

and 15 percent or more for constructed export price sales sufficient to impute importer knowledge of sales at LTFV.¹⁴ The estimated weighted-average dumping margins in this investigation do not exceed the threshold sufficient to impute knowledge of dumping (*i.e.*, 25 percent for EP or 15 percent for CEP sales). Therefore, the Department finds that there is an insufficient basis to find that importers knew nor should have known that exporters in India were selling subject merchandise at LTFV.¹⁵ As such, we find that critical circumstances do not exist.

Amended Final Determination

As a result of correcting the ministerial errors, we determine that the weighted-average dumping margins and cash deposit rates are as follows:

Exporter/ producer	Weighted- average dumping margins (percent)	Cash deposit rate adjusted for subsidy offset (percent)
ATC Tires Pri- vate Ltd	3.67	0.00
All-Others	3.67	0.00

As stated above, the weighted-average dumping margin for BKT is unchanged from the *Final Determination* (*i.e.*, 0.00 percent).

“All-Others” Rate

Section 735(c)(5)(A) of the Act provides that the estimated “All Others” rate shall be an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero or *de minimis* margins, and any margins determined entirely under section 776 of the Act. As a result of our corrections to ATC’s final weighted-average margin, the only rate that is not *de minimis* in this investigation is the rate calculated for ATC. Consequently, in accordance with section 735(c)(5)(A) of the Act, we have assigned the rate calculated for ATC as the “All-Others”

¹⁴ See, e.g., *Notice of Final Determination of Sales at Less Than Fair Value and Affirmative Critical Circumstances Determination: Bottom Mount Combination Refrigerator-Freezers from Mexico*, 77 FR 17422, 17425 (March 26, 2012).

¹⁵ See *Certain Oil Country Tubular Goods from the Republic of Korea: Negative Preliminary Determination of Sales at Less than Fair Value, Negative Preliminary Determination of Critical Circumstances and Postponement of Final Determination*, 79 FR 10480 (February 25, 2014), unchanged in *Certain Oil Country Tubular Goods from the Republic of Korea: Final Determination of Sales at Less than Fair Value, Negative Final Determination of Critical Circumstances*, 79 FR 41983 (July 18, 2014).

rate, as indicated in the “Amended Final Determination Margins” section above.

Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, the Department will instruct U.S. Customs and Border Protection (CBP) to suspend liquidation on all appropriate entries of OTR tires from India, except as noted below, which were entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice. Additionally, because the weighted-average dumping margin for BKT in the *Final Determination* (*i.e.*, 0.00 percent) is unchanged, the Department is not directing CBP to suspend liquidation of entries of OTR tires from India produced and exported by this entity. The instructions suspending liquidation will remain in effect until further notice.

The Department will also instruct CBP to require cash deposits for suspended entries equal to the amounts as indicated above, which are adjusted for certain countervailable subsidies, where appropriate. The all-others rate applies to all producers or exporters not specifically listed. For the purpose of determining cash deposit rates, the estimated weighted-average dumping margins for imports of subject merchandise from India have been adjusted, as appropriate, for export subsidies found in the final determination of the companion countervailing duty investigation of this merchandise imported from India.¹⁶

U.S. International Trade Commission

In accordance with section 735(d) of the Act, we notified the U.S. International Trade Commission (ITC) of the *Final Determination* and our amended final determination. As the preliminary determination was negative and the amended final determination is affirmative, in accordance with section 735(b)(3) of the Act, the ITC will determine within 75 days of the affirmative amended final determination whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports or sales (or the likelihood of sales) for importation of the subject merchandise. If the ITC determines that such injury exists, the Department will issue an antidumping duty order directing CBP to assess, upon further instruction by the Department,

¹⁶ See *Countervailing Duty Investigation of Certain New Pneumatic Off-the-Road Tires from India: Final Affirmative Determination, and Final Affirmative Critical Circumstances Determination, in Part*, 82 FR 2946 (January 10, 2017); see also section 772(c)(1)(C) of the Act.

antidumping duties on all appropriate imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation.

This amended final determination is published in accordance with section 735(e) of the Act and 19 CFR 351.224(e).

Dated: January 30, 2017.

Ronald K. Lorentzen,

Acting Assistant Secretary for Enforcement and Compliance.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Atlantic Mackerel, Squid and Butterfish Amendment 14 Data Collection.

OMB Control Number: 0648-0679.

Form Number(s): None.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 426.

Average Hours Per Response: Vessel trip reports, 5 minutes; VMS activity declarations, 5 minutes; released catch affidavit form, 5 minutes; observer pre-trip notification of trip, 5 minutes; trip cancellation, 1 minute.

Burden Hours: 3,385.

Needs and Uses: This request is for extension of a current information collection. Under the Magnuson-Stevens Fishery Conservation and Management Act, the Secretary of Commerce has the responsibility for the conservation and management of marine fishery resources. Much of this responsibility has been delegated to NOAA’s National Marine Fisheries Service (NMFS). Under this stewardship role, the Secretary was given certain regulatory authorities to ensure the most beneficial uses of these resources. One of the regulatory steps taken to carry out the conservation and management objectives is to collect information from users of the resources.

This collection requires vessel trip reports (VTRs) to be submitted weekly

for all mackerel, squid, and butterfish permit holders. In addition, all limited access mackerel and longfin squid/butterfish moratorium permit holders must maintain a VMS unit on their vessels and declare intent to target Atlantic mackerel or longfin squid and submit daily catch reports via VMS. They must also submit daily catch reports via VMS. Vessels that land over 20,000 lb of mackerel must notify NMFS Office of Law Enforcement (OLE) via VMS of the time and place of offloading at least 6 hours prior to crossing the VMS demarcation line on their return trip to port, or if the vessel does not fish seaward of the VMS demarcation line, at least 6 hours prior to landing.

This collection also requires limited access mackerel and longfin squid/butterfish moratorium permit holders to bring all catch aboard the vessel and make it available for sampling by an observer. If catch is not made available to an observer before discard, that catch is defined as slippage, and the vessel operator must complete a "Released Catch Affidavit" form within 48 hours of the end of the fishing trip which details why catch was slipped, estimates the quantity and species composition of the slipped catch, and records the time and location of the slipped catch.

Finally, this collection requires any vessel with a limited access mackerel permit intending to land over 20,000 lbs of mackerel to contact NMFS at least 48 hours in advance of a fishing trip to request an observer. Vessels currently contact NMFS via phone, and selection notices or waivers are issued by NMFS via VMS. If service providers are unable to provide coverage, an owner, operator, or vessel manager may request a waiver by calling the Northeast Fisheries Observer Program.

Affected Public: Business or other for-profit organizations.

Frequency: Weekly, daily and on occasion.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Dated: January 27, 2017.

Sarah Brabson,

NOAA PRA Clearance Officer.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XF165

Fisheries of the Gulf of Mexico and the South Atlantic; Southeast Data, Assessment and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 48 Data Workshop for Southeastern U.S. black grouper.

SUMMARY: The SEDAR 48 assessment of Southeastern U.S. black grouper will consist of a Data Workshop; an assessment workshop and series of Assessment webinars; and a Review Workshop. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 48 Data Workshop will be held from 9 a.m. on March 15, 2017 until 3 p.m. on March 17, 2017; the Assessment Workshop and webinars and Review Workshop dates and times will publish in a subsequent issue in the **Federal Register**.

ADDRESSES:

Meeting address: The SEDAR 48 Data Workshop will be held at the Hilton St. Petersburg Bayfront, 333 1st Street, Saint Petersburg, FL 33701; telephone: (727) 894-5000.

SEDAR address: 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie Neer, SEDAR Coordinator; phone: (843) 571-4366 or toll free: (866) SAFMC-10; fax: (843) 769-4520; email: Julie.neer@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing workshops and webinars; and (3) Review Workshop. The product of the Data Workshop is a data report, which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment

Process is a stock assessment report, which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Data Workshop agenda are as follows:

1. An assessment data set and associated documentation will be developed.

2. Participants will evaluate all available data and select appropriate sources for providing information on life history characteristics, catch statistics, discard estimates, length and age composition, and fishery dependent and fishery independent measures of stock abundance, as specified in the Terms of Reference for the workshop.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 10 days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*
