

grant if the applicant or grantee is not financially stable; has a history of unsatisfactory performance; has a financial or other management system that does not meet the standards in 2 CFR part 200, subpart D; has not fulfilled the conditions of a prior grant; or is otherwise not responsible.

4. *Integrity and Performance System:* If you are selected under this competition to receive an award that over the course of the project period may exceed the simplified acquisition threshold (currently \$150,000), under 2 CFR 200.205(a)(2) we must make a judgment about your integrity, business ethics, and record of performance under Federal awards—that is, the risk posed by you as an applicant—before we make an award. In doing so, we must consider any information about you that is in the integrity and performance system (currently referred to as the Federal Awardee Performance and Integrity Information System (FAPIIS)), accessible through SAM. You may review and comment on any information about yourself that a Federal agency previously entered and that is currently in FAPIIS.

Please note that, if the total value of your currently active grants, cooperative agreements, and procurement contracts from the Federal Government exceeds \$10,000,000, the reporting requirements in 2 CFR part 200, Appendix XII, require you to report certain integrity information to FAPIIS semiannually. Please review the requirements in 2 CFR part 200, Appendix XII, if this grant plus all the other Federal funds you receive exceed \$10,000,000.

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN); or we may send you an email containing a link to access an electronic version of your GAN. We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

(c) Under 34 CFR 75.250(b), the Secretary may provide a grantee with additional funding for data collection analysis and reporting. In this case the Secretary establishes a data collection period.

4. *Performance Measures:* The overall purpose of the SEED program is to support projects by National Not-for-Profit organizations that are supported by at least Moderate Evidence of Effectiveness to recruit, select, and prepare or provide professional enhancement activities for teachers, principals, or both. We have established the following performance measures for the SEED program: (a) The percentage of teacher and principal participants who serve concentrations of High-Need Students; (b) the percentage of participants who serve concentrations of High-Need Students and are highly effective; (c) the percentage of participants who serve concentrations of High-Need Students, are highly effective, and serve for at least two years; and (d) the cost per such participant. Grantees will report annually on each measure.

ENVIRONMENTAL PROTECTION AGENCY

**[EPA–HQ–OW–2015–0335; FRL–9956–93–

Final EPA–USGS Technical Report: Protecting Aquatic Life from Effects of Hydrologic Alteration

AGENCY: Environmental Protection
 Agency (EPA) and United States
 Geological Survey (USGS).

ACTION: Notice of availability.

SUMMARY: The Environmental Protection
 Agency (EPA) and the United States
 Geological Survey are releasing a
 technical report: *Final EPA–USGS
 Technical Report: Protecting Aquatic
 Life from Effects of Hydrologic*

Alteration. Healthy aquatic ecosystems
 provide an array of services to
 individuals and society, including clean
 drinking water, irrigation supplies, and
 recreational opportunities. Sound and
 sustainable management of aquatic
 ecosystems is an integral part of
 managing water resources to meet the
 needs of society. Hydrologic alteration
 can be a contributor to the impairment
 of water bodies that are designated to
 support aquatic life. Stresses on aquatic
 life associated with hydrologic
 alteration may be further exacerbated by
 climate change.

This report provides States, Tribes
 and territories with scientific and
 technical information on the natural
 flow regime and potential effects of flow
 alteration on aquatic life, and a flexible,
 nonprescriptive framework that state
 water managers might consider if they
 are interested in developing narrative or
 numeric targets for flow regime
 components that are protective of
 aquatic life. The report also provides
 information about States and Tribes that
 have adopted narrative water quality
 standards to protect their waterbodies'
 flow regimes and on the potential
 impact of climate change on flow
 regimes.
