

circumstance, as outlined in 43 CFR 46.215, applicable to the categorical exclusion. Therefore, the policy does not constitute a major Federal action significantly affecting the quality of the human environment.

We have also determined that this action satisfies the standards for reliance upon a categorical exclusion under NOAA Administrative Order (NAO) 216–A. NAO 216–6A superseded NAO 216–6 (May 20, 1999), but temporarily left in effect the categorical exclusions in NAO 216–6 until they are superseded by a Companion Manual authorized under NAO 216–6A, which has not yet been finalized. Therefore, this policy was evaluated under the categorical exclusions in NAO 216–6. Specifically, the policy fits within two categorical exclusion provisions in § 6.03c.3(i)—for “preparation of regulations, Orders, manuals, or other guidance that implement, but do not substantially change these documents, or other guidance” and for “policy directives, regulations and guidelines of an administrative, financial, legal, technical or procedural nature.” NAO 216–6, § 6.03c.3(i). The policy would not trigger an exception precluding reliance on the categorical exclusions because it does not involve a geographic area with unique characteristics, is not the subject of public controversy based on potential environmental consequences, will not result in uncertain environmental impacts or unique or unknown risks, does not establish a precedent or decision in principle about future proposals, will not have significant cumulative impacts, and will not have any adverse effects upon endangered or threatened species or their habitats. *Id.* § 5.05c. As such, it is categorically excluded from the need to prepare an Environmental Assessment.

Government-to-Government Relationship With Tribes

In accordance with the President’s memorandum of April 29, 1994, “Government-to-Government Relations with Native American Tribal Governments” (59 FR 22951), Executive Order 13175 “Consultation and Coordination with Indian Tribal Governments,” and the Department of the Interior Manual at 512 DM 2, we have considered possible effects on federally recognized Indian tribes and have preliminarily determined that there are no potential adverse effects of issuing this policy. Our intent with the policy revision is to provide clarity in regard to the net conservation benefit requirements for a CCAA to be approved, including any agreements in

which Tribes may choose to participate. We will continue to work with Tribes as we implement this policy.

Energy Supply, Distribution, or Use

Executive Order 13211 (Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use) requires agencies to prepare Statements of Energy Effects when undertaking certain actions. The policy is not expected to significantly affect energy supplies, distribution, or use. Therefore, this action is not a significant energy action and no Statement of Energy Effects is required.

Authors

The primary authors of the policy are staff members of the Ecological Services Program, Branch of Communications and Candidate Conservation, U.S. Fish and Wildlife Service, 5275 Leesburg Pike, MS: ES, Falls Church, VA 22041–3803.

Authority

The authority for this action is the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*).

SUPPLEMENTARY INFORMATION: In accordance with the requirements of the Federal Advisory Committee Act, 5 U.S.C. App., we announce that the Sport Fishing and Boating Partnership Council will hold a teleconference.

Background

The Council was formed in January 1993 to advise the Secretary of the Interior, through the Director of the Service, on nationally significant recreational fishing, boating, and aquatic resource conservation issues. The Council represents the interests of the public and private sectors of the sport fishing, boating, and conservation communities and is organized to enhance partnerships among industry, constituency groups, and government. The 18-member Council, appointed by the Secretary of the Interior, includes the Service Director and the president of the Association of Fish and Wildlife Agencies, who both serve in *ex officio* capacities. Other Council members are directors from State agencies responsible for managing recreational fish and wildlife resources and individuals who represent the interests of saltwater and freshwater recreational fishing, recreational boating, the recreational fishing and boating industries, recreational fisheries resource conservation, Native American tribes, aquatic resource outreach and education, and tourism. Background information on the Council is available at <http://www.fws.gov/sfbpc>.

Meeting Agenda

The Council will hold a teleconference to:

- Consider and approve the Council’s Boating Infrastructure Grant Program
- Review Sub-Committee’s funding recommendations for fiscal year 2017 proposals;

- Consider and approve the Council’s recommendations on priority focus areas for the new administration;
 - Schedule an upcoming spring meeting; and
 - Consider other Council business.
- The final agenda will be posted on the Council’s Web site at <http://www.fws.gov/sfbpc>.
