RIN 2070-AB27

Significant New Use Rules on Certain Chemical Substances; Technical Correction**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Final rule; technical correction.

SUMMARY: EPA issued a final rule in the **Federal Register** of November 17, 2016 for 57 chemical substances that were the subject of premanufacture notices (PMNs). For the chemical substance that was the subject of PMN P-15-614, EPA inadvertently listed an incorrect Chemical Abstract Service (CAS) Registry Number. In addition, for the chemical substance that was the subject of PMN P-16-52, EPA inadvertently used the incorrect name. The amendment in this document is being issued to correct these errors.

DATES: This technical correction is effective January 17, 2017.

SUPPLEMENTARY INFORMATION:**I. Does this action apply to me?**

The Agency included in the November 17, 2016 final rule a list of those who may be potentially affected by this action.

II. What does this technical correction do?

EPA issued a final rule in the **Federal Register** of November 17, 2016 (81 FR 81250) (FRL-9953-41) for significant new uses for 57 chemical substances that were the subject of PMN notices. EPA included the wrong Chemical Abstracts Service (CAS) Registry Number for § 721.10949 and the wrong name for § 721.10958. This action corrects these errors.

III. Why is this correction issued as a final rule?

Section 553 of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)(3)(B)) provides that, when an Agency for good cause finds that notice and public procedure are impracticable, unnecessary or contrary to the public interest, the Agency may issue a final rule without providing notice and an opportunity for public comment. EPA has determined that there is good cause for making this technical correction final without prior proposal and opportunity for comment. The SNUR at § 721.10949 contains the wrong CAS number associated with PMN P-15-614, and the SNUR at § 721.10958 contains the wrong name associated with PMN P-16-52 that was the basis for the SNUR. EPA finds that this constitutes good cause under 5 U.S.C. 553(b)(3)(B).

IV. Do any of the statutory and Executive Order reviews apply to this action?

No. For a detailed discussion concerning the statutory and executive order review, refer to Unit XII. of the November 17, 2016 final rule.

V. Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), EPA will

submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).
