This rulemaking does not involve
technical standards.

J. Executive Order 12898: Federal
Actions To Address Environmental
Justice in Minority Populations and
Low-Income Populations

The EPA believes that this action does
not have disproportionately high and
adverse human health or environmental
effects on minority populations, low-
income populations and/or indigenous
peoples, as specified in Executive Order
12898 (59 FR 7629, February 16, 1994).
This action does not affect the level of
protection provided to human health or
the environment. With this action, the
EPA is only proposing to implement the
PSD permitting requirements mandated
by the CAA in order to ensure
compliance with the PM2.5 NAAQS and
PM2.5 increments, which were promulgated in separate, prior

SUPPLEMENTARY INFORMATION:

I. Background

DoD is proposing to revise the DFARS
to implement section 898 of the
National Defense Authorization Act
(NDAA) for Fiscal Year (FY) 2016 (Pub.
L. 114–92). Section 898 requires that
DoD not preclude a nonprofit
organization from competing for a
contract for religious-related services on
a U.S. military installation. Religious-
related services typically performed on
U.S. military installations range from
choir and pastoral services, to
counseling of service members and their
families to help them deal with the
unique pressures and stresses associated
with military service. The latter
includes, but is not limited to, suicide
prevention; coping with post-traumatic
stress, depression, and sexual assault;
providing marriage and family
counseling; and providing religious and
moral guidance. The Senate Committee
Report 114–49 associated with the
NDAA for FY 2016 made the following
statement regarding the
recommendation for a provision to
ensure non-profit organizations can
compete on contracts for such religious-
related services:

“It has come to the committee’s attention
that the Department of Defense has at times
restricted competition for religious services
contracts on U.S. military installations to for-
profit firms. The committee believes certain
non-profit entities such as religious
organizations can provide valuable
competition and are well-qualified to
participate in this particular category of
services and should not be precluded from
competing for these types of contracts.”

II. Discussion and Analysis

The following changes to the DFARS
are proposed to implement section 898
in a manner that minimizes the impact on small businesses:

- A new DFARS subpart 237.7X, Competition for Religious-Related Services, is proposed to implement the requirements of section 898 for the covered services. Specifically, this subpart establishes that a nonprofit organization may not be precluded from competing for contracts for religious-related services on a U.S. military installation. A cross-reference to DFARS 219.270 is also provided to direct contracting officers to guidance on the treatment of set-asides for small business concerns.
- A new DFARS section 219.270, Religious-Related Services—Inclusion of Nonprofit Organizations, is proposed to clarify that when acquiring religious-related services on a U.S. military installation, nonprofit organizations may not be precluded from competing, even when a small business set-aside is used, and that none of the exceptions for other than full and open competition at FAR 6.302–5(b)(4) through (7) may be used for such procurements. These changes are necessary to ensure that contracting officers issue solicitations for the covered services on a competitive basis and are aware that set-asides may still be used, though offers from nonprofit organizations may be considered for award. In addition, this section clarifies that if an apparently successful offeror has not represented in its offer that it is a small business concern of a type that meets set-aside requirements of the solicitation, then the contracting officer shall verify that the offeror is registered in the System for Award Management (SAM) database as a nonprofit organization.
- A new provision is proposed at DFARS 252.219–70XX, Competition for Religious-Related Services, which is prescribed at DFARS 219.270 for use in solicitations for the acquisition of religious-related services on a U.S. military installation that will be set-aside for one of the small business programs identified at FAR 19.000(a)(3). The solicitation not only provides notice to potential offerors that a nonprofit will not be precluded from competing for award, but also advises nonprofit organizations that the contracting officer will verify that it is registered as a nonprofit organization in SAM before considering it for award. Conforming changes are made to DFARS 212.301(f)(vii) to ensure the provision is also used in commercial acquisitions.
- Similar to the changes proposed at DFARS 219.270, a new paragraph (b) is proposed to DFARS 213.7001 to direct contracting officers not to use the sole source authority at FAR 6.302–5(b)(4) and not to exclude a nonprofit organization from participating in competitive procurements under the 8(a) program.
- A definition of “nonprofit organization” is also provided where the term is used in the rule. The definition proposed in the rule is the same as the definition provided in FAR subpart 26.4 and the clause at 52.226–6, Promoting Excess Food Donations to Nonprofit Organizations. The definition also aligns with the description of a nonprofit organization provided in the SAM database.

III. Applicability to Contracts at or Below the Simplified Acquisition Threshold and for Commercial Items, Including Commercially Available Off-the-Shelf Items

This rule implements section 898 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2016 (Pub. L. 114–92). Section 898 requires that DoD may not preclude a nonprofit organization from competing for a contract for religious-related services on a U.S. military installation. The rule creates one new provision, DFARS 252.219–70XX, Competition for Religious-Related Services.

A. Applicability to Contracts at or Below the Simplified Acquisition Threshold (SAT)

41 U.S.C. 1905 governs the applicability of laws to contracts or subcontracts in amounts not greater than the SAT. It is intended to limit the applicability of laws to such contracts or subcontracts. 41 U.S.C. 1905 provides that if a provision of law contains criminal or civil penalties, or if the Federal Acquisition Regulation (FAR) Council makes a written determination that it is not in the best interest of the Federal Government to exempt contracts or subcontracts at or below the SAT, the law will apply to them. The Director, Defense Procurement and Acquisition Policy (DPAP), is the appropriate authority to make comparable determinations for regulations to be published in the DFARS, which is part of the FAR system of regulations.

B. Applicability to Contracts for the Acquisition of Commercial Items, Including Commercially Available Off-the-Shelf (COTS) Items

41 U.S.C. 1906 governs the applicability of laws to contracts for the acquisition of commercial items, and is intended to limit the applicability of laws to contracts for the acquisition of commercial items. 41 U.S.C. 1906 provides that if a provision of law contains criminal or civil penalties, or if the FAR Council makes a written determination that it is not in the best interest of the Federal Government to exempt commercial item contracts, the provision of law will apply to contracts for the acquisition of commercial items. Likewise, 41 U.S.C. 1907 governs the applicability of laws to COTS items, with the Administrator for Federal Procurement Policy the decision authority to determine that it is in the best interest of the Government to apply a provision of law to acquisitions of COTS items in the FAR. The Director, DPAP, is the appropriate authority to make comparable determinations for regulations to be published in the DFARS, which is part of the FAR system of regulations.

C. Determination

DoD is proposing to apply the requirements of section 898 to contracts at or below the SAT and contracts for the acquisition of commercial items, not including COTS items. Section 898 addresses competitive acquisitions for religious-related services to be performed on a U.S. military installation. It is in the best interest of the Federal Government to apply the rule to acquisitions not greater than the SAT and those for the acquisition of commercial items (excluding COTS items), because a portion of DoD’s acquisitions for these types of services will result in the award of contracts at or below the SAT or for commercial items. An exception for contracts not greater than the SAT or for the acquisition of commercial items, would exclude contracts intended to be covered by the law, thereby undermining the overarching public policy purpose of the law. Since section 898 of the NDAA for FY 2016 specifically focuses on the competitive acquisition of a service requirement, the changes contemplated by this rule are not applicable to contracts for COTS items. DoD will make the final determination with regard to application to acquisitions below the SAT and to those for commercial items after receipt and analysis of public comments.

IV. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects; distributive impacts; and equity). E.O. 13563 emphasizes the importance of quantifying both costs
and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is a significant regulatory action and, therefore, was subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

V. Regulatory Flexibility Act

DoD expects that this rule may have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq. Therefore, an initial regulatory flexibility analysis has been prepared and is summarized as follows:

The purpose of this proposed rule is to revise the Defense Federal Acquisition Regulation Supplement to implement policies and procedures to ensure that DoD does not preclude a nonprofit organization from competing for a contract for religious-related services on a U.S. military installation.

This rule is necessary to implement section 898 of the National Defense Authorization Act for Fiscal Year (FY) 2016, which is the legal basis for the rule.

This rule may have a significant economic impact on a substantial number of small businesses that typically compete for contracts for the covered services, since most of the contracts awarded for religious-related services fall within the dollar range reserved exclusively for small business participation (over $3,500, but no more than $150,000). The rule may also have a significant economic impact on nonprofit organizations, since these entities are normally precluded from competing for such acquisitions that are reserved for small business concerns.

According to data obtained from the Federal Procurement Data System (FPDS) for FY 2015, DoD awarded 290 contracts to 232 unique businesses for religious-related services under the Product Services Code (PSC) for Chaplain Services (G002), the majority of which (95 percent) are valued below the simplified acquisition threshold (SAT) of $150,000. Of those 290 contracts, approximately 160 contracts were awarded to 130 unique small business concerns (56 percent). The FPDS data further indicates that of the 160 contracts awarded to small business, 137 of the contracts were awarded on the basis of a total small business set-aside, including one total set-aside to a woman-owned small business concern. In addition, in order to carry out the Congressional mandate of section 898, this rule restricts the use of the sole source authorities at FAR 6.302–5(b)(4) through (7) when contracting for religious-related services on U.S. military installations; as a result, such solicitations would have to be competed in a manner that allows nonprofit organizations to participate. Analysis of FPDS data for FY 2015 reveals that four contracts were awarded to a HUBZone small business concern on a sole source basis.

Additional FPDS data was obtained for FY 2016, which showed DoD awarded 256 contracts to 212 unique businesses for religious-related services under PSC G002, of which the majority (91 percent) were valued below the SAT. Of those 256 contracts, 158 contracts (62 percent) were awarded to 130 unique small business concerns (63 percent). 116 contracts were solicited using a total small business set-aside. Again, as a result of this rule, such solicitations could not preclude a nonprofit organization from submitting an offer and being considered for award. Six contracts were awarded on a sole source basis under the Small Business Act 8(a) Business Development Program (8(a) Program); however, this rule restricts DoD contracting officers from using the sole source authority at FAR 6.302–5(b)(4) for the 8(a) Program to procure religious-related services to be performed on a U.S. military installation. In order to comply with section 898, any requirements currently in the 8(a) program would be required, upon renewal, to be solicited in a manner that does not preclude a nonprofit organization from the competition.

There are no reporting, recordkeeping, or other compliance requirements associated with this rule. The rule does not duplicate, overlap, or conflict with any other Federal rule.

There are no significant alternative approaches to the proposed rule that would minimize the impact on small entities and meet the stated objectives of the statute.

DoD invites comments from small business concerns and other interested parties on the expected impact of this rule on small entities. DoD will also consider comments from small entities concerning the existing regulations in subparts affected by this rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (DFARS Case 16-0-015), in correspondence.

VI. Paperwork Reduction Act

The rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).
