## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

#### 18 CFR Parts 375 and 388

[Docket Nos. RM16-15-000, RM15-25-001]

#### Regulations Implementing FAST Act Section 61003—Critical Electric Infrastructure Security and Amending Critical Energy Infrastructure Information; Availability of Certain North American Electric Reliability Corporation Databases to the Commission; Correction

**AGENCY:** Federal Energy Regulatory  
Commission.

**ACTION:** Final rule; correction.

**SUMMARY:** This document contains corrections to the final rule (RM16-15-000, RM15-25-001) which published in the **Federal Register** on Wednesday, December 21, 2016 (81 FR 93732). The final rule amended the Commission's regulations to implement provisions of the Fixing America's Surface Transportation Act that pertain to the designation, protection and sharing of Critical Electric Infrastructure Information.

**DATES:** Effective January 5, 2017, and is applicable beginning December 21, 2016.

**FOR FURTHER INFORMATION CONTACT:**

## DEPARTMENT OF COMMERCE

### International Trade Administration

#### 19 CFR Part 360

RIN 0625-AB09

#### Steel Import Monitoring and Analysis System

**AGENCY:** Enforcement and Compliance,  
International Trade Administration,  
Department of Commerce.

**ACTION:** Final rule.

**SUMMARY:** The Department of Commerce (the Department) is extending the Steel Import Monitoring and Analysis (SIMA) system until March 21, 2022. The purpose of the SIMA system is to provide to the public statistical data on steel imports entering the United States roughly five weeks earlier than it would otherwise be available. Aggregate data collected from the steel import licenses are made available to the public on a weekly basis following review by the Department.

**DATES:** Effective March 21, 2017.

**FOR FURTHER INFORMATION CONTACT:** For information about the SIMA system, please contact Julie Al-Saadawi (202) 482-1930 or Michael Rollin (202) 482-4978.

**SUPPLEMENTARY INFORMATION:**

#### Background

The SIMA system has operated under its current authority since March 21, 2005. Prior to that date, authority for steel import licensing and monitoring was derived from Proclamation 7529 of March 5, 2002 (67 FR 10553). Pursuant to sections 201 and 203 of the 1974

Trade Act, 19 U.S.C. 2251, 2253, Proclamation 7529 implemented safeguard measures with respect to certain imported steel products, placing temporary tariffs on these steel imports and providing the steel industry time to restructure. The monitoring system outlined in Proclamation 7529 required all importers of steel products to obtain a license from the Department prior to completing their customs entry summary documentation. This provided a monitoring tool to ensure that the effectiveness of the steel safeguard measures was not undermined by large quantities of imports originating from countries that were excluded from the tariffs.

In Proclamation 7741 of December 4, 2003 (68 FR 68483), the President terminated the steel safeguard measures, but directed the Secretary of Commerce to continue the monitoring system until the earlier of March 21, 2005, or such time as the Secretary of Commerce established a replacement program. On December 9, 2003, the Department published a notice stating that the system would continue in effect as described in Proclamation 7741 until March 21, 2005 (68 FR 68594). On August 25, 2004, the Department published an advance notice of proposed rulemaking soliciting comments from the public on whether to continue the monitoring system beyond March 21, 2005 (69 FR 52211). The Department changed the program's name from the Steel Import Licensing and Surge Monitoring program to the Steel Import Monitoring and Analysis (SIMA) system. The name change was notified in the publication of the August 2004 advance notice (69 FR 52211). On March 11, 2005, the Department published an interim final rule responding to the comments received from the public and implementing a slightly expanded version of SIMA until March 21, 2009. That interim final rule was followed by the publication of the final rule on December 5, 2005 (70 FR 72373).

On December 12, 2008, a proposed rule was published in the **Federal Register** (73 FR 75624) seeking an extension of the SIMA system through March 21, 2013 and asking for comments from the public. The Department received twelve submissions, all of which expressed support for the extension. On March 18,
