

Distribution of Funds

Following receipt and review of the complete documentation submitted to USDA by the claimant, as described above in the BPI Payment Claim Submission Requirements section, and satisfaction of the requirements specified above in the BPI Payment Eligibility Requirements section, FSA will make payments directly to claimants of the BPI for qualified biofuel, subject to the availability of funds. In the event the claimant delivers fuel that is produced from an ineligible feedstock, or otherwise fails to comply with any eligibility requirement, the claimant will not receive a payment.

The claimant will receive the earned total BPI payment from FSA following FSA's receipt of the information, as specified above.

Paperwork Reduction Act Requirements

In accordance with the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. chapter 35), FSA is not required to submit the information collection request to OMB for approval because the information is expected to come from less than 10 biofuel companies, which does not meet the 10 or more entities requirement, and therefore, the PRA requirements do not apply.

Catalog of Federal Domestic Assistance

The BPI payment is not required to be in the Catalog of Federal Domestic Assistance.

Environmental Review

The environmental impacts of this NOFA have been considered in a manner consistent with the provisions of the National Environmental Policy Act (NEPA, 42 U.S.C. 4321–4347), the regulations of the Council on Environmental Quality (40 CFR parts 1500–1508), and the FSA regulations for compliance with NEPA (7 CFR part 799). As previously stated, this program uses CCC funds in coordination with DLA Energy purchases. This NOFA initiates a relatively minor change in the application of the CCC funds; the general scope of the BPI modification for DLA Energy bulk fuel solicitations, as implemented previously, is unchanged.

The purpose of the BPI is to provide an incentive to fuel providers for biofuel that is produced from a domestic feedstock approved by CCC. FSA's participation in the program and the minor, discretionary change to the program (that is, simplifying the program by providing a per gallon incentive that varies per blend) are administrative in nature. The discretionary aspects of the program (for

example, solicitation acceptance and certification of delivery, etc.) were designed and are implemented by DLA Energy and are not proposed to be substantively changed. As such, the Categorical Exclusions in 7 CFR part 799.31 apply, specifically 7 CFR 799.31(b)(6)(c) (that is, financial assistance to supplement income). No Extraordinary Circumstances (7 CFR 799.33) exist. As such, FSA has determined that this NOFA does not constitute a major Federal action that would significantly affect the quality of the human environment, individually or cumulatively. Therefore, FSA will not prepare an environmental assessment or environmental impact statement for this action.

Executive Vice President, Commodity Credit Corporation.
