SURFACE TRANSPORTATION BOARD

[Docket No. EP 290 (Sub-No. 4)]

Railroad Cost Recovery Procedures— Productivity Adjustment

AGENCY: Surface Transportation Board.

ACTION: Tentative Railroad Cost Recovery Procedures Productivity Adjustment.

SUMMARY: In a decision served on February 14, 2017, the Surface Transportation Board tentatively adopted 1.020 (2.0% per year) as the measure of average change in railroad productivity for the 2011–2015 (five-year) averaging period. This value represents an increase of 0.6% from the average for the 2010–2014 period. Because of the unique circumstances of this year's productivity adjustment calculation, including the proposal of a linking factor to address a change in methodology in the calculation of an input to the productivity adjustment, the Board is making its productivity adjustment tentative to allow public comment on this approach.
