**A. Program Description**

The purpose of the Community Connect Grant Program is to provide financial assistance in the form of grants to eligible applicants that will provide service at the Broadband Grant Speed to all premises in currently unserved, lower-income, and extremely rural

areas. RUS will give priority to rural areas that demonstrate the greatest need for broadband services, based on the criteria contained herein.

In addition to providing service to all premises, the program’s “community-oriented connectivity” concept will stimulate practical, everyday uses and applications of broadband by cultivating the deployment of new broadband services that improve economic development and provide enhanced educational and health care opportunities in rural areas. Such an approach will also give rural communities the opportunity to benefit from the advanced technologies that are necessary to achieve these goals. The regulation for the Community Connect Grant Program can be found at 7 CFR part 1739.

As in years past, the FY 2017 Community Connect Grant Application Guide has been updated based on program experience.
