

between different systems was clarified so that agencies better understand the requirement and public notice will be improved.

- Includes a “History” section in the system of records notice templates for agencies to provide citations to the last full **Federal Register** notice, as well as any subsequent notices of revision. This will improve transparency and assist the public in learning about systems of records as they are established and revised over time.

Howard Shelanski,

Administrator, Office of Information and Regulatory Affairs.

Marc Groman,

Senior Advisor for Privacy, Office of the Director.

BILLING CODE P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 16–090]

Notice of Intent To Grant Exclusive Term License

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of intent to grant exclusive patent license.

SUMMARY: NASA hereby gives notice of its intent to grant an exclusive patent license in the United States to practice the invention described and claimed in U.S. Patent Application entitled, “System, Apparatus, and Method for Liquid Purification,” LEW–18732–1, to SageGuard Solutions, LLC, having its principal place of business in Westlake, Ohio. The fields of use may be limited to anaerobic digestion of agricultural by-products and run-off, semiconductor manufacturing process water and wastewater treatment, and food and beverage manufacturing process water and wastewater treatment.

DATES: The prospective exclusive license may be granted unless, within fifteen (15) days from the date of this published notice, NASA receives written objections including evidence and argument that establish that the grant of the license would not be consistent with the requirements regarding the licensing of federally owned inventions as set forth in the Bayh-Dole Act and implementing regulations. Competing applications completed and received by NASA within fifteen (15) days of the date of this published notice will also be treated as objections to the grant of the contemplated exclusive license.

Objections submitted in response to this notice will not be made available to the public for inspection and, to the extent permitted by law, will not be released under the Freedom of Information Act.

ADDRESSES: Objections relating to the prospective license may be submitted to Patent Counsel, Office of Chief Counsel, MS 142–7, NASA Glenn Research Center, 21000 Brookpark Rd, Cleveland, OH 44135. Phone (216) 433–3663. Facsimile (216) 433–6790.

FOR FURTHER INFORMATION CONTACT:

Robert Earp, Patent Counsel, Office of Chief Counsel, MS 142–7, NASA Glenn Research Center, 21000 Brookpark Rd, Cleveland OH 44135. Phone (216) 433–3663. Facsimile (216) 433–6790.

SUPPLEMENTARY INFORMATION: This notice of intent to grant an exclusive patent license is issued in accordance with 35 U.S.C. 209(c)(1) and 37 CFR 404.7(a)(1)(i). The patent rights in these inventions have been assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. The prospective exclusive license will comply with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

Information about other NASA inventions available for licensing can be found online at <http://technology.nasa.gov>.

Mark P. Dvorscak,

Agency Counsel for Intellectual Property.

BILLING CODE 7510–13–P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION (NASA)

[Notice (16–091)]

National Environmental Policy Act: Kennedy Space Center—Center Master Plan

AGENCY: National Aeronautics and Space Administration

ACTION: Notice of Availability (NOA)

SUMMARY: NASA has prepared and issued a Final Programmatic Environmental Impact Statement (FPEIS) for implementation of the Kennedy Space Center (KSC) Center Master Plan (CMP). The purpose of the CMP is to provide overall management guidance for KSC from 2016 to 2032. Implementation of the CMP will facilitate a two-decade transformation from a single, government-user launch complex to a multi-user spaceport. This multi-user spaceport will be developed in concert with NASA’s programmatic missions and requirements to explore destinations outside of low Earth orbit.

The need for the action is to update KSC’s CMP in a manner that supports achievement of NASA’s programmatic mission objectives, at the same time as maximizing the provision of excess capabilities and assets in support of non-NASA access to space.

DATES: NASA will issue a Record of Decision (ROD) for the FPEIS on the proposed KSC CMP either by December 19, 2016, or after 30 days from the date of publication of the NOA for the FPEIS in the **Federal Register** by the U.S. Environmental Protection Agency (EPA), whichever is later.

ADDRESSES: The FPEIS may be reviewed at the NASA Headquarters Library (Washington, DC), as well as public libraries in Florida including New Smyrna Beach, Cocoa Beach, Merritt Island, Port St. John, Cape Canaveral and Titusville. Limited hard copies of the FPEIS are available and may be requested by contacting Mr. Donald Dankert at the address, telephone number, or electronic mail address indicated below. The FPEIS is available electronically to download and read at <http://environmental.ksc.nasa.gov/projects/peis.htm>. NASA’s ROD will also be placed on this Web site when it is issued. Anyone who desires a hard copy of NASA’s ROD when it is issued should contact Mr. Dankert.

FOR FURTHER INFORMATION CONTACT: Mr. Donald Dankert, Environmental Management Branch, NASA Kennedy Space Center, Mail Code: TA–A4C, Kennedy Space Center, FL 32899, Email: Donald.J.Dankert@nasa.gov, Telephone: (321) 861–1196.

SUPPLEMENTARY INFORMATION: Pursuant to the National Environmental Policy Act (NEPA) of 1969, as Amended (42 U.S.C. 4321 *et seq.*), the Council on Environmental Quality (CEQ) Regulations for Implementing the Procedural Provisions of NEPA (40 CFR parts 1500–1508), and NASA NEPA regulations (14 CFR part 1216 subpart 1216.3), NASA has prepared and issued a FPEIS for implementation of the CMP.

Overall, KSC is transitioning to a re-focused mission that redefines its relationship with industry and leverages the potential of partnerships. Amid the challenges of an aging and unsustainable asset base, as well as a highly constrained federal budget, NASA must adopt and implement strategies that preserve the institutional infrastructure needed to support its purpose and programs.

This FPEIS is a programmatic document. In keeping with guidance from CEQ, the FPEIS outlines and broadly describes actions associated with KSC’s proposed programs in the
