In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. The first page of any filing should include docket numbers P–2436–039, P–2454–080, and P–2532–079.

j. *Description of Proceeding:* The licensee, Allele, Inc., requests the Commission extend the term of the license for three of its projects to synchronize the license expiration dates with the licensee's two other projects located nearby, so that they could be relicensed in two groups based on their location. The licensee received a 30-year license for the Grand Rapids Project No. 2362 on February 26, 1993, effective February 1, 1993. The licensee requests the license expiration date for the Grand Rapids Project be extended from January 31, 2023 to December 31, 2023, to match the license expiration date of the licensee's nearby Prairie River Project No. 2361.

In addition, the licensee received 30-year licenses for the Sylvan Project No. 2454 on October 29, 1993, and Little Falls Project No. 2532 on October 27, 1993, both effective January 1, 1994. The licensee requests the expiration dates for both projects be extended to March 31, 2038, to match the license expiration date of the licensee's nearby Pillager Project No. 2663. The licensee states that the consolidation of the relicensing proceedings for the five projects into two groups would reduce redundancy and allow for better stakeholder participation.

All comments, motions to intervene, or protests should relate to the license term extension request. Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application. If an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.
