These statutes provide that FSIS is to protect the public by verifying that meat and poultry products are safe, wholesome, not adulterated, and properly labeled and packaged.

FSIS is announcing its intention to request a revision of the approved information collection regarding nutrition labeling of the major cuts of single-ingredient raw meat or poultry products and ground or chopped meat and poultry products. OMB approval will expire on May 31, 2017. Based on the latest available data, FSIS has increased its total annual burden estimate by 2,693 hours, to account for an increase in the number of retail operations making products subject to nutrition labeling requirements.

FSIS requires nutrition labeling of the major cuts of single-ingredient, raw meat and poultry products, unless an exemption applies. FSIS also requires nutrition labels on all ground or chopped meat and poultry products, with or without added seasonings, unless an exemption applies. Further, the nutrition labeling requirements for all ground or chopped meat and poultry products are consistent with the nutrition labeling requirements for multi-ingredient and heat processed products. (9 CFR 381.400(a), 9 CFR 317.300(a), 9 CFR 317.301(a), 9 CFR 381.401(a)).

FSIS has made the following estimates based upon an information collection assessment:

Estimated Number of Respondents: 76,439.

Estimated Number of Annual Responses per Respondent: 1.8.

Estimated Total Annual Burden on Respondents: 68,755 hours.

Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20253.
