OMB Control Number: 0524-0045.

Summary of Collection: The 1914 Smith-Lever Act created the Cooperative Extension System and the land-grant universities and their federal partner, the Extension Service, now the National Institute of Food and Agriculture, USDA. The mission of the National 4-H Headquarters; National Institute of Food and Agriculture, United States Department of Agriculture; is to advance scientific knowledge for agriculture, the environment, human and animal health and well-being, and communities by creating opportunities for youth. 4-H is

the premier youth development program of the United States Department of Agriculture. Originating in the early 1900's as "four-square education," the 4-H's (head-heart-hands-health) seek to promote positive youth development, facilitate learning and engage youth in the work of their community to enhance the quality of life.

Need and Use of the Information: The annual 4-H Enrollment Report is the principal means by which the 4-H movement can keep track of its progress, as well as emerging needs, potential problems and opportunities. The information collected is used to report, as requested by the Congress or the Administration, on rural versus urban outreach, enrollment by race, youth participation in leadership, community service, etc. It is also used to determine market share or percentage of the youth of each state by age and place of residence who are enrolled in the 4-H youth development program. Without the information it would be impossible to justify federal funding for the 4-H program.

AGENCY: Economic Development Administration, Department of Commerce.

ACTION: Notice and opportunity for public comment.
