equipment based on a showing of compliance with technical standards established in the FCC Rules for each type of equipment or device operated under the applicable FCC Rule part. The following types of equipment are regulated (a) the RF equipment is regulated under certain rule sections of 47 CFR part 15 and Part 18, and (b) in addition, rules governing certain RF equipment operating in the licensed services also require equipment authorization as established in the procedural rules in 47 CFR part 2. The RF equipment manufacturers comply with the information collection requirements by (a) Filing FCC Form 731 electronically with the Commission, or (b) Submitting the information to a Telecommunications Certification Body (TCB), which acts on behalf of the FCC to issue grants of certification and may issue grants more expeditiously than the FCC. The TCBs have flexibility in the format in which they require the collection of information (i) TCBs may require applicants to submit the required information in FCC Form 731 format or in another format selected by the TCB, but (ii) whatever the information collection method, the information required is governed by the procedural rules in 47 CFR part 2 and a showing of compliance with the FCC technical standards for the specific type of equipment. RF manufacturer applicants for equipment certification may also request "expedited authorization" to market their equipment by: (a) Choosing to pay the fee levied by a TCB, and (b) submitting their request to a TCB in order for expedited authorization to market. The TCB processes the RF equipment manufacturer's application as follows: (i) The TCB receives and reviews the RF manufacturer's information submission/application; and (ii) the TCB enters the information into the FCC Equipment Authorization System database using an interface that provides the TCB with the tools to issue a standardized Grant of Equipment Authorization. Whichever method the RF manufacturers choose to submit their information—via either the FCC on FCC Form 731 or the TCB, FCC Rules require that applicants supply the following data: (a) Demographic information including Grantee name and address, contact information, etc.; (b) information specific to the equipment including FCC Identifier, equipment class, technical specifications, etc.; and (c) attachments that demonstrate compliance with FCC Rules that may include any combination of the following based on the applicable Rule parts for the equipment for which
