that we can accommodate all timing requests and will provide requestors with the next available speaking time, in the event that their requested time is taken. Please note that the time outlined in the confirmation email received will be the scheduled speaking time. Again, depending on the flow of the day, times may fluctuate. Please note that any updates made to any aspect of the hearing will be posted online at: <https://www.epa.gov/stationary-sources-air-pollution/manufacturing-nutritional-yeast-national-emission-standards>. While the EPA expects the hearing to go forward as set forth above, we ask that you monitor our Web site or contact Aimee St. Clair at (919) 541-1063 or at stclair.aimee@epa.gov to determine if there are any updates to the information on the hearing. Questions concerning the rule that was published in the **Federal Register** on December 28, 2016, should be addressed to Allison Costa, Office of Air Quality Planning and Standards, Sector Policies and Programs Division (E140), Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-1322; facsimile number: (919) 541-3470; email address: costa.allison@epa.gov.

Public hearing: The proposal for which the EPA is holding the public hearing was published in the **Federal Register** on December 28, 2016, and is available at: <https://www.epa.gov/stationary-sources-air-pollution/manufacturing-nutritional-yeast-national-emission-standards>, and also in Docket ID No. EPA-HQ-OAR-2015-0730. The public hearing will provide interested parties the opportunity to present oral comments regarding the EPA's proposed standards, including data, views, or arguments concerning the proposal. The EPA may ask clarifying questions during the oral presentations, but will not respond to the presentations at that time. Written statements and supporting information submitted during the comment period will be considered with the same weight as any oral comments and supporting information presented at the public hearing. The period for providing written comments to the EPA will remain open until February 24, 2017.

Commenters should notify Aimee St. Clair if they will need specific equipment or if there are other special needs related to providing comments at the public hearing. The EPA will provide equipment for commenters to make computerized slide presentations if we receive special requests in advance. Oral testimony will be limited

to 5 minutes for each commenter. The EPA encourages commenters to submit to the docket a copy of their oral testimony electronically (via email or CD) or in hard copy form.

Because the hearing will be held at a U.S. government facility, individuals planning to attend the hearing should be prepared to show valid picture identification to the security staff in order to gain access to the meeting room. Please note that the REAL ID Act, passed by Congress in 2005, established new requirements for entering federal facilities. If your driver's license is issued by Minnesota, Missouri or the State of Washington, you must present an additional form of identification to enter the federal building. Acceptable alternative forms of identification include: Federal employee badges, passports, enhanced driver's licenses, and military identification cards. In addition, you will need to obtain a property pass for any personal belongings you bring with you. Upon leaving the building, you will be required to return this property pass to the security desk. No large signs will be allowed in the building, cameras may only be used outside of the building, and demonstrations will not be allowed on federal property for security reasons.

The public hearing schedule, including lists of speakers, will be posted on the EPA's Web site at: <https://www.epa.gov/stationary-sources-air-pollution/manufacturing-nutritional-yeast-national-emission-standards>. Verbatim transcripts of the hearing and written statements will be included in the docket for the rulemaking. The EPA will make every effort to follow the schedule as closely as possible on the day of the hearing; however, please plan for the hearing to run either ahead of schedule or behind schedule.

Public Notification Requirements for Combined Sewer Overflows to the Great Lakes Basin

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing a rule to implement section 425 of the Consolidated Appropriations Act of 2016, which requires EPA to work with the Great Lakes states to establish public notification requirements for combined sewer overflow (CSO) discharges to the Great Lakes. The proposed requirements address signage, notification of local public health departments and other potentially affected public entities, notification to the public, and annual notice provisions.

The proposed rules, when finalized, will protect public health by ensuring timely notification to the public and to public health departments, public drinking water facilities and other potentially affected public entities, including Indian tribes. Timely notice may allow the public to take steps to reduce their potential exposure to pathogens associated with human sewage, which can cause a wide variety of health effects, including gastrointestinal, skin, ear, respiratory, eye, neurologic, and wound infections.

DATES: Comments must be received on or before March 14, 2017.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-OW-2016-0376 to the *Federal eRulemaking Portal*: <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or withdrawn. EPA may publish any comment received to its public docket.
