences in the content of their displays, audible and visual alerts provided, and required acknowledgement protocols.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the Department of Transportation's Docket Operations Facility, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- *Web site:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- *Fax:* 202-493-2251.
- *Mail:* Docket Operations Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590.
- *Hand Delivery:* 1200 New Jersey Avenue SE., Room W12-140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by January 18, 2017 will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable.

Anyone is able to search the electronic form of any written communications and comments received into any of our dockets by the

name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.dot.gov/privacy. BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2016-0111]

Petition for Waiver of Compliance

In accordance with part 211 of Title 49 of the Code of Federal Regulations (CFR), this document provides the public notice that by a document dated November 14, 2016, The Belt Railway Company of Chicago (BRC) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 236. FRA assigned the petition docket number FRA-2016-0111.

BRC seeks relief from certain requirements of part 236; specifically sections 236.377 Approach Locking, 236.378 Time Locking, 236.379 Route Locking, 236.380 Indication Locking, and 236.381 Traffic Locking, on vital microprocessor-based systems. BRC proposes to verify and test signal locking systems controlled by microprocessor-based equipment by use of alternative procedures every 4 years after initial baseline testing or program change as follows:

- Verifying the Cyclic Redundancy Check (CRC)/Check Sum/Universal Control Number (UNC) of the existing location's specific application logic to the previously tested version.
- Testing the appropriate interconnection to the associated signaling hardware equipment outside of the processor (switch indication, track indication, searchlight signal indication, approach locking (if external)) to verify correct and intended

inputs to and outputs from the processor are maintained.

- Analyze and compare the results of the 4-year alternative testing with the results of the baseline testing performed at the location and submit the results to the FRA.

Many of BRC's Interlockings, control points, and other locations are controlled by solid-state, vital microprocessor-based systems. These systems use programmed logic equations in lieu of relays or other mechanical components for control of both vital and non-vital functions. The logic does not change once a microprocessor-based system has been tested and locking tests are documented on installation.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- *Web site:* <http://www.regulations.gov> Follow the online instructions for submitting comments.
- *Fax:* 202-493-2251.
- *Mail:* Docket Operations Facility, US Department of Transportation, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590.
- *Hand Delivery:* 1200 New Jersey Avenue SE., Room W12-140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by February 2, 2017 will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable.

Anyone is able to search the electronic form of any written communications and comments received into any of our dockets by the

name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.dot.gov/privacy. BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2007-28049]

Petition for Waiver of Compliance

In accordance with part 211 of Title 49 of the Code of Federal Regulations (CFR), this provides the public notice that by a document dated November 29, 2016, Union Pacific Railroad Company (UP) has petitioned the Federal Railroad Administration (FRA) for extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 229, Railroad Locomotive Safety Standards. Specifically, UP seeks extension of the provision, which allows locomotives with increased pilot height (allowed in yard service under 49 CFR 229.123(b)) to operate in the lead position over approximately one mile of track between Englewood and Settegast yards in Houston, TX. This petition has been assigned Docket Number FRA-2007-28049. In the petition for extension, UP states that it has been operating under the conditions set out in the original approval for this waiver for a period of 9 years with no adverse impact on the safety of operations.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.
