Importation, Interstate Movement, and Environmental Release of Certain Genetically Engineered Organisms

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Proposed rule; extension of comment period.

SUMMARY: We are extending the comment period for our proposed rule that would revise our regulations regarding the importation, interstate movement, and environmental release of certain genetically engineered organisms in order to update the regulations in response to advances in genetic engineering and understanding of the plant pest and noxious weed risk posed by genetically engineered organisms, thereby reducing burden for regulated entities whose organisms pose no plant pest or noxious weed risks. This action will allow interested persons additional time to prepare and submit comments.

DATES: The comment period for the proposed rule published on January 19, 2017 (82 FR 7008) is extended. We will consider all comments that we receive on or before June 19, 2017.

II. Background, Purpose, and Legal Basis

Previous rulemakings defined a number of anchorages and one non-anchorage area throughout the greater Puget Sound area. Since those rulemakings, additional informal anchorages, holding areas, and a non-anchorage area have been utilized to accommodate the wide variety of vessels now calling on Puget Sound ports. Coast Guard Vessel Traffic Service (VTS) Puget Sound, working with shipping agents, pilots, and other stakeholders, identified and started using these anchorages and areas to improve the safety of maritime traffic. Because these anchorages and areas are not formally established, however, they are not included on nautical charts, referenced in the Coast Pilot, or subject to regulations. Accordingly, this proposed rule would formally designate these anchorages and areas. In addition, it would establish new and clarify existing regulations governing the use of all anchorages and areas in the Puget Sound area. The purpose of these actions is to improve the safety of all Puget Sound waterway users. The Coast Guard proposes this rulemaking under the authority established in 33 U.S.C. 471, 1221 through 1236, 2071; 33 CFR 1.05–1; and Department of Homeland Security Delegation No. 0170.1.

III. Discussion of Proposed Rule

This rulemaking proposes the creation of several new anchorages, holding areas, and a non-anchorage area as well as the expansion of one existing general anchorage in the Puget Sound area, as detailed in the proposed regulatory text. Graphic depictions of the anchorages, holding areas, and non-anchorage area are included in the docket. In general, they are located in the vicinity of Port Townsend, Commencement Bay, Port Angeles, Vashon Island, Quartermaster Harbor, and Budd Inlet. The proposed anchorages and areas have been used for many years informally, however, they
