Title 49 United States Code (49 U.S.C.) 44703(h): Records of Employment of Pilot Applicants, which was established by the Pilot Records Improvement Act of 1996 (PRIA), mandates that air carriers who have been issued a part 119 air carrier certificate and are authorized to conduct operations under Title 14 of the Code of Federal Regulations (14 CFR) part 121 or part 135 as well as part 125 and 135 operators, request and receive FAA records, air carrier and other operator records, and the National Driver Register records before allowing an individual to begin service as a pilot. Furthermore, air tour operators operating in accordance with § 91.147 are required to obtain an individual's previous drug and/or alcohol testing records before allowing an individual to begin service as a pilot. All requestors are heretofore referred to as "air carriers." The FAA is also deploying a web-based online application called the Pilot Records Database (PRD) in December 2016 that is expected to benefit hiring air carriers, operators, and pilots required to comply with PRIA. This application automates the current PRIA process and provides an air carrier with immediate access to a consenting pilot's FAA records. FAA's externally

facing applications require access control through MyAccess. Members of the public will authenticate via an externally-facing registration Web page; MyAccess. The MyAccess externally-facing registration Web page allows a member of the public desiring access to an application to choose between entering Driver's License or Social Security Number to establish the proof of identity needed for authentication.

Respondents: Approximately 600 pilots.

Estimated Average Burden per Response: 10 minutes.

Estimated Total Annual Burden: 100 hours.
