Notice of Availability of the Revised Guidelines for Reporting on Cultural Resources Investigations for Natural Gas Projects and Request for Comments

The staff of the Federal Energy Regulatory Commission (FERC or Commission) is revising its *Guidelines for Reporting on Cultural Resources Investigations for Pipeline Projects*, dated December 2002. Based on

comments received in the above-referenced docket,¹ the staff has revised the *Guidelines* and comments are now requested on this draft document from federal and state agencies, Native American tribes, environmental consultants, inspectors, natural gas industry, construction contractors, and other interested parties with special expertise with respect to historic and cultural resources commonly associated with natural gas pipeline projects. A 60-day public comment period is allotted to collect comments. Please note that this comment period will close on March 26, 2017.

Interested parties can help the Commission staff determine the appropriate updates and improvements by providing meaningful comments or suggestions that focus on the specific sections requiring clarification; updates to reflect current laws and regulations; or improved measures to avoid or minimize impacts on historic or cultural resources. The more specific your comments, the more useful they will be. A detailed explanation of your submissions and/or any references of scientific studies associated with your comments will greatly help us with this process. We will consider all timely comments on the revised *Guidelines* before issuing the final version.

The FERC staff provided copies of the revised *Guidelines* to federal and state agencies, Native American tribes, environmental consultants, inspectors, natural gas industry, construction contractors, and other interested parties.
