

Dated: February 1, 2017.

John A. Trelease,

Acting Chief, Division of Regulatory Support.

[FR Doc. 2017-03526 Filed 2-22-17; 8:45 am]

BILLING CODE 4310-05-P

DEPARTMENT OF LABOR

Office of the Secretary

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Report on Occupational Employment and Wages

ACTION: Notice.

SUMMARY: The Department of Labor (DOL) is submitting the Bureau of Labor Statistics (BLS) sponsored information collection request (ICR) revision titled, "Report on Occupational Employment and Wages," to the Office of Management and Budget (OMB) for review and approval for use in accordance with the Paperwork Reduction Act (PRA) of 1995. Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that agency receives on or before March 27, 2017.

ADDRESSES: A copy of this ICR with applicable supporting documentation; including a description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained free of charge from the *RegInfo.gov* Web site at http://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=201611-1220-001 (this link will only become active on the day following publication of this notice) or by contacting Michel Smyth by telephone at 202-693-4129, TTY 202-693-8064, (these are not toll-free numbers) or sending an email to DOL_PRA_PUBLIC@dol.gov.

Submit comments about this request by mail or courier to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for DOL-BLS, Office of Management and Budget, Room 10235, 725 17th Street NW., Washington, DC 20503; by Fax: 202-395-5806 (this is not a toll-free number); or by email: OIRA_submission@omb.eop.gov. Commenters are encouraged, but not required, to send a courtesy copy of any comments by mail or courier to the U.S. Department of Labor-OASAM, Office of the Chief Information Officer, Attn: Departmental Information Compliance Management Program, Room N1301, 200 Constitution Avenue NW., Washington, DC 20210; or by email: DOL_PRA_PUBLIC@dol.gov.

FOR FURTHER INFORMATION CONTACT:

Michel Smyth by telephone at 202-693-4129, TTY 202-693-8064, (these are not toll-free numbers) or sending an email to DOL_PRA_PUBLIC@dol.gov.

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA to revise the Report on Occupational Employment and Wages information collection. The Occupational Employment Statistics (OES) survey is a Federal/State establishment survey of wage and salary workers designed to produce data on current detailed occupational employment and wages for each Metropolitan Statistical Area and Metropolitan Division as well as by detailed industry classification. OES survey data assists in the development of employment and training programs established by the Perkins Vocational Education Act of 1998. This ICR has been classified as a revision, because the BLS seeks to reinstate an industry-specific long form as a supplemental tool for data collection. That form had been discontinued in October 2016. The Wagner-Peyser Act authorizes this information collection. See 29 U.S.C. 491-2.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1220-0042. The current approval is scheduled to expire on October 31, 2016; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on April 22, 2016 (81 FR 23753).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure

appropriate consideration, comments should mention OMB Control Number 1220-0042. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: DOL-BLS.

Title of Collection: Report on Occupational Employment and Wages.

OMB Control Number: 1220-0042.

Affected Public: Federal Government; State, Local, and Tribal Governments; and Private Sector—businesses or other for-profits, not-for-profit institutions.

Total Estimated Number of Respondents: 297,521.

Total Estimated Number of Responses: 297,521.

Total Estimated Annual Time Burden: 148,760 hours.

Total Estimated Annual Other Costs Burden: \$0.

Dated: February 16, 2017.

Michel Smyth,

Departmental Clearance Officer.

BILLING CODE 4510-24-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: (17-009)]

NASA Federal Advisory Committees

AGENCY: National Aeronautics and Space Administration.

ACTION: Annual Invitation for Public Nominations by U.S. Citizens for Service on NASA Federal Advisory Committees on Science.

SUMMARY: NASA announces its annual invitation for public nominations for service on four new Federal advisory committees of NASA that advise NASA on science. The four new committees,

formerly subcommittees of the NASA Advisory Council (NAC) Science Committee (NAC SC), have been established under the Federal Advisory Committee Act (FACA), and will advise four divisions of the NASA Science Mission Directorate (SMD). On December 2, 2016, NASA published a notice in the **Federal Register** announcing their establishment [**Federal Register**, Vol. 81, No. 232, pages 87082–87083].

U.S. citizens may submit self-nominations for consideration to fill vacancies on these four new committees. There will be member vacancies from time to time throughout the year, and NASA will consider self-nominations to fill such intermittent vacancies. *Nominees will only be contacted should a vacancy be available and it is judged that their area(s) of expertise is appropriate for that specific vacancy.* NASA is committed to selecting members to serve on these committees based on their individual expertise, knowledge, experience, current/past contributions to the relevant subject area and overall diversity of the committee. All member appointments are non-compensated. However, NASA does cover travel and per diem expenses for all member appointments.

DATES: The deadline for NASA receipt of all public nominations is March 8, 2017.

ADDRESSES: To be considered by NASA, self-nomination packages from interested U.S. citizens must be sent to NASA as an email and must include the name of the specific committee of interest. Self-nomination packages are limited to specifying interest in only one committee per year. The following information is required to be included as part of each self-nomination package: (1) A cover email including the name of the specific committee of interest; (2) a professional resume (one-page maximum, included as an attachment); and, (3) a professional biography (one-page maximum; included as an attachment). All public self-nomination packages must be submitted electronically via email to NASA at one of the addresses listed below; paper-based documents sent through postal mail (hard-copies) will not be accepted. Note: Self-nomination packages that do not include the three (3) mandatory elements listed above will not receive further consideration by NASA.

Please submit the nomination as a single package containing the cover email and both required attachments electronically to the specific email

address identified for the committee of interest:

- Astrophysics Advisory Committee (APAC): apac-execsec@hq.nasa.gov
- Earth Science Advisory Committee (ESAC): esac-execsec@hq.nasa.gov
- Heliophysics Advisory Committee (HPAC): hpac-execsec@hq.nasa.gov
- Planetary Science Advisory Committee (PAC): pac-execsec@hq.nasa.gov

FOR FURTHER INFORMATION CONTACT: To obtain further information on these committees, please visit the Web sites noted below for each. For any questions, please contact Ms. DaMara Belson, Science Mission Directorate, NASA Headquarters, (202) 358–2457; or email [damara.m.belson@nasa.gov](mailto:damura.m.belson@nasa.gov).

SUPPLEMENTARY INFORMATION: Nominees from any category of organizations or institutions within the U.S. are welcome, including, but not limited to, educational, industrial, and not-for-profit organizations, Federally Funded Research and Development Centers (FFRDCs), University Affiliated Research Centers (UARCs), NASA Centers, the Jet Propulsion Laboratory (JPL), and other Government agencies. Nominees need not be presently affiliated with any organization or institution.

The following qualifications/experience are highly desirable in nominees, and should be clearly presented in their self-nomination packages:

- Substantial (7–10 years post-Ph.D.) research experience including publications in the scientific field of the committee for which they are nominated, or comparable experience;
- Leadership in scientific and/or education and public outreach fields as evidenced by award of prizes, invitation to national and international meetings as speaker, organizer of scientific meetings/workshops, or comparable experience;
- Participation in NASA programs either as member of NASA mission science team, Research and Analysis program, membership on an advisory/working group or a review panel, or comparable experience;
- Good knowledge of NASA programs in the scientific field of the committee for which they are applying, including the latest NASA Science Plan (available as a link from <http://science.nasa.gov/about-us/science-strategy/>); and,
- Knowledge of the latest Decadal Survey conducted by the National Academies or other relevant advisory reports for the scientific field of the committee.

These are not full-time positions and the likelihood that a vacancy will occur in the coming year is unknown at this time. Committee members will be required to attend meetings of the committee approximately two or three times a year, either in person or via telecon and/or virtual meeting medium. Each nominee of potential interest to NASA will be required to submit a Confidential Financial Disclosure Report (OGE Form-450) to NASA, and undergo conflict of interest review and clearance by the NASA Office of the General Counsel prior to formal appointment. Committee members will be formally appointed as Special Government Employees (SGEs), unless they are Regular Government Employees (RGEs).

An overview of each of the four committees is listed below.

- **Astrophysics Advisory Committee (APAC)** (science.nasa.gov/science-advisory_committees/apac)—The Astrophysics Advisory Committee is a new FACA committee of NASA, and replaces the Astrophysics Subcommittee of the NAC SC. The APAC shall draw on the expertise of its members to provide advice and make recommendations to the Director, Astrophysics Division, SMD, on astrophysics programs, policies, plans and priorities. The scope of the APAC includes projects and observational and theoretical study of the origins, evolution, and destiny of the universe and the search for and study of Earth-like planets and habitable, extrasolar environments. In addition to scientific research, the scope encompasses considerations of the development of near-term enabling technologies, systems, and computing and information management capabilities, developments with the potential to provide long-term improvements in future operational systems, as well as training of the next generation of astronomers, and education and public outreach.

- **Earth Science Advisory Committee (ESAC)** (science.nasa.gov/science-advisory_committees/esac)—The Earth Science Advisory Committee is a new FACA committee of NASA, and replaces the Earth Science Subcommittee of the NAC SC. The ESAC shall draw on the expertise of its members to provide advice and make recommendations to the Director, Earth Science Division, SMD, on Earth Science programs, policies, plans and priorities. The ESAC's recommendations and analysis can be used to inform decisions on the programmatic scope and priorities, as well as the implementation of Earth science programs. In addition, the ESAC

will provide a regular forum for broad discussion of Earth science and the role of Earth science within and outside of NASA.

- *Heliophysics Advisory Committee (HPAC)* (science.nasa.gov/science-advisory_committees/hpac)—The Heliophysics Advisory Committee is a new FACA committee of NASA, and replaces the Heliophysics Subcommittee of the NAC SC. The HPAC shall draw on the expertise of its members to provide advice and make recommendations to the Director, Heliophysics Division, SMD, on heliophysics programs, policies, plans and priorities. The scope of the HPAC includes all aspects of heliophysics, including the dynamical behavior of the Sun and its heliosphere; the dynamical behavior of the magnetosphere, ionosphere, and upper atmosphere of Earth and other planets; the multi-scale interaction between solar system plasmas and the interstellar medium; energy transport and coupling throughout the heliophysics domain; and space weather. In addition to scientific research, the scope encompasses considerations of the development of enabling technologies, systems, and computing and information management capabilities, as well as developments with the potential to provide long-term improvements to future space weather operational systems.

- *Planetary Science Advisory Committee (PAC)* (science.nasa.gov/science-advisory_committees/pac)—The Planetary Science Advisory Committee is a new FACA committee of NASA, and replaces the Planetary Science Subcommittee of the NAC SC. The PAC shall draw on the expertise of its members to provide advice and make recommendations to the Director, Planetary Science Division, SMD, on planetary science programs, policies, plans and priorities. The scope of the PAC includes all aspects of planetary science, scientific exploration of the Moon and Mars, the robotic exploration of the solar system, astrobiology, exoplanet research, space- and ground-based research, technology development, planning, and training required to support these science areas. In addition to scientific research, the scope encompasses considerations of the development of near-term enabling technologies, systems, and computing and information management capabilities, as well as developments with the potential to provide long-term improvements in future operational systems. Responsibility for biological

planetary protection is outside the purview of the PAC.

Patricia D. Rausch,

*Advisory Committee Management Officer,
National Aeronautics and Space
Administration.*

BILLING CODE 7510-13-P

NUCLEAR REGULATORY COMMISSION

[NRC-2017-0052]

Clarification of Licensee Actions in Enforcement Guidance Memorandum EGM 15-002, Enforcement Discretion for Tornado-Generated Missile Protection Noncompliance, Revision 1

AGENCY: Nuclear Regulatory
Commission.

ACTION: Draft interim staff guidance;
request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is soliciting public comment on its draft Interim Staff Guidance (ISG), Clarification of Licensee Actions in Receipt of Enforcement Discretion per Enforcement Guidance Memorandum (EGM) 15-002, "Enforcement Discretion for Tornado-Generated Missile Protection Noncompliance," Revision 1. The NRC staff is publishing this revised ISG for public comment. The revisions provide clarifying guidance to facilitate staff understanding of expectations for consistent oversight associated with implementing enforcement discretion for tornado missile protection noncompliance(s), as discussed in EGM 15-002, Revision 1.

DATES: Submit comments by March 27, 2017. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received before this date.

ADDRESSES: You may submit comments by any of the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2017-0052. Address questions about NRC dockets to Carol Gallagher; telephone: 301-415-3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *Mail comments to:* Cindy Bladey, Office of Administration, Mail Stop: OWFN-12-H08, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

For additional direction on obtaining information and submitting comments, see "Obtaining Information and Submitting Comments" in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: James Hickey, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington DC 20555-0001; telephone: 301-415-2180, email: James.Hickey@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2017-0052 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2017-0052.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) it is provided the first time that it is mentioned in this document. The ISG, "Clarification of Licensee Actions in Receipt of Enforcement Discretion Memorandum 15-002, "Enforcement Discretion for Tornado-Generated Missile Protection Noncompliance," Revision 1, is available in ADAMS under Accession No. ML16342A940. The EGM 15-002, "Enforcement Discretion for Tornado-Generated Missile Protection Noncompliance," Revision 1 is available in ADAMS under Accession No. ML16355A286.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

B. Submitting Comments

Please include Docket ID NRC-2017-0052 in your comment submission.

The NRC cautions you not to include identifying or contact information that
