Notice of Application for Withdrawal and Opportunity for Public Meeting; Washington

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The United States Department of Agriculture, Forest Service (USFS) has filed an application with the Bureau of Land Management (BLM) requesting that the Secretary of the Interior withdraw, for a period of 20 years, approximately 340,079 acres of National Forest System lands located in the Methow Valley, Okanogan National Forest. The purpose of the withdrawal is to protect the area while Congress considers legislation to permanently withdraw the lands, and to protect the value of ecological and recreational resources of the Methow Valley. Publication of this notice segregates the lands, subject to valid existing rights, for up to 2 years from settlement, sale, location, and entry under the public land laws, location and entry under the United States mining laws, and operation of the mineral and geothermal leasing laws. This notice also gives the public an opportunity to comment on the application for withdrawal.

DATES: Comments must be received by March 30, 2017. The date(s) and location(s) of meetings related to the application for withdrawal will be announced at least 30 days in advance of the meetings through local media, newspapers and the **Federal Register**.

ADDRESSES: Comments should be sent to the BLM Oregon/Washington State Director, P.O. Box 2965, Portland, OR 97208-2965.

SUPPLEMENTARY INFORMATION: The applicant is the USFS. The application requests the Secretary of the Interior withdraw for a period of 20 years, subject to valid existing rights, the following described National Forest System lands from settlement, sale, location, and entry under the public land laws, location and entry under the United States mining laws, and operation of the mineral and geothermal leasing laws to protect the value of ecological and recreational resources of the Methow Valley and to protect the area while legislation to permanently withdraw the lands is being considered. Recreation accounts for a substantial share of the Methow Valley community's economy while the watershed provides habitat for several threatened and endangered species. Legislation is currently pending in the 114th Congress as S.2991 and identified as the "Methow Headwaters Protection Act of 2016."

The areas described aggregate 340,079 acres of National Forest System lands in Okanogan County, Washington.

Non-Federal mineral lands located within the boundaries of the proposed withdrawal areas will not be affected.

Licenses, permits, cooperative agreements, or discretionary land use authorizations of a temporary nature that will not significantly impact the values to be protected by the withdrawal may be allowed with the approval of the authorized FS officer during the temporary segregation period. FS surface occupancy regulations will not adequately constrain land uses allowed under the General Mining Law (as amended) and the Mineral Leasing Act of 1920 (as amended).

There are no suitable alternative sites for the withdrawal.

No water rights would be needed to fulfill the purpose of the requested withdrawal.

Records related to the application may be examined by contacting Jacob Childers, BLM Oregon/Washington State Office at the address or phone number listed above.

For a period until March 30, 2017, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the BLM Oregon/Washington State Office, State Director at the address indicated above. Information regarding the withdrawal application will be available for public review at the BLM Oregon State Office, 1220 SW 3rd Avenue, Portland, OR 97204 and at the

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. Individuals who submit written comments may request confidentiality by asking us in your comment to withhold your personal identifying information from public review; however, we cannot guarantee that we will be able to do so.

Notice is hereby given that a minimum of at least one public meeting will be held in conjunction with the withdrawal application. A notice of the time and place will be published in the **Federal Register** and a local newspaper at least 30 days before the scheduled date of any meetings.

For a period until December 31, 2018, subject to valid existing rights, the lands described in this notice will be segregated from settlement, sale, location, and entry under the public land laws, location and entry under the United States mining laws, and operation of the mineral and geothermal leasing laws, unless the application is denied or canceled or the withdrawal is approved prior to that date.

This application will be processed in accordance with the regulations set forth in 43 CFR part 2300.
