SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension of a currently approved information collection.

The National Marine Fisheries Service (NMFS) Greater Atlantic Region manages the Atlantic sea scallop (scallop) fishery of the Exclusive Economic Zone (EEZ) off the East Coast under the Atlantic Sea Scallop Fishery Management Plan (FMP). The regulations implementing the FMP are at 50 CFR part 648. To successfully implement and administer components of the FMP, OMB Control No. 0648-0491 includes the following information collections for scallop vessel owners, operators, and fishery participants: Vessel monitoring system (VMS) trip declarations for all scallop vessels, including powerdown declarations; notification of access area trip termination for limited access scallop vessels; submission of access area compensation trip identification; submission of access area trip exchange forms; VMS purchase and installation for individuals that purchase a federally permitted scallop vessel; VMS daily catch reports; submission of ownership cap forms for individual fishing quota (IFQ) scallop vessels; submission of vessel replacement, upgrade and permit history applications for IFQ, Northern Gulf of Maine (NGOM), and Incidental Catch (IC) scallop vessels; submission of VMS pre-landing notification form by IFQ vessels and limited access vessels for access areas; enrollment into the state waters exemption program; submission of requests for IFQ transfers; payment of cost recovery bills for IFQ

vessels; sector proposals for IFQ vessels and industry participants; and sector operations plans for approved sector proposals.

Data collected through these programs are incorporated into the NMFS database and are used to track and confirm vessel permit status and eligibility, scallop landings, and scallop vessel allocations. Aggregated summaries of the collected information will be used to evaluate the management program and future management proposals.

SUPPLEMENTARY INFORMATION: The subject permits are requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

Dr. Sharpe (File No. 19703) proposes to study humpback and killer (*Orcinus orca*) whales in Alaska using both vessel and aerial surveys and a variety of methods including photo-identification, passive and active acoustics, underwater video/photography, unmanned aircraft systems, prey mapping, and suction-cup tagging. The purpose of the research is to continue a long-term study of the behavior of Alaskan humpback whales, focusing on social structure, vocalizations, and feeding. Forty harbor porpoises (*Phocoena phocoena*), 50 Dall's porpoises (*Phocoenoides dalli*), 130 harbor seals (*Phoca vitulina*), and 80 Steller sea lions (*Eumetopias jubatus*) may be incidentally harassed during research activities.
