Applicants: Guardian Pipeline, L.L.C.  
Description: § 4(d) Rate Filing: Negotiated Rate PAL Agreement with MIECO INC. to be effective 12/10/2016.  
Filed Date: 12/9/16.  
Accession Number: 20161209–5191.  
Comments Due: 5 p.m. ET 12/21/16.  
Applicants: Sea Robin Pipeline Company, LLC.  
Description: Compliance filing Annual Flowthrough Crediting Mechanism Filing on 12/12/16.  
Filed Date: 12/12/16.  
Accession Number: 20161212–5058.  
Comments Due: 5 p.m. ET 12/27/16.  
Docket Numbers: RP17–256–000.  
Applicants: Texas Eastern Transmission, LP.  
Description: Compliance filing Gas Quality Settlement.  
Filed Date: 12/13/16.  
Accession Number: 20161213–5000.  
Comments Due: 5 p.m. ET 12/27/16.  
Applicants: Rockies Express Pipeline LLC.  
Description: § 4(d) Rate Filing: Neg Rate 2016–12–2 Capacity Enhancement Amend Many Ks to be effective 12/13/2016.  
Filed Date: 12/13/16.  
Accession Number: 20161213–5110.  
Comments Due: 5 p.m. ET 12/27/16.  
Docket Numbers: RP17–258–000.  
Applicants: Gulf Shore Energy Partners, LP.  
Description: Compliance filing Gulf Shore Energy Partners—Cost and Revenue Study.  
Filed Date: 12/13/16.  
Accession Number: 20161213–5113.  
Comments Due: 5 p.m. ET 12/27/16.  
Applicants: Natural Gas Pipeline Company of America.  
Description: § 4(d) Rate Filing: Negotiated Rate—Occidental Energy to be effective 1/1/2017.  
Filed Date: 12/13/16.  
Accession Number: 20161213–5148.  
Comments Due: 5 p.m. ET 12/27/16.  
Applicants: Texas Eastern Transmission, LP.  
Description: § 4(d) Rate Filing: Negotiated Rate—Piedmont Release to Atmos—8944225 to be effective 12/9/2016.  
Filed Date: 12/13/16.  
Accession Number: 20161213–5237.  
Comments Due: 5 p.m. ET 12/27/16.  
Any person desiring to intervene or protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission’s Regulations (18 CFR 385.211 and § 385.214) on or before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

Filings in Existing Proceedings

Applicants: Guardian Pipeline, L.L.C.  
Description: Tariff Amendment: Amendment to Docket No. RP17–200–000 to be effective 12/31/2016.  
Filed Date: 12/12/16.  
Accession Number: 20161212–5208.  
Comments Due: 5 p.m. ET 12/27/16.  
Applicants: Algonquin Gas Transmission, LLC.  
Description: Compliance filing AGT FRQ 2016 Compliance Filing.  
Filed Date: 12/12/16.  
Accession Number: 20161212–5084.  
Comments Due: 5 p.m. ET 12/27/16.  
Any person desiring to protest in any of the above proceedings must file in accordance with Rule 211 of the Commission’s Regulations (18 CFR 385.211) on or before 5:00 p.m. Eastern time on the specified comment date. The filings are accessible in the Commission’s eLibrary system by clicking on the links or querying the docket number.  
eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: http://www.ferc.gov/docs-filing/efiling/filing-req.pdf. For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.  
Dated: December 14, 2016.  
Nathaniel J. Davis, Sr.,  
Deputy Secretary.

BILLING CODE 6717–01–P

ENVIRONMENTAL PROTECTION AGENCY

AGENCY: Environmental Protection Agency (EPA) and United States Geological Survey (USGS).

ACTION: Notice of availability.

SUMMARY: The Environmental Protection Agency (EPA) and the United States Geological Survey are releasing a technical report: Final EPA–USGS Technical Report: Protecting Aquatic Life from Effects of Hydrologic Alteration. Healthy aquatic ecosystems provide an array of services to individuals and society, including clean drinking water, irrigation supplies, and recreational opportunities. Sound and sustainable management of aquatic ecosystems is an integral part of managing water resources to meet the needs of society. Hydrologic alteration can be a contributor to the impairment of water bodies that are designated to support aquatic life. Stresses on aquatic life associated with hydrologic alteration may be further exacerbated by climate change.

This report provides States, Tribes and territories with scientific and technical information on the natural flow regime and potential effects of flow alteration on aquatic life, and a flexible, nonprescriptive framework that state water managers might consider if they are interested in developing narrative or numeric targets for flow regime components that are protective of aquatic life. The report also provides information about States and Tribes that have adopted narrative water quality standards to protect their waterbodies’ flow regimes and on the potential impact of climate change on flow regimes.

FOR FURTHER INFORMATION CONTACT:
Diana Eignor, Health and Ecological Criteria Division, Office of Water (Mail Code 4304T), Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460; telephone number: (202) 566–1143; email address: eignor.diana@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. How can I get copies of this document and other related information?

1. Docket: All documents in the docket are listed in the www.regulations.gov index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available either electronically in www.regulations.gov or in hard copy at the Water Docket, EPA/DC, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566–1744, and the telephone number for the Water Docket is (202) 566–2426.
II. What is this document?

This document serves as a technical and informational resource for States, Tribes, territories, and other stakeholders that want to protect aquatic life from the adverse effects of flow alteration. To that end, this report provides technical information about the effect of altered flow regimes on aquatic life and a nonprescriptive framework that may be used to help quantify targets for flow regime components that are protective of aquatic life and their habitats. The report also provides examples of state and tribal water quality standards designed to protect such flow regimes and discusses the potential impact of climate change on flow regimes. This technical report is not a rule and, therefore, does not impose any mandatory requirements. State and Tribal decision makers retain the discretion to adopt approaches or information presented in this report on a case-by-case basis that differ from the approaches described in this report.

III. Additional Information:

EPA and USGS each conducted internal peer reviews of the report, and EPA managed a contractor-led independent external peer review of the Draft EPA-USGS Technical Report: Protecting Aquatic Life from Effects of Hydrologic Alteration. EPA will make the external peer review comments and Agency responses to these comments available in the docket at http://www.regulations.gov.

Dated: December 14, 2016.

Joel Beauvais,
Deputy Assistant Administrator, Office of Water.

For further information contact: Mrs. Lula H. Melton, Air Quality Assessment Division, Office of Air Quality Planning and Standards (E143–02), Environmental Protection Agency, Research Triangle Park, NC 27711; telephone number: (919) 541–2910; fax number: (919) 541–0516; email address: melton.lula@epa.gov. For technical questions about individual alternative test method decisions, refer to the contact person identified in the individual approval document(s).

SUPPLEMENTARY INFORMATION:

I. General Information
A. Does this notice apply to me?

This notice will be of interest to entities regulated under 40 Code of Federal Regulations (CFR) parts 60, 61, and 63, state, local, and tribal agencies, and the EPA Regional offices responsible for implementation and enforcement of regulations under 40 CFR parts 60, 61, and 63.

B. How can I get copies of this information?

You may access copies of the broadly applicable alternative test method approval documents at https://www.epa.gov/emc/broadly-applicable-approved-alternative-test-methods.

II. Background

Broadly applicable alternative test method approval decisions made by the EPA in 2016 under the NSPS, 40 CFR part 60 and the NESHAP, 40 CFR parts 61 and 63 are identified in this notice (see Table 1). Source owners and operators may voluntarily use these broadly applicable alternative test methods in lieu of otherwise specified reference test methods. Use of these broadly applicable alternative test methods does not change the applicable emission standards.

As explained in a previous Federal Register notice published at 72 FR 4257 (January 30, 2007) and located at https://www.epa.gov/emc/broadly-applicable-approved-alternative-test-methods, the EPA Administrator has the authority to approve the use of broadly applicable test methods to comply with requirements under 40 CFR parts 60, 61, and 63. This authority is found in sections 60.8(b)(3), 61.13(b)(1)(ii), and 63.7(e)(2)(ii). A similar authority is granted in 40 CFR part 65 under section 65.158(a)(2). In the past, we have performed thorough technical reviews of numerous source-specific requests for alternatives and modifications to test methods and procedures. Based on these reviews, we have often found that these changes or alternatives would be equally valid and appropriate to apply to other sources within a particular class, category, or subcategory. Consequently, we have concluded that, where a method modification or an alternative method is clearly broadly applicable to a class, category, or subcategory of sources, it is both more equitable and efficient to approve its use for all appropriate sources and situations at the same time.

It is important to clarify that alternative methods are not mandatory but permissive. Sources are not required to employ such a method but may choose to do so in appropriate circumstances. Source owners or operators should review the specific broadly applicable alternative method approval decision at https://www.epa.gov/emc/broadly-applicable-approved-alternative-test-methods before electing to employ the alternative method. As per section 63.7(f)(5), a source owner or operator electing to use an alternative method for 40 CFR part 63 standards must continue to use the alternative method until otherwise authorized.

The criteria for approval and procedures for submission and review of broadly applicable alternative test methods are outlined at 72 FR 4257 (January 30, 2007). We will continue to announce approvals for broadly applicable alternative test methods at https://www.epa.gov/emc/broadly-applicable-approved-alternative-test-methods and publish a notice annually that summarizes approvals for broadly applicable alternative test methods during the preceding year.

This notice comprises a summary of seven such approval documents posted to our Technology Transfer Network between January 1, 2016, and December 12, 2016. The alternative method decision letter/memo number, the reference method affected, sources allowed to use this alternative, and the modification or alternative method allowed are summarized in Table 1 of this notice. For more detailed information, please refer to the complete copies of these approval documents available at https://www.epa.gov/emc/broadly-applicable-approved-alternative-test-methods, as Table 1 serves only as a brief summary of the...
