

Member Business Loans; Commercial Lending. Changes involve moving loan details to a separate page and revising the Call Report loans and business lending, and Credit Union Profile programs and services sections to reflect "commercial" lending terminology. The amount of data elements removed compared to those being added have negated any program differences in burden. Adjustments in the number respondents are due to the decline of federally-insured credit unions.

Affected Public: Private Sector: Not-for-profit institutions.

Estimated Annual Burden Hours: 142,896.

By Gerard Poliquin, Secretary of the Board, the National Credit Union Administration, on December 21, 2016.

Dated: December 21, 2016.

Troy S. Hillier,

NCUA PRA Clearance Officer.

BILLING CODE 7535-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2016-0024]

Information Collection: Reporting of Defects and Noncompliance

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of submission to the Office of Management and Budget; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The information collection is entitled, "Reporting of Defects and Noncompliance."

DATES: Submit comments by January 27, 2017.

ADDRESSES: Submit comments directly to the OMB reviewer at: Vlad Dorjets, Desk Officer, Office of Information and Regulatory Affairs (3150-0035), NEOB-10202, Office of Management and Budget, Washington, DC 20503; telephone: 202-395-7315, email: *oira_submission@omb.eop.gov*.

FOR FURTHER INFORMATION CONTACT: David Cullison, NRC Clearance Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-2084; email: *Infocollects.Resource@nrc.gov*.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2016-0024 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- **Federal Rulemaking Web site:** Go to <http://www.regulations.gov> and search for Docket ID NRC-2016-0024.
- **NRC's Agencywide Documents Access and Management System (ADAMS):** You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to *pdr.resource@nrc.gov*. The supporting statement is available in ADAMS under Accession No. ML16307A057.
- **NRC's PDR:** You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.
- **NRC's Clearance Officer:** A copy of the collection of information and related instructions may be obtained without charge by contacting the NRC's Clearance Officer, David Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-2084; email: *Infocollects.Resource@nrc.gov*.

B. Submitting Comments

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <http://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment

submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "Reporting of Defects and Noncompliance." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on September 8, 2016 (81 FR 62184).

1. **The title of the information collection:** 10 CFR part 21, "Reporting of Defects and Noncompliance."
2. **OMB approval number:** 3150-0035.
3. **Type of submission:** Extension.
4. **The form number if applicable:** Not Applicable.

5. **How often the collection is required or requested:** On occasion. Defects and noncompliances are reportable as they occur.

6. **Who will be required or asked to respond:** Individual directors and responsible officers of firms constructing, owning, operating, or supplying the basic components of any facility or activity licensed under the Atomic Energy Act of 1954, as amended, or the Energy Reorganization Act of 1974, as amended, to report immediately to the NRC the discovery of defects in basic components or failures to comply that could create a substantial safety hazard.

7. **The estimated number of annual responses:** 531 (178 reporting responses + 3 third party disclosure responses + 350 recordkeepers).

8. **The estimated number of annual respondents:** 350.

9. **The total estimated number of hours needed annually to comply with the information collection requirement or request:** 43,565 hours (18,023 hours reporting + 25,257 hours recordkeeping + 285 hours third-party disclosure).

10. **Abstract:** Part 21 of title 10 of the *Code of Federal Regulations* (10 CFR), requires each individual, corporation, partnership, commercial grade dedicating entity, or other entity subject to the regulations in this part to adopt appropriate procedures to evaluate deviations and failures to comply to determine whether a defect exists that could result in a substantial safety hazard. Depending upon the outcome of the evaluation, a report of the defect

must be submitted to the NRC. Reports submitted under 10 CFR part 21 are reviewed by the NRC staff to determine whether the reported defects or failures to comply in basic components at the NRC licensed facilities or activities are potentially generic safety problems. These reports have been the basis for the issuance of numerous NRC Generic Communications that have contributed to the improved safety of the nuclear industry. The records required to be maintained in accordance with 10 CFR part 21 are subject to inspection by the NRC to determine compliance with the subject regulation.

Dated at Rockville, Maryland, this 22nd day of December, 2016.

For the Nuclear Regulatory Commission.

David Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-295 and 50-304; NRC-2016-0271]

ZionSolutions, LLC; Zion Nuclear Power Station, Units 1 and 2

AGENCY: Nuclear Regulatory Commission.

ACTION: Environmental assessment and finding of no significant impact; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an amendment to Facility Operating License Nos. DPR-39 and DPR-48, held by ZionSolutions, LLC for the operation of Zion Nuclear Power Station, Units 1 and 2 (ZNPS). The proposed action would revise the ZNPS Defueled Station Emergency Plan to reflect transfer of all spent nuclear fuel to a dry cask independent spent fuel storage installation (ISFSI).

DATES: December 28, 2016.

ADDRESSES: Please refer to Docket ID NRC-2016-0271 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2016-0271. Address questions about NRC dockets to Carol Gallagher; telephone: 301-415-3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER**

INFORMATION CONTACT section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: John Hickman, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-3017, email: John.Hickman@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is considering issuance of an amendment to Facility Operating License Nos. DPR-39 and DPR-48, held by ZionSolutions, LLC. (ZS) for the operation of Zion Nuclear Power Station, Units 1 and 2 (ZNPS) located in Lake County, Illinois. Therefore, as required by section 51.21 of title 10 of the *Code of Federal Regulations*, the NRC performed an environmental assessment (EA). Based on the results of the EA that follows, the NRC has determined not to prepare an environmental impact statement (EIS) for the amendment, and is issuing a finding of no significant impact (FONSI).

II. Environmental Assessment

Description of the Proposed Action

The proposed action would revise the ZNPS Defueled Station Emergency Plan (DSEP) and Permanently Defueled Emergency Action Level (EAL) Bases Document to reflect all spent fuel being transferred to an ISFSI at the site. The new emergency plan would be titled, "Zion Station ISFSI Emergency Plan" (ZS ISFSI EP).

The proposed action is requested by the licensee's application dated January 7, 2016, (ADAMS Accession No. ML16008B080), as supplemented by

letter dated June 22, 2016, (ADAMS Accession No. ML16176A208).

Need for the Proposed Action

The ZNPS is a permanently defueled nuclear power facility that has permanently ceased operations and is storing generated spent fuel onsite in an ISFSI. The licensee requested that the NRC review and approve the changes from the current ZNPS DSEP to the proposed Revision 0 to the ZS ISFSI EP. The major changes from the current ZNPS DSEP to the proposed Revision 0 to the ZS ISFSI EP include: Removal of non-ISFSI related emergency event types; transfer responsibility for implementing the emergency plan to ISFSI Management, a revision to the Emergency Response Organization to reflect a potential event impacting spent fuel stored in ISFSI at the site, and removal of EALs for the permanently defueled nuclear power plant.

Environmental Impacts of the Proposed Action

The NRC has completed its EA of the proposed amendment. The NRC has concluded that the proposed changes from the current ZNPS DSEP to the proposed Revision 0 to the ZS ISFSI EP to reflect the transfer of all the spent nuclear fuel to a dry cask ISFSI would not significantly affect plant safety and would not have a significant adverse effect on the probability of an accident occurring.

The proposed action would not result in an increased radiological hazard beyond those previously analyzed in the Defueled Safety Analysis Report. There will be no change to radioactive effluents that effect radiation exposures to plant workers and members of the public. No changes will be made to plant buildings or the site property. Therefore, no changes or different types of radiological impacts are expected as a result of the proposed amendment.

The proposed action does not result in changes to land use or water use, or result in changes to the quality or quantity of non-radiological effluents. No changes to the National Pollution Discharge Elimination System permit are needed. No effects on the aquatic or terrestrial habitat in the vicinity or the plant, or to threatened, endangered, or protected species under the Endangered Species Act, or impacts to essential fish habitat covered by the Magnuson-Stevens Act are expected. There are no impacts to the air or ambient air quality. There are no impacts to historical and cultural resources. There would be no noticeable effect on socioeconomic conditions in the region. Therefore, no changes or different types of non-
