SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection.

This information collection describes special permits issued to participants in the Pacific halibut subsistence fishery in waters off the coast of Alaska and any appeals resulting from denials. The National Marine Fisheries Service (NMFS) designed the permits to work in conjunction with other halibut harvest assessment measures. Subsistence fishing for halibut has occurred for many years among the Alaska Native people and non-Native people. Special permits are initiated in response to the concerns of Native and community groups regarding increased restrictions in International Pacific Halibut Commission Area 2C and include Community Harvest Permits, Ceremonial Permits, and Educational Permits.

A Community Harvest Permit allows the community or Alaska Native tribe to appoint one or more individuals from its respective community or tribe to harvest subsistence halibut from a single vessel under reduced gear and harvest restrictions.

Ceremonial and Educational Permits are available exclusively to Alaska Native tribes. Eligible Alaska Native tribes may appoint only one Ceremonial Permit Coordinator per tribe for Ceremonial Permits or one authorized Instructor per tribe for Educational Permits.

Except for enrolled students fishing under a valid Educational Permit, special permits require persons fishing under them to also possess a Subsistence Halibut Registration Certificate (SHARC) (see OMB No. 0648-0460) which identifies those persons who are currently eligible for subsistence halibut fishing. Each of the instruments is designed to minimize the reporting burden on subsistence halibut fishermen while retrieving essential information.

II. Method of Collection

Respondents have a choice of either electronic or paper forms. Methods of submittal include online, email of electronic forms, mail, and facsimile transmission of paper forms. Educational Permits may not be applied for online.

Background

The survey will be administered to a sample of U.S. citizens age 16 and older to assess the nature, extent and scope of their participation in civic activity. Approximately 60,000 households (90,000 individuals) will be enrolled in the Current Population Survey and be included in the September survey supplement. The CPS is administered monthly by the U.S. Census for the Bureau of Labor Statistics to measure employment rates and labor trends. The information will be collected in-person and via telephone survey.

Current Action

This is a new information collection request. The previous data collection process occurred yearly across two separate months and included the Volunteer Supplement in September and the Civic Health Supplement in November. In consultation with the National Academy of Science and an ad hoc group of technical advisors and stakeholders, CNCS combined the supplements and shortened the instrument by eliminating redundant questions and items of low value, and by adding relevant queries.

The information collection will be used to generate civic health reports at the National, State, and Metropolitan Statistical Area (MSA) level and to disseminate these data to various stakeholders and end users for grant writing purposes and research.
