II. Background

On October 20, 2016, FMCSA published a notice announcing its decision to renew exemptions for 71 individuals from the insulin-treated diabetes mellitus prohibition in 49 CFR 391.41(b)(3) to operate a CMV in interstate commerce and requested comments from the public (81 FR 72658). The public comment period ended on November 21, 2016 and no comments were received.

As stated in the previous notice, FMCSA has evaluated the eligibility of these applicants and determined that renewing these exemptions would achieve a level of safety equivalent to or greater than the level that would be achieved by complying with the current regulation 49 CFR 391.41(b)(3).

The physical qualification standard for drivers regarding diabetes found in 49 CFR 391.41(b)(3) states that a person is physically qualified to drive a CMV if that person has no established medical history or clinical diagnosis of diabetes mellitus currently requiring insulin for control.

III. Discussion of Comments

FMCSA received no comments in this preceding.

IV. Conclusion

The drivers were included in Docket No. FMCSA–2012–0281. Their exemptions are effective as of November 26, 2016 and will expire on November 26, 2018.

Each of the 71 drivers in the aforementioned groups qualifies for a renewal of the exemption. They have maintained their required medical

monitoring and have not exhibited any medical issues that would compromise their ability to safely operate a CMV during the previous 2-year exemption period.

These factors provide an adequate basis for predicting each driver's ability to continue to drive safely in interstate commerce. Therefore, FMCSA concludes that extending the exemption for each of the 71 drivers for a period of two years is likely to achieve a level of safety equal to that existing without the exemption. The drivers were included in docket numbers FMCSA–2010–0288; FMCSA–2012–0281; FMCSA–2014–0306; FMCSA–2014–0307.

In accordance with 49 U.S.C. 31315, each exemption will be valid for two years from the effective date unless revoked earlier by FMCSA. The exemption will be revoked if the following occurs: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained prior to being granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136 and 31315.

[Docket No. FMCSA–2016–0420]

Commercial Driver's License Standards: Application for Exemption; New Prime, Inc. (Prime)

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of application for exemption; request for comments.

SUMMARY: FMCSA announces that New Prime, Inc. (Prime) has applied for an exemption from the requirement in 49 CFR 383.25(a)(1) that a commercial learner's permit (CLP) holder must be accompanied by a commercial driver's license (CDL) holder with the proper CDL class and endorsements seated in the front seat of the vehicle while the CLP holder is operating a commercial motor vehicle (CMV) on public roads or highways. Prime requests an exemption

to allow CLP holders who have successfully passed the CDL skills test to be able to drive a CMV without having a CDL holder seated in the front seat beside them. Prime states that the CDL holder would remain in the CMV at all times while the CLP holder is driving, but not necessarily in the passenger seat. Prime believes that the exemption, if granted, would promote greater productivity and help individuals who have passed the CDL skills test return to actively earning a living faster, while achieving a level of safety that is equivalent to or greater than the level of safety provided by complying with the regulations. FMCSA requests public comment on Prime's application for exemption.
