

a covered institution's operational risk exposures due to factors such as changes in relationships with third-party vendors, overhaul of compliance management system, or potential new litigation exposures.

#### Response to Comments on Timing of Schedule Changes

One commenter requested (a) a minimum of six months between the publication of final changes to the reporting templates and the effective date of the changes; (b) the effective date for changes be aligned with the release of the technical instructions related to the changes; (c) clarifying questions be addressed before the effective date of a change; and (d) the technical instructions accompanying any proposed changes in the reporting templates be subject to public notice and comment. The OCC recognizes the challenges with implementing changes in a timely and controlled manner, especially when the changes are finalized close to the effective date. The OCC continues to balance the need to collect additional information with the objective of providing as much time as is feasible in advance of implementation.

In regards to the proposed changes contained in this notice, the OCC notes that the changes related to collecting components of the Supplementary Leverage Ratio on the Capital worksheet of the Summary Schedule allow for the incorporation of key measures of regulatory capital adequacy into the stress test. In the Operational Risk Schedule, the Material Risk Identification and Operational Risk Scenarios sub-schedules, which are not required for firms deemed "Large and Non-Complex," are often provided as part of the DFAST review in response to follow-up supervisory requests, so filling out these worksheets would simply formalize an existing process. Other changes are clarifying in nature: Streamlining the instructions, removing information, or aligning with the Board's FR Y-14A data collection. The OCC will continue to publish technical instructions as early as feasible.

*Type of Review:* Revision.

*Affected Public:* Businesses or other for-profit.

*Estimated Number of Respondents:* 25.

*Estimated Total Annual Burden:* 13,412.5.

The OCC believes that the systems covered institutions use to prepare the FR Y-14 reporting templates to submit to the Board will also be used to prepare the reporting templates described in this

notice. Comments continue to be invited on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the OCC, including whether the information has practical utility;

(b) The accuracy of the OCC's estimate of the burden of the collection of information;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

(e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.
