

for annual reporting and (2) other requested relief, as industry proposed and ONRR and the affected State approved. The regulations require ONRR to publish by December 1 of each year a list of the States and their decisions regarding marginal property relief.

To qualify for the first relief option (notification-based relief) for calendar

year 2016, properties must produce less than 1,000 barrels-of-oil-equivalent (BOE) per year for the base period (July 1, 2014, through June 30, 2015). Annual reporting relief will begin January 1, 2017, with the annual report and payment due February 28, 2018, or March 31, 2018, if you have an estimated payment on file. To qualify for the second relief option (other

requested relief), the combined equivalent production of the marginal properties during the base period must equal an average daily well production of less than 15 BOE per well, per day calculated under 30 CFR 1204.4(c).

The following table shows the States that have qualifying marginal properties and the States' decisions to allow one or both forms of relief.
