The public was provided with a period to review and comment on the Draft Restoration Plan, from October 20 through December 9, 2016, and a public meeting was held on November 30, 2016, in Baton Rouge, Louisiana. The Louisiana TIG considered the public comments received, which informed the TIG's analyses and selection of the restoration alternatives in the Restoration Plan #1. A summary of the public comments received, and the Louisiana TIG's responses to those comments, are addressed in chapter 5 of the Restoration Plan #1.

For selected restoration alternatives in this Restoration Plan #1, the Louisiana TIG may, after completion of the engineering and design process discussed in this plan, propose some or all of those projects for construction using *Deepwater Horizon* NRDA funds. Projects selected for construction funding would then be evaluated further under NEPA and OPA in a future Draft Restoration Plan, which would be provided to the public for review and comment in accordance with the appropriate Louisiana and Federal laws.

The total estimated cost for the engineering and design activities for the six restoration projects is \$22,300,000. Details on the engineering and design activities for these projects are provided in the Restoration Plan #1.
