Pressurized Water Reactor Control Rod Ejection and Boiling Water Reactor Control Rod Drop Accidents

A. Obtaining Information

Please refer to Docket ID NRC–2016–0233 when contacting the NRC about the availability of information regarding this action. You may obtain publically-available information related to this action, by any of the following methods:

- Federal Rulemaking Web site: Go to
- NRC’s Agencywide Documents Access and Management System (ADAMS): You may obtain publically-available documents online in the ADAMS Public Documents collection at
  http://www.nrc.gov/reading-rm/adams.html. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at
  1–800–397–4209, 301–415–4737, or by email to
  pdr.resource@nrc.gov. The DG is electronically available in ADAMS under Accession No. ML16124A200.
- NRC’s PDR: You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 1155 Rockville Pike, Rockville, Maryland 20852.

B. Submitting Comments

Please include Docket ID NRC–2016–0233 in your comment submission. The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at http://www.regulations.gov as well as enters the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

II. Discussion

On November 21, 2016, the NRC solicited comments on draft regulatory guide (DG) DG–1327, “Pressurized Water Reactor Control Rod Ejection and Boiling Water Reactor Control Rod Drop Accidents.” The public comment period was originally scheduled to close on February 21, 2017. Because this DG proposes new guidance for analyzing accidents such as control rod ejection for pressurized water reactors and control rod drop for boiling-water reactors, the NRC has decided to extend the public comment period to allow more time for members of the public to develop and submit their comments. The NRC has decided to extend the public comment period on this document until April 21, 2017, to allow more time for members of the public to submit their comments.

Dated at Rockville, Maryland, this 26th day of January, 2017.

For the Nuclear Regulatory Commission.

Thomas H. Boyce,
Chief, Regulatory Guidance and Generic Issues Branch, Division of Engineering, Office of Nuclear Regulatory Research.
