#### SUPPLEMENTARY INFORMATION:

##### A. Need For and Use of the Information Collection

The Federal Home Loan Bank System consists of eleven regional Federal Home Loan Banks (Banks) and the Office of Finance (a joint office that issues and services the Banks' debt securities). The Banks are wholesale financial institutions, organized under authority of the Federal Home Loan Bank Act (Bank Act) to serve the public interest by enhancing the availability of residential housing finance and community lending credit through their member institutions and, to a limited extent, through certain eligible nonmembers. Each Bank is structured as a regional cooperative that is owned and controlled by member institutions located within its district, which are also its primary customers. An institution that is eligible for membership in a particular Bank must purchase and hold a prescribed minimum amount of the Bank's capital stock in order to become and remain a member of that Bank. With limited exceptions, only an institution that is a member of a Bank may obtain access to low cost secured loans, known as

advances, or other products provided by that Bank.

Section 6 of the Bank Act establishes capital requirements for the Banks and requires FHFA to issue regulations prescribing uniform capital standards applicable to all of the Banks.<sup>1</sup> Section 6 also establishes parameters relating to the Banks' capital structures and requires that each Bank adopt a "capital structure plan" (capital plan) to establish, within those statutory parameters, its own capital structure and to establish requirements for and govern transactions in, the Bank's capital stock.<sup>2</sup> FHFA has designated 12 CFR part 1277 as the location for its regulations on Bank Capital Requirements, Capital Stock, and Capital Plans. Part 1277 currently includes regulations establishing requirements for the Banks' capital stock (Subpart C; §§ 1277.20–1277.27) and for the Banks' capital plans (Subpart D; §§ 1277.28–1277.29). Regulations governing the Banks' capital requirements are currently located at 12 CFR parts 930 and 932 (in the regulations of the former Federal Housing Finance Board), but will be moved into part 1277 in the near future.

Both the Bank Act and FHFA's regulations state that a Bank's capital plan must require its members to maintain a minimum investment in the Bank's capital stock, but both permit each Bank to determine for itself what that minimum investment is and how each member's required minimum investment is to be calculated.<sup>3</sup> Although each Bank's capital plan establishes a slightly different method for calculating the required minimum stock investment for its members, each Bank's method is tied to some degree to both the level of assets held by the member institution (typically referred to as a "membership stock purchase requirement") and the amount of advances or other business engaged in between the member and the Bank (typically referred to as an "activity-based stock purchase requirement").

A Bank must collect information from its members to determine the minimum capital stock investment each member is required to maintain at any point in time. Although the information needed to calculate a member's required minimum investment and the precise method through which it is collected differ somewhat from Bank to Bank, the Banks typically collect two types of information. First, in order to calculate

and monitor compliance with its membership stock purchase requirement, a Bank typically requires each member to provide and/or confirm an annual report on the amount and types of assets held by that institution. Second, each time a Bank engages in a business transaction with a member, the Bank typically confirms with the member the amount of additional Bank capital stock, if any, the member must acquire in order to satisfy the Bank's activity-based stock purchase requirement and the method through which the member will acquire that stock.

The OMB number for the information collection is 2590–0002, which is due to expire on December 31, 2016. The likely respondents include current and former Bank members and institutions applying for Bank membership.

## B. Burden Estimate

FHFA has analyzed the time burden imposed on respondents by the two collections under this control number and estimates that the average total annual hour burden imposed on all respondents over the next three years will be 15,230 hours. The estimate for each collection was calculated as follows:

### I. Membership Stock Purchase Requirement Submissions

FHFA estimates that the average annual number of current and former members and applicants for membership required to report information needed to calculate a membership stock purchase requirement will be 7,320, and that each institution will submit one report per year, resulting in an estimated total of 7,320 submissions annually. The estimate for the average time required to prepare, review, and submit each report is 0.5 hours. Accordingly, the estimate for the annual hour burden associated with membership stock purchase requirement submissions is (7,320 reports × 0.5 hours per report) = 3,660 hours.

### II. Activity-Based Stock Purchase Requirement Submissions

FHFA estimates that the average number of daily transactions between Banks and members that will require the exchange of information to confirm the member's activity-based stock purchase requirement will be 341, and that there will be an average of 261 working days per year, resulting in an estimated 89,001 submissions annually. The estimate for the average preparation time per submission is 0.13 hours. Accordingly, the estimate for the annual

hour burden associated with activity-based stock purchase requirement submissions is (89,001 submissions × 0.13 hours per submission) = 11,570 hours.

## C. Comment Request

In accordance with the requirements of 5 CFR 1320.8(d), FHFA published an initial notice requesting comments regarding this information collection in the **Federal Register** on October 7, 2016.<sup>4</sup> The 60 day comment period closed on December 6, 2016. No comments were received. However, during the pendency of the comment period, FHFA consulted with several of the Banks regarding the burden estimates for this information collection. As a result of the Banks' input, FHFA has made some revisions to the burden estimates, so that those appearing above differ from those that appeared in the 60-day notice.

In accordance with the requirements of 5 CFR 1320.10(a), FHFA is publishing this second notice to request comments regarding the following: (1) Whether the collection of information is necessary for the proper performance of FHFA functions, including whether the information has practical utility; (2) the accuracy of FHFA's estimates of the burdens of the collection of information; (3) ways to enhance the quality, utility and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on members and project sponsors, including through the use of automated collection techniques or other forms of information technology. Comments should be submitted in writing to both OMB and FHFA as instructed above in the Comments section.
