SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Construction Fall Protection Systems Criteria, Practices, and Training Requirements information collection requirements codified in regulations 29 CFR 1926.502 and -.503 that, respectively, require a covered employer to certify safety nets and to develop fall protection plans and to prepare worker training certification records. These standards help to ensure that the employer provides the required fall protection and training. Occupational Safety and Health Act sections 2(b) and 8(c) authorize this information collection. See 29 U.S.C. 651(b) and 657(c).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218-0197.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on February 28, 2017. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on September 30, 2016 (81 FR 67397).
