Administration for Children and Families

Submission for OMB Review; Comment Request

Title: National Survey of Child and Adolescent Well-Being-Third Cohort (NSCAW III): Data Collection.

OMB No.: 0970-0202.

Description: The Administration for Children and Families (ACF) within the U.S. Department of Health and Human Services (HHS) intends to collect data on a third cohort of children and families for the National Survey of Child and Adolescent Well-Being (NSCAW III). NSCAW is the only source of nationally representative, longitudinal, firsthand information about the functioning and well-being, service needs, and service utilization of children and families who come to the attention of the child welfare system. Information is collected about children's cognitive, social, emotional, behavioral, and adaptive functioning, as well as family and community factors that are likely to influence their functioning. Family service needs and service utilization also are addressed in the data collection.

A previous notice provided the opportunity for public comment on the proposed Phase 1 recruitment and sampling process (FR V.81, 4/8/2016). This notice is specific to the Phase 2 data collection activities: (1) Baseline and (2) 18-month follow-up data collection. Data collection includes child interviews and direct assessments, as well as caregiver and caseworker interviews. The overall goal is to maintain the strengths and continuity of the prior surveys while better positioning the study to address changes in the child welfare population.

Respondents: Children, and their associated caregivers and caseworkers.
