Furthermore, air tour operators operating in accordance with § 91.147 are required to obtain an individual's previous drug and/or alcohol testing records before allowing an individual to begin service as a pilot. All requestors are heretofore referred to as "air carriers." The FAA is also deploying a web-based online application called the Pilot Records Database (PRD) in December 2016 that is expected to benefit hiring air carriers, operators, and pilots required to comply with PRIA. This application automates the current PRIA process and provides an air carrier with immediate access to a consenting pilot's FAA records. FAA's externally

facing applications require access control through MyAccess. Members of the public will authenticate via an externally-facing registration Web page; MyAccess. The MyAccess externally-facing registration Web page allows a member of the public desiring access to an application to choose between entering Driver's License or Social Security Number to establish the proof of identity needed for authentication.

Respondents: Approximately 600 pilots.

Estimated Average Burden per Response: 10 minutes.
