NUCLEAR REGULATORY COMMISSION
[Docket Nos. 52–018 and 52–019; NRC–2008–0170]

Duke Energy Carolinas, LLC; William States Lee III Nuclear Station Units 1 and 2

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of intent to enter into a modified indemnity agreement.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing a notice of intent to enter into a modified indemnity agreement with Duke Energy Carolinas, LLC, (DEC) to operate William States Lee III Nuclear Station (WLS) Units 1 and 2. The NRC is required to publish notice of its intent to enter into an indemnity agreement which contains provisions different from the general form found in the NRC’s regulations. A modification to the general form is necessary to accommodate the unique timing provisions of a combined license (COL).

DATES: On December 15, 2016, the Commission authorized issuance of COLs to DEC to construct and operate WLS Units 1 and 2. The modified indemnity agreement would be effective upon issuance of the COLs.

ADDRESSES: Please refer to Docket ID NRC–2008–0170 when contacting the NRC about the availability of information related to this document.

For technical questions, contact the individual listed in the FOR FURTHER INFORMATION CONTACT section of this document.

You may obtain publicly-available information related to this document using any of the following methods:

• NRC’s Agencywide Documents Access and Management System (ADAMS): You may obtain publically-available documents online in the ADAMS Public Documents collection at http://www.nrc.gov/reading-rm/adams.html. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to regulatory.resource@nrc.gov.

• NRC’s PDR: You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

• NRC’s Regulatory Information System (RIS): You may access publicly-released documents, including Orders, Notices, and Orders of Investigation at http://www.nrc.gov/reading-rm/ris.html. For technical problems with RIS, contact the NRC at 301–415–5007 or regulatory.resource@nrc.gov.

Pursuant to 10 CFR 140.9, the NRC is hereby providing notice of its intent to enter into an agreement of indemnity with Duke Energy Carolinas, LLC (DEC), that is designed to accommodate the unique timing provisions of a combined license (COL).

On December 15, 2016, the Commission authorized issuance of COLs to DEC to construct and operate WLS Units 1 and 2. These COLs would include a license pursuant to part 70 of title 10 of the Code of Federal Regulations (10 CFR), “Domestic Licensing of Special Nuclear Material.” Pursuant to 10 CFR 140.20(a)(1)(iii), the NRC will execute and issue agreements of indemnity effective on the date of a license under 10 CFR part 70 authorizing the licensee to possess and store special nuclear material at the site of the nuclear reactor for use as fuel in operation of the nuclear reactor after issuance of an operating license for the reactor. The general form of indemnity agreement to be entered into by the NRC with DEC is contained in 10 CFR 140.92, “Appendix B—Form of Indemnity Agreement with licensees furnishing insurance policies as proof of financial protection.”

II. Request/Action

Pursuant to 10 CFR 140.9, the NRC is publishing notice of its intent to enter into an indemnity agreement that contains provisions different from the general form found in 10 CFR 140.92. Modifications to the general indemnity agreement are addressed in the following discussion.

III. Discussion

The provisions of the general form of indemnity agreement in 10 CFR 140.92 address insurance and indemnity for a licensee that is authorized to operate as soon as an operating license (OL) is issued pursuant to 10 CFR part 50, “Domestic licensing of production and utilization facilities.” The DEC, however, has requested a COL pursuant to 10 CFR part 52, “Licenses, Certifications, and Approvals for Nuclear Power Plants” to construct and operate WLS Units 1 and 2. Unlike an OL, which authorizes operation of the facility as soon as the license is issued, a COL authorizes the construction of the facility but does not authorize operation of the facility until the Commission makes a final finding pursuant to 10 CFR 52.103(g) that the acceptance criteria in the COL are met (also called a “§ 52.103(g) finding”). The COL holders are not required to maintain financial protection in the amount specified in 10 CFR 140.11(a)(4) before the § 52.103(g) finding is made, but must maintain financial protection in the amount specified by 10 CFR 140.13 upon receipt of a COL because the COL includes a license issued pursuant to 10 CFR part 70. Therefore, the provisions in the general form of indemnity agreement must be modified to address the timing differences applicable to COLs.

Modifications to the general form of indemnity agreement will reflect the timing distinctions applicable to COLs. In addition, other modifications and their intent are described below:

(1) References to Mutual Atomic Energy Liability Underwriters have been removed because this entity no longer exists.

(2) Monetary amounts have been updated to reflect changes that have been made to Section 170, “Indemnification and Limitation of Liability” of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2210).

IV. Conclusions

Accordingly, for the reasons discussed in this notice and in accordance with 10 CFR 140.9, the NRC hereby provides notice of its intent to enter into an agreement of indemnity with DEC for WLS Units 1 and 2 with the described modifications to the general form of indemnity.

Dated at Rockville, Maryland, this 22nd day of December 2016.

For the Nuclear Regulatory Commission.

Anna Bradford,
Deputy Director, Division of New Reactor Licensing, Office of New Reactors.

Biweekly Notice; Applications and Amendments to Facility Operating Licenses and Combined Licenses Involving No Significant Hazards Considerations

AGENCY: Nuclear Regulatory Commission.

ACTION: Biweekly notice.

SUMMARY: Pursuant to Section 189a.(2) of the Atomic Energy Act of 1954, as amended (the Act), the U.S. Nuclear Regulatory Commission (NRC) is publishing this regular biweekly notice. The Act requires the Commission to
