Confidentiality of Substance Use Disorder Patient Records

AGENCY: Substance Abuse and Mental Health Services Administration, HHS.

ACTION: Supplemental notice of proposed rulemaking.

SUMMARY: On Feb. 9, 2016, the Substance Abuse and Mental Health Services Administration (SAMHSA) published a Notice of Proposed Rulemaking (NPRM) that proposed policy changes to update and modernize the Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR part 2). SAMHSA explained in the NPRM that these changes were intended to better align the regulations with advances in the U.S. health care delivery system while retaining important privacy protections for individuals seeking treatment for substance use disorders. The last substantive update to these regulations was in 1987. SAMHSA is issuing this Supplemental Notice of Proposed Rulemaking (SNPRM) to propose additional clarifications to the part 2 regulations as amended by the concurrently issued final rule. As noted in the final rule, 42 CFR part 2 Confidentiality of Substance Use Disorder Patient Records, questions raised by commenters highlighted varying interpretations of the 1987 rule's restrictions on lawful holders and their contractors and subcontractors' use and disclosure of part 2-covered data for purposes of carrying out payment, health care operations, and other health care related activities. In consideration of this feedback and given the critical role that third-party payers, other lawful holders, and their contractors, subcontractors, and legal representatives play in the provision of health care services, SAMHSA is issuing this SNPRM to seek further comments on our proposals to address and help

clarify these matters before establishing any appropriate restrictions on disclosures to contractors, subcontractors and legal representatives.
