FERC-549D, [Quarterly Transportation and Storage Report for Interstate Gas and Hinshaw Pipelines]

OMB Control No.: 1902-0253.

Abstract: The reporting requirements under FERC-549D are required to carry out the Commission's policies in accordance with the general authority in Sections 1(c) of the Natural Gas Act (NGA) ¹ and Sections 311 of the Natural Gas Policy Act of 1978 (NGPA).² This collection promotes transparency by collecting and making available intrastate and Hinshaw pipeline transactional information. The Commission collects the data upon a

standardized form with all requirements outlined in 18 CFR 284.126.

The FERC Form 549D collects the following information:

- Full legal name and identification number of the shipper receiving service;
- Type of service performed for each transaction;
- The rate charged under each transaction;
- The primary receipt and delivery points for the transaction, specifying the rate schedule/name of service and docket were approved;
- The quantity of natural gas the shipper is entitled to transport, store, and deliver for each transaction;
- The term of the transaction, specifying the beginning and ending month and year of current agreement;

• Total volumes transported, stored, injected or withdrawn for the shipper; and

• Annual revenues received for each shipper, excluding revenues from storage services.

Filers submit the Form-549D on a quarterly basis.

Access to the FERC-549D Information Collection Materials: A copy of the current form and related materials can be found at <http://www.ferc.gov/docs-filing/forms.asp#549d>, but will not be included in the **Federal Register**. The Commission will not publish these materials in the **Federal Register**.

Type of Respondent: Intrastate natural gas and Hinshaw pipelines.

Texas Eastern Transmission, LP; Brazoria Interconnector Gas Pipeline LLC; Notice of Application

Take notice that on February 3, 2017, Texas Eastern Transmission, LP (Texas Eastern) in Docket No. CP17-56-000 and Brazoria Interconnector Gas Pipeline LLC (Brazoria Pipeline) in Docket No. CP17-57-000, 5400 Westheimer Court, Houston, Texas 77056, jointly filed an application pursuant to section 7(c) of the Natural Gas Act and Part 157 of the Commission's regulations for the proposed Stratton Ridge Expansion Project (Project) located in Brazoria County, Texas. The Project will create 322,000 Dth/d of firm transportation capacity to deliver natural gas from multiple receipt points on Texas Eastern's interstate pipeline system to a delivery point on Brazoria Pipeline's

intrastate pipeline system at Stratton Ridge in Brazoria County, Texas.

Specifically, the applicants request: (i) A certificate of public convenience and necessity for Texas Eastern to construct, install, own, operate and maintain the Project facilities, as proposed in the application, and acquire, by lease, capacity on the Brazoria Pipeline's non-jurisdictional facilities; (ii) authorization for Texas Eastern to charge the initial incremental recourse rates, an incremental fuel percentage and incremental electric power costs for firm service on the Project; (iii) authorization for Texas Eastern to establish separate initial incremental recourse rates and an applicable fuel percentage for service under Rate Schedules FT-1 and IT-1 applicable to shippers desiring access to the capacity leased on Brazoria Pipeline's facilities; and (iv) a limited jurisdiction certificate of public convenience and necessity authorizing Brazoria Pipeline to lease 322,000 Dth/d of pipeline capacity on its non-jurisdictional facilities to Texas Eastern. The Project is part of Texas Eastern's plan to develop firm bi-directional transportation service to connect diverse supply basins with emerging Gulf Coast markets, all as more fully set forth in the application, which is on file with the Commission and open to public inspection. The filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and

place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's

⁵ The estimates for cost per response are derived using the 2016 FERC average salary plus benefits of \$154,647/year (or \$74.50/hour). Commission staff finds that the work done for this information collection is typically done by wage categories similar to those at FERC.
