#### SUPPLEMENTARY INFORMATION:

##### I. Background

The Institute of Museum and Library Services is the primary source of federal support for the Nation's 123,000 libraries and 35,000 museums. The Institute's mission is to inspire libraries and museums to advance innovation, learning and civic engagement. The Institute works at the national level and in coordination with state and local organizations to sustain heritage, culture, and knowledge; enhance learning and innovation; and support professional development. IMLS is responsible for identifying national needs for and trends in museum, library, and information services; measuring and reporting on the impact and effectiveness of museum, library and information services throughout the United States, including programs conducted with funds made available by IMLS; identifying, and disseminating information on, the best practices of such programs; and developing plans to improve museum, library and information services of the United States and strengthen national, State, local, regional, and international communications and cooperative networks (20 U.S.C. Chapter 72, 20 U.S.C. 9108).

##### II. Current Actions

The purpose of this collection is to assess institutional and individual outcomes from participation in the *Museums for All* program. *Museums for All* is a voluntary program inviting museums to invite EBT card holders to receive reduced-price admission to their facilities.

A summative evaluation will be conducted to measure participating institutions' understanding of the program's value, structural strengths and difficulties, partnership implications, financial implications, and community support and engagement. The evaluation is intended

to provide insight for future changes and programmatic improvements. Methods will include online surveys and in-depth interviews.

The institutional online survey, expected to require an average of 10 minutes to complete, will consist of 1–3 questions focused on the *Museums for All* program's implications for participating museums, allowing for a broad understanding of the program's institutional participants, their perceptions of the program, and potential future directions. In-depth interviews with 15–18 survey participants, each projected to require 20 minutes to complete, will add depth and clarity of understanding to the online survey. An additional online survey, projected to require 10 minutes to complete, will be conducted with a sampling of adult museum participants in the program to gauge the level of awareness of the program and its influence on their museum experience.

IMLS is particularly interested in comments that help the agency:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques, or other forms of information technology, *e.g.*, permitting electronic submissions of responses.

*Agency:* Institute of Museum and Library Services.

*Title:* Museum Assessment Program Evaluation.

*OMB Number:* To Be Determined.

*Frequency:* One-time collection anticipated.
