BILLING CODE 6210-01-P

GENERAL SERVICES ADMINISTRATION

[OMB Control No. 3090-0304]; [Docket No. 2016-0001; Sequence No. 6]

Submission for OMB Review; USA.gov and All Related Subdomains

AGENCY: The Technology Transformation Service, General Services Administration (GSA).

ACTION: Notice of request for comments regarding an extension to an existing OMB clearance.

SUMMARY: Under the provisions of the Paperwork Reduction Act, the Regulatory Secretariat Division will be submitting to the Office of Management and Budget (OMB) a request for comments regarding an existing OMB clearance concerning *USA.gov* and all related subdomains.

DATES: Submit comments on or before February 13, 2017.

ADDRESSES: Submit comments identified by Information Collection 3090-0304; *USA.gov* and All Related Subdomains by any of the following methods:

- *Regulations.gov:* <http://www.regulations.gov>. Submit comments via the Federal eRulemaking portal by searching the OMB control number 3090-0304. Select the link "Comment Now" that corresponds with "Information Collection 3090-0304; *USA.gov* and All Related Subdomains". Follow the instructions provided at the "Submit a Comment" screen. Please include your name, company name (if any), and "Information Collection 3090-0304; *USA.gov* and All Related Subdomains" on your attached document.

- *Mail:* General Services Administration, Regulatory Secretariat

Division (MVCB), 1800 F Street NW., Washington, DC 20405. ATTN: Ms. Flowers/ IC 3090-0304; *USA.gov* and All Related Subdomains.

Instructions: Please submit comments only and cite Information Collection 3090-0304; *USA.gov* and All Related Subdomains, in all correspondence related to this collection. Comments received generally will be posted without change to <http://www.regulations.gov>, including any personal and/or business confidential information provided. To confirm receipt of your comment(s), please check www.regulations.gov, approximately two to three days after submission to verify posting (except allow 30 days for posting of comments submitted by mail).

FOR FURTHER INFORMATION CONTACT: John Yuda, Federal Citizen Information Center, GSA, telephone 202-306-9046 or via email at john.yuda@gsa.gov.

SUPPLEMENTARY INFORMATION:

A. Purpose

USA.gov and All Related Subdomains (<https://www.USA.gov>) provides an account to a user that gives them control over their interactions with government agencies and how Government uses and accesses their personal information. Users have the option of creating a personal profile that can be reused across government to personalize interactions and streamline common tasks such as filling out forms. Government agencies can build applications that can request permission from the user to access their account and read their personal profile.

The information in the system is contributed voluntarily by the user and cannot be accessed by the Government without explicit consent of the user; information is not shared between government agencies, except when the user gives explicit consent to share his or her information, and as detailed in the *USA.gov* and All Related Subdomains System of Records Notice (SORN), published in the **Federal Register** at 81 FR 4664 on July 18, 2016.

The information collected is basic profile information, and may include: Name, email address, home address, phone number, date of birth, gender, marital status and basic demographic information such as whether the individual is married, a veteran, a small business owner, a parent or a student. Use of the system, and contribution of personal information, is completely voluntary.

B. Annual Reporting Burden

Respondents: 10,000.

Responses per Respondent: 1.
Total Annual Responses: 10,000.
Hours per Response: .05.
Total Burden Hours: 500.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected.

Obtaining Copies of Proposals: Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW., Washington, DC 20405, telephone 202-501-4755.

Please cite OMB Control No. 3090-0304, *USA.gov* and All Related Subdomains, in all correspondence.

Dated: January 4, 2017.

David A. Shive,

Chief Information Officer.

[FR Doc. 2017-00482 Filed 1-11-17; 8:45 am]

BILLING CODE 6820-34-P

GENERAL SERVICES ADMINISTRATION

[OMB Control No. 3090-00XX; Docket No. 2016-0001; Sequence 11]

Submission for OMB Review; Alliant2 Greenhouse Gas Disclosure

AGENCY: Federal Acquisition Service (FAS), General Services Administration (GSA).

ACTION: Notice of request for comments regarding a new request for an OMB clearance.

SUMMARY: Under the provisions of the Paperwork Reduction Act, the Regulatory Secretariat Division will be submitting to the Office of Management and Budget (OMB) a request to review and approve a new information collection requirement regarding OMB Control No. 3090-00XX; Alliant2 Greenhouse Gas Disclosure. A notice was published in the **Federal Register** at 81 FR 57911 on August 24, 2016. Three comments were received.

DATES: Submit comments on or before February 13, 2017.

ADDRESSES: Submit comments identified by Information Collection 3090-00xx; Alliant2 Greenhouse Gas Disclosure by any of the following methods:

- *Regulations.gov:* <http://www.regulations.gov>. Submit comments

via the Federal eRulemaking portal by searching for “Information Collection 3090–00xx; Alliant2 Greenhouse Gas reporting”. Select the link “Submit a Comment” that corresponds with “Information Collection 3090–00xx; Alliant2 Greenhouse Gas Disclosure”. Follow the instructions provided at the “Submit a Comment” screen. Please include your name, company name (if any), and “Information Collection 3090–00xx; Alliant2 Greenhouse Gas Disclosure” on your attached document.

• **Mail:** General Services Administration, U.S. General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW., Washington, DC 20405. ATTN: Ms. Flowers/IC 3090–00XX, Alliant2 Greenhouse Gas Disclosure.

Instructions: Please submit comments only and cite Information Collection 3090–00XX; Alliant2 Greenhouse Gas Disclosure, in all correspondence related to this collection. Comments received generally will be posted without change to <http://www.regulations.gov>, including any personal and/or business confidential information provided. To confirm receipt of your comment(s), please check www.regulations.gov, approximately two to three days after submission to verify posting (except allow 30 days for posting of comments submitted by mail).

FOR FURTHER INFORMATION CONTACT: Dana Arnold, Director, Federal Acquisition Service Office of Acquisition Management, Special Programs Branch, at telephone 703–605–0534, or via email to dana.arnold@gsa.gov.

SUPPLEMENTARY INFORMATION:

A. Purpose

President Obama has made Greenhouse Gas (GHG) Emissions reduction nationwide and in the Federal community a priority. The President’s Executive Order 13693, *Planning for Federal Sustainability in the Next Decade*, published in the **Federal Register** at 80 FR 15871, on March 25, 2015, requires the seven largest procuring agencies to implement procurements that take into consideration contractor GHG emissions and GHG management practices.

GSA has selected the Alliant2 Government-wide Acquisition Contract (GWAC) acquisition for inclusion of contractor GHG emissions disclosure requirements. Alliant, GSA’s premier enterprise GWAC, provides flexible access to customized IT solutions from a large, diverse pool of industry partners. Alliant2 will offer both large

and small contractors. It is GSA’s intent to require the large (unrestricted) Alliant2 contractors to inventory and publicly disclose their operational GHG emissions, set targets for reducing those emissions, and disclose progress toward meeting their targets. Of the current Alliant contractors, approximately 40 percent already publicly disclose their GHG emissions in response to requests from their non-government customers, investors, insurers, and corporate sustainability policies.

Public disclosure of GHG emissions and GHG reduction goals or targets has become standard practice in many industries, and companies are increasingly asking their own suppliers about their GHG management practices. More than 4,000 companies provided public disclosure through third-party organization CDP (formerly the Carbon Disclosure Project) in 2015. Performing a GHG inventory provides insight into operations and opportunities for energy and operational savings that can result in both environmental and financial benefits.

The Alliant2 GHG disclosure requirement will require the unrestricted (large and medium-sized) Alliant2 contractors to inventory, and publicly disclose their operational GHG emissions, set targets for reducing those emissions, and report progress toward meeting their targets. This will be an annual requirement.

B. Discussion and Analysis

GSA received three comments from one individual and one industry association.

Comment: A commenter noted that contracting law with respect to GHG disclosures should be established in the Federal Acquisition Regulation, not an individual acquisition.

Response: E.O. 13693 requires the seven largest purchasing agencies to include GHG management in five acquisitions annually. As one of the seven agencies, GSA selected the Alliant2 contract as one of its five acquisitions for FY2017.

Comment: A commenter stated that requirements for GHG disclosure should be limited to the reporting on the existence of a GHG inventory and targets for reductions, with the corresponding provision of a URL to a publicly available Web site where this information has already been disclosed.

Response: GSA believes that simply reporting that GHG emissions information has been disclosed through a third-party portal or a corporate Web site is not enough. Rather, the sharing of information about GHG management will be useful to the Alliant2

contractors, particularly to provide best practices proven to increase energy efficiency and reduce costs. GSA can review the disclosures for best practices and share them with the Alliant2 community.

Comment: The commenter supports the approach to GHG disclosure laid out by the Alliant2 contracting office, noting that it is the least invasive and should be the pattern across government as additional GHG inventory and disclosure requirements become more prevalent. The Alliant2 awardees should be required to disclose whether they have a GHG inventory and goals or targets, and if so where they make the inventory and goals or targets publicly available. The commenter believes that a Paperwork Reduction Act waiver is not necessary.

Response: GSA thanks the commenter for the comment.

Comment: The commenter stated that the estimated annual reporting burden was too low and estimated that for large companies operating globally the burden could exceed 200 hours annually.

Response: The Alliant2 contractors under the unrestricted contract will be a mix of large and medium-sized businesses, not all of whom operate globally. Taking into account the new information provided by the commenter, previous research, as well as its own experience conducting a GHG inventory across a large set of buildings, GSA is increasing the estimated burden to 120 hours per respondent annually.

C. Annual Reporting Burden

Respondents: 60.

Responses per Respondent: 1.

Total Annual Responses: 60.

Hours per Response: 120.

Total Burden Hours: 7,200.

Public comments are particularly invited on: Whether this collection of information is necessary, whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Obtaining Copies of Proposals: Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB),

1800 F Street NW., Washington, DC 20405, telephone 202–501–4755.

Please cite OMB Control No. 3090–00XX, Alliant2 Greenhouse Gas Disclosure, in all correspondence.

Dated: January 4, 2017.

David A. Shive,
Chief Information Officer.

BILLING CODE 6820–34–P

GOVERNMENT ACCOUNTABILITY OFFICE

Request for Medicaid and CHIP Payment and Access Commission Nominations

AGENCY: U.S. Government Accountability Office (GAO).

ACTION: Request for letters of nomination and resumes.

SUMMARY: The Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA) established the Medicaid and CHIP Payment and Access Commission (MACPAC) to review Medicaid and CHIP access and payment policies and to advise Congress on issues affecting Medicaid and CHIP. CHIPRA gave the Comptroller General of the United States responsibility for appointing MACPAC's members. GAO is now accepting nominations to MACPAC that will be effective May 1, 2017. Letters of nomination and resumes should be submitted no later than February 24, 2017 to ensure adequate opportunity for review and consideration of nominees prior to appointment of new members. Nominations should be sent to the email or mailing address listed below. Acknowledgement of submissions will be provided within a week of submission. Please contact Will Black at (202) 512–6482 if you do not receive an acknowledgement.

ADDRESSES:

Email: MACPACappointments@gao.gov.

Mail: U.S. GAO, Attn: MACPAC Appointments, 441 G Street NW., Washington, DC 20548.

FOR FURTHER INFORMATION CONTACT:

GAO: Office of Public Affairs, (202) 512–4800. Public Law 111–3, Section 506; 42 U.S.C. 1396.

Gene L. Dodaro,
Comptroller General of the United States.
[FR Doc. 2017–00044 Filed 1–11–17; 8:45 am]

BILLING CODE 1610–02–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Healthcare Research and Quality

Request for Information—Learning Healthcare Systems

AGENCY: Agency for Healthcare Research and Quality (AHRQ), HHS.

ACTION: Request for Information.

SUMMARY: The Agency for Healthcare Research and Quality (AHRQ) is seeking information from healthcare delivery organizations about current challenges they are facing and solutions they are implementing as they seek to become learning healthcare systems. AHRQ is also seeking to identify opportunities such organizations see for the Agency to assist them in this work—for example by summarizing best practices, creating training materials, developing standardized metrics, and/or convening learning networks.

DATES: Submission deadline on or before February 28, 2017.

ADDRESSES:

Email submissions:
LearningHealthSystem@AHRQ.hhs.gov.
Mailing Address: Learning Healthcare Systems, Office of the Director, Agency for Healthcare Research and Quality, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT:

Brigid Russell, Office of the Director,
LearningHealthSystem@AHRQ.hhs.gov,
301–427–1886.

SUPPLEMENTARY INFORMATION: The mission of the Agency for Healthcare Research and Quality (AHRQ) is to produce evidence to make health care safer, higher quality, more accessible, equitable, and affordable, and to work within the U.S. Department of Health and Human Services and with other public and private partners to make sure that the evidence is understood and used. The Agency strives to meet this mission by investing in research and generating needed evidence that supports disseminating tested practices, creating materials to teach and train health care systems and professionals to catalyze improvements in care, and developing measures and data used to track and improve performance. To learn more about the Agency, visit AHRQ.gov.

The National Academy of Medicine (formerly the Institute of Medicine or IOM) has described a learning healthcare system as an organization that “is designed to generate and apply the best evidence for the collaborative healthcare choices of each patient and

provider; to drive the process of discovery as a natural outgrowth of patient care; and to ensure innovation, quality, safety, and value in health care.”¹

Several trends within healthcare delivery are increasing the potential for the development of learning healthcare systems including the consolidation of ambulatory, in-patient, and post-acute care settings of care into integrated delivery systems, the evolution of health information systems, and increased attention to population health management. AHRQ is interested in understanding how healthcare professionals and organizations in the United States are currently working to become learning healthcare systems and in identifying high-leverage opportunities for the Agency to support this transformation.

Healthcare delivery organizations, both small and large, can function as learning healthcare systems, systematically gathering and creating evidence and applying the most promising evidence-based practices to improve their care delivery. AHRQ wants to better understand the process by which organizations and professionals select evidence to implement and the strategies used to move evidence into everyday practice. AHRQ is interested in hearing from the full range of healthcare delivery organizations including individual ambulatory practices, community health center networks, hospitals, individual components (such as departments) within larger organizations, networks of practices, accountable care organizations, and integrated delivery systems.

Specific questions of interest to the Agency include, but are not limited to:

- How are learning healthcare systems utilizing their own data to inform clinical and organizational improvements in healthcare delivery, design, and efficiency?
- Are learning healthcare systems using their own data to inform strategies to address population health and healthcare disparities?
- What methodological and/or data quality issues have been encountered by the health care delivery organizations in generating evidence utilizing their own data?
- How do learning healthcare systems ensure that evidence either generated from their own data and/or adopted from external research is applied in a
